BLONDEAU et CIE., RYLAND ROAD, LONDON, N.W.

Goods arrive in about 4 months after order is given

SPECIAL NOTICE.

TOWN DELIVERY OF GOODS.

Goods are delivered three times daily by the Stores' own Vans, to the localities named in the detailed list on p. 26.

Orders (written) may be given to the Vanmen, provided the van is not detained thereby. This only applies to orders upon D.O. account. The Vanmen are strictly prohibited from receiving money in payment of orders.

Orders of the value of 5s. and upwards are delivered free to the Suburbs, within Carter, Paterson and Co.'s radius, see p. 28.

POST ORDERS FOR MEAT, POULTRY, &c.

The execution of these orders by the Morning Van Delivery can only be guaranteed when they are written upon the "Special" Order Forms provided for the purpose and obtainable on application.

POST AND COUNTRY ORDERS.

It will facilitate the selection of ORDERS from the mass of correspondence received daily, if the word "ORDER" be written at the top left-hand corner of the envelope. Printed addressed envelopes can be purchased in the Stationery Department, price 9d. per 100.

POST CARD ORDER FORMS.

Members having Deposit Order Accounts can purchase in the Stationery Department Post Cards specially printed with the Stores' address and Order Form, price 6d. per packet of 10.

RENEWAL OF ANNUAL TICKETS.

Annual Tickets expire on the anniversary of the date of issue, and should then be forwarded at once to the Stores for renewal, together with a remittance of 2s. 6d.

INTERIM DIVIDEND.

Notice is hereby given that an Interim Dividend at the rate of Five per cent. per annum, for the six months ending June 30th, 1891, will be payable, upon application, on and after Thursday, October 1st.

Warrants for the Dividend will be posted to Shareholders holding twenty Shares and upwards.

Shareholders having Deposit Order Accounts will find the Dividend credited in their Pass Books unless they give instructions to the contrary.

NEW SHARES.

For Circulars relating to the New Issue of Shares, see p. 13.

SUPPLEMENTARY PRICE LISTS.

The following Price Lists are published separately, and can be obtained upon application to the Secretary:—

Books and Music List (see p. 341).

Canteen Price List (see p. 131).

The Illustrated Carriage Catalogue (see p. 613).

The Illustrated Furniture Catalogue (see p. 1481).

DAYS ON WHICH THE STORES WILL BE CLOSED.

The Stores will be closed on December 25th, 1891 (Christmas Day), December 26th (Bank Holiday), January 1st, 1892 (Stock Taking), April 15th-18th (Easter Holidays), June 6th (Bank Holiday), July 1st (Stock Taking), and August 1st (Bank Holiday).

CHINA AND GLASS DEPARTMENT.

Important Notice.

Hitherto China and Glass have been excluded from the privileges respecting Free Carriage according to the scale set out in the Price List, page 24. In future, however, carriage will be paid upon purchases in this Department to the amount named in the scale. But the value of China and Glass purchases cannot be reckoned in with that of a general order to secure payment of carriage, and such purchases can only be enclosed with other goods at Members' risk of breakage.

MISSING ARTICLES.

Complaints are frequently received from Members that articles included in their orders have been omitted. In such cases the Society invariably requests that further search may be made, as many letters are received from Members who had made such complaints, intimating that, after the subsequently asked-for search, the missing articles had been found; and in addition to this, articles of almost every description, overlooked in unpacking, are frequently returned to the Stores in packing-cases declared as "Empty."

RETURNED EMPTIES.

When returning empties, Members are requested to advise the Stores of their despatch, either on post card or on the printed form provided for the purpose, and to state *upon the label* the *postal address* to which the Credit Notes are to be sent, as it frequently happens that only the name of the station to which the Packing Case was sent appears on the address label, and hence, unless the postal address is furnished, Credit Notes cannot be issued until an application has been received from the sender.

RETURN OF EMPTY PACKING CASES.

Members are requested to assist the Management by returning empty packing cases as soon as possible after the receipt of the goods, and to advise the Stores of their despatch.

EXPORT ORDERS.

Full particulars and a List of the Society's Agents Abroad will be found on pages 133 and 134.

Export Orders are received at the Enquiry Office, in the Grocery Department, Ground Floor.

A List of Omnibuses passing the Stores, and also a Table of Cab Fares will be found at pages 8 to 12.

OBJECTS AND CONSTITUTION

OF THE

JUNIOR ARMY AND NAVY STORES,

LIMITED.

THE OBJECTS OF THE JUNIOR ARMY AND NAVY STORES ARE, firstly, to supply the best articles of domestic consumption and general use at the lowest remunerative Prices; and, secondly, to introduce such additions and improvements as experience may find to be necessary and desirable.

The MEMBERS consist of SHAREHOLDERS, LIFE MEMBERS, and ANNUAL TICKETHOLDERS.

SHAREHOLDERS.

The following are eligible, viz. :—Officers in, or who have served in, the Navy, Army or Auxiliary Forces and Royal Naval Reserve; and the Wives, Widows, Sons, and Daughters of Officers, Non-Commissioned and Petty Officers who are serving, or have served, in the Navy, Army, Auxiliary Forces, or Royal Naval Reserve, the Secretaries of Naval and Military Clubs, the Representatives of Naval and Regimental Messes and Canteens, and others who may be approved by the Committee of Direction.

Shareholders participate in Profits, are entitled to deal at the Stores, and have the privileges as regards payment of carriage upon goods, as set out on p. 24.

LIFE MEMBERS

Have all the privileges of Shareholders except a participation in the profits and management.

Life Members' Tickets cost £1 1s. each, they expire with the life of the authorized holder, and are at no time transferable.

The Committee may cancel them, should they see fit, without assigning any reason, on repayment of £1 1s., less 2s. 6d. for each year the ticket has been in force.

ANNUAL TICKET HOLDERS.

Annual Tickets may be taken out on any date, and will be available for **TWELVE MONTHS FROM DAY OF ISSUE**, *i.e.*, an Annual Ticket issued on, say, the 21st March, 1891, will expire on the 20th March, 1892.

Annual Tickets can be obtained by personal application at the Stores, or by written application to the Secretary. All such applications must be accompanied by a remittance of 2s. 6d. It is requested this may be made by Postal Order and not in stamps.

The Directors reserve to themselves the right of declining to renew any Annual Ticket, or to cancel any ticket on repayment of the current year's subscription.

For the issue of a duplicate ticket to replace one lost or mislaid, a charge of 6d. will be made.

FORMS OF NOMINATION, AND OF APPLICATION FOR MEMBERSHIP WILL BE FOUND ON THE PRECEDING PAGES.

RULES, INSTRUCTIONS TO MEMBERS, &c.

THE TICKET NUMBER SHOULD BE QUOTED ON ALL ORDERS
AND IN ALL COMMUNICATIONS WITH THE STORES.

CORRESPONDENCE.

All Letters should be addressed to—

THE SECRETARY,

JUNIOR ARMY AND NAVY STORES, LIMITED,

YORK HOUSE, REGENT STREET,

LONDON, S.W.

In order to prevent the misdirection of replies, the rank or condition of the writer should **always** be distinctly added to the signature.

When replying to letters received from the Stores, the reference number (if any) on the Stores' letter should be quoted.

Letters enquiring for orders delayed, or goods not received, should always mention the date of order, the description of goods, and the Department concerned; and also state whether the order was given personally or by post, and whether on Deposit Order Account or not.

Letters and telegrams merely referring to "goods," without particulars, entail very considerable delay in investigation.

Letters referring to goods already received should be accompanied by the invoice.

Envelopes, printed with the Address of the Society, are sold in the Stationery Department. For prices, see p. 265.

CHANGE OF ADDRESS.

Shareholders and Members are particularly requested to notify any change in their address, or rank, and to write a **separate** letter for this purpose. The Ticket Number should be quoted to facilitate identification.

TELEGRAMS.

The only address needed for telegrams (Inland or Foreign) sent to the Society is "**SUPPLIES, LONDON.**" For the Aldershot Branch "**SUPPLIES, ALDERSHOT.**" For the Dublin Branch "**SUPPLIES, DUBLIN.**"

Members are specially requested, when telegraphing respecting orders, to quote name of Department concerned, and the nature of goods referred to, as, owing to the omission of these, it is often impossible to trace the transaction.

Orders by telegram can only be executed for Members having a Deposit Order Account, to which reference should be made, and the Ticket number quoted.

The cost of Telegrams may be considerably lessened by using the "Unicode." (Sold at the Stores (Book Department), price 1s. 10½d.)

Telephone.—The registered number of the Society is 3504.

PERSONAL ORDERS.

All Articles purchased at the Stores must be paid for at the time of purchase.

When goods are to be charged to Deposit Order Account, the counterman's order book **MUST** be signed by the Member. The Ticket Number should always be quoted.

Members sending friends or messengers to the Stores to make purchases to be charged against their Deposit Order Account, should furnish them with a letter authorising them to sign the Counterman's order book on their behalf.

ENCLOSURE CARDS. For Goods "To be Forwarded."

Members personally ordering Goods "to be forwarded" from more than one Department, and desiring their purchases sent in one consignment, are requested to apply in the Department in which the first purchase is made, for an "Enclosure Card," which must be initialled by the Assistant in **EACH** Department where the Goods are ordered.

When their purchases are complete, Members must leave this Enclosure Card in the box provided for that purpose in the Entrance Hall.

Purchases which are taken away by the Member at the time, must not be entered upon the "Enclosure Card."

"ONE PAYMENT" SYSTEM.

For the convenience of Members making purchases in various Departments, and who do not desire to take the goods away with them, the above system has been introduced in order to save time and trouble.

Purchases can be made in all, or any, of the Departments, and upon production of the Bills at the Chief Cashier's Office (Ground Floor), one Payment can be made, instead of separate payments in each Department. Members are requested to ask for the "Enclosure Card" in the Department in which the first purchase is made.

Members wishing to take away goods purchased in any Department, must pay at the Cashier's Desk in the usual way, and not have the amount entered on the "Enclosure Card."

ORDERS BY POST.

Orders by Post (in cases where no Deposit Order Account is opened) must be accompanied by a remittance.

Orders should be written on the Stores' Printed Order Forms, and a separate form should be used for every Department. If orders for several Departments are included on one Order Form, or on one sheet of writing paper, delay will arise before the order can be executed.

It is essential that orders on Deposit Order Account should either be on the Green Order Forms provided for the purpose, or be plainly marked "Deposit Order Account." All such orders should be signed at the foot by the Member.

Order books can be obtained on application to the Secretary. It should always be stated whether Deposit Order Account Order Forms are required or not.

Orders should quote the Postal Address, to which acknowledgment of remittance may be sent, and also the name of the nearest Goods Station, or other particulars for the despatch of the goods.

It is particularly requested that Shareholders and Life Members will quote the number of their ticket on every order, as the word "Shareholder" or "Life Member" without the number is insufficient, and will not entitle them to free carriage, according to the scale on page 24.

It will facilitate the selection of Orders from the mass of correspondence received daily, if the word "ORDER" be written at the top left-hand corner of the envelope.

APPLICATIONS FOR BALANCE OF PAYMENT.

Through inaccurate addition, fluctuation of prices, and especially from the difficulty of cutting the precise quantities of cheese, bacon, &c., ordered, it often becomes necessary to apply for a further remittance to complete payment. In such cases a printed form is sent, a portion of which Members should return with the remittance. The invoices accompanying the goods give the full details of prices, showing where the deficiency has occurred, and the remittance should be sent per return post. The goods ordered *are not held back* for this balance.

The Prices of all Articles are subject to Alteration from time to time, according to the fluctuations of the Wholesale Markets.

ESTIMATES. These will be given in writing. Verbal estimates cannot be recognized by the Society.

INVOICES.

Invoices are sent with the goods; but Grocery Invoices sometimes require to be re-copied, through goods being out of stock, or not in season. In such cases the goods are not kept back, but the Invoice follows by post.

A great amount of time being taken up in making copies of lost invoices, Members are requested to use as much care as possible in retaining them. The supply of copy invoices cannot be guaranteed unless applied for within 14 days from the execution of the order.

CASH.

All Cheques should be made payable to the "Junior Army and Navy Stores, Limited," and crossed a/c J. A. & N. Stores.

Postal Orders and Post Office Orders should be made payable to John Bathurst, at the General Post Office, **AND SHOULD ALWAYS BE CROSSED** a/c J. A. & N. Stores.

CAUTION.—If Postal Orders are not "crossed" they can readily be cashed in the event of the letter being stolen in transit through the post.

Stamps should not be sent in payment of sums exceeding 2s. 6d.

To allow for occasional fluctuations in prices it is well to include in remittances a little more than the total of the Order. After the Order has been executed, the surplus (if amounting to 6d.) will be promptly returned by Credit Note. Sums under 6d. are entered to the Members' credit in the Stores' books, and are taken account of in the next order.

Deductions must not be made on account of "empties," either returned or awaiting return, nor for surplus cash from previous orders, unless the CREDIT NOTES, which have been issued from the Stores for the same, are also forwarded.

Credit notes must be signed by the Member before being returned to the Stores.

Remittances intended for the credit of Deposit Order Account should be clearly marked "D/O. a/c."

ACKNOWLEDGMENT OF CASH.

Members remitting money by post will receive a form of acknowledgment bearing a distinctive number.

Any failure to receive such an acknowledgment should be promptly reported to the Secretary.

Members making personal payments of any kind in the Chief Cashier's Office are requested to obtain a printed form of receipt.

MISSING ARTICLES.

Complaints are frequently received from Members that articles included in their orders have been omitted. In such cases the Society invariably requests that further search may be made, as many letters are received from Members who had made such complaints, intimating that after the subsequently asked-for search, the missing articles had been found; and in addition to this, articles of almost every description, overlooked when unpacking, are frequently returned to the Stores in packing cases declared as "Empty."

NON-RETURNABLE PACKING CASES.

Country Members can have their goods packed in **non-returnable Cases**, which will be charged for at the rate of 1d. for every 5s. (4d. in the £) of the order. Members should add this amount to their remittances, and state clearly on their orders "*Pack in non-returnable Cases.*"

The advantages to Members in adopting this system are as follows:—

- a. Reduction of Carriage on Goods, since the Cases are of light construction, and consequently are only half the ordinary weight.
- b. Trouble and expense are avoided of returning Cases, important when distance from Railway Station is considerable.
- c. A saving of the Railway Company's charge for returned Cases (seldom less than 4d. for distances of 50 miles).
- d. No trouble in advising the Stores that Cases are returned.
- e. The Case belongs to the Member.

This system relates only to ordinary sized Packing Cases, and does not apply to cases for bulky goods.

Goods dispatched to places beyond 150 miles from London will always be packed in non-returnable cases, charged as above. A charge to cover cost will also be made for any cases or crates specially constructed for articles of unusual size.

GOODS RETURNED.

Members returning Goods in the Stores' Cases are reminded that they must be declared to the Railway Companies or Carriers as containing "Goods" and not merely as "Empties," otherwise the safe arrival of the contents cannot be ensured. Carriage must be prepaid.

CLAIMS FOR CARRIAGE.

When writing to the Stores respecting carriage charges paid by them, Members should always enclose the Railway Company's "Carriage Note."

DEPOSIT ORDER ACCOUNTS.

Members may open a "Deposit Order Account" by remitting any sum of money for this purpose. The amount is placed to their credit, and the cost of goods purchased from time to time is charged against the account. Dividends, the value of returned empties, &c., are also credited to the account unless instructions to the contrary are given. Members are advised by Post Card of the amounts so credited for "empties."

Pass Books are issued, showing the state of the account, and each entry in connection therewith. These pass books should be returned to the Stores periodically for adjustment, and should be examined immediately upon receipt, so that any queries in connection with the account may be settled forthwith.

On opening accounts, Members should quote their Ticket number, full postal address, and usual signature.

When goods purchased personally are to be charged to Deposit Order Account, the counterman's order book **MUST** be signed by the Member. The Ticket Number should always be quoted.

It must be particularly borne in mind that orders can only be executed upon Deposit Order Account so long as funds are in hand to the credit of the account. Immediately upon the funds being exhausted a notice to that effect is sent to the Member, and a further remittance requested. The Management beg to intimate to Members that they cannot hold themselves responsible for any inconvenience or annoyance that may be occasioned by delay in the execution of orders consequent on the Deposit Order Account being overdrawn.

Members sending friends or messengers to the Stores to make purchases to be charged against their Deposit Order Account, should furnish them with a letter authorising them to sign the Counterman's order book on their behalf.

The attention of Members to the following points will facilitate the correct keeping of D.O. Accounts.

- 1.—Orders by Post should be given on the Stores' Printed "Deposit Order" (Green) Forms, giving the Address and RAILWAY STATION to which (or if by other conveyance, state by which) the goods are to be sent. A separate Order Form must be made out for each Department, and the name of the Department written at the top of the Order. Order Form Books can be obtained on application, or will be sent by post.
- 2.—ALL DEPOSIT ORDERS MUST BE SIGNED AT FOOT BY THE MEMBER.
- 3.—Pass Books should be returned to the Stores periodically to be made up.
- 4.—Remittances by post to the credit of Deposit Order Account should have the **Cheques, Orders, and Letters** marked "**D/O. a/c.**"
- 5.—Personal Payments to the credit of Deposit Order Accounts must be made in the Chief Cashier's Office (Ground Floor).
- 6.—Queries as to Accounts should be made in the Deposit Order Accounts Office on the Entresol Floor.

CHEQUES ON DEPOSIT ORDER ACCOUNTS, (Head Stores only).

Stamped Cheque Books, containing 24 Cheques each, are issued, price 2s., against Deposit Order Accounts, so as to enable Members to draw upon the balances standing to their credit for making payments outside the Stores, in the same manner as in ordinary Current Banking Accounts. Members requiring them must apply in writing, giving their usual signature for guidance.

Cheques must not be drawn for amounts under Five Shillings.

No Cheque must be drawn unless there are funds to the credit of the Member's Account sufficient to meet it, as under no circumstances will any account be allowed to be overdrawn, and Cheques so drawn will be returned, marked "refer to Drawer."

DEPOSIT ORDER BONUS SYSTEM.

The following Circular was issued to Shareholders in May, 1891.

As the Directors are of opinion that the principle of Co-operative trading would be more fully carried out if the Purchasing-Shareholders were to receive some further direct benefit from dealing with the Society, they have decided, after careful consideration, to give effect to this principle by introducing a

"DEPOSIT ORDER BONUS,"

to commence from the 1st July, 1891, the particulars of which are as follows:—

- 1.—SHAREHOLDERS ONLY can participate.
- 2.—The Purchases must be made through a DEPOSIT-ORDER ACCOUNT, opened in the name of the Shareholder.
- 3.—The total amount of Purchases (exclusive of Furniture) must reach the minimum sum of £200, or upwards, during the twelve months commencing on the 1st July, 1891, and terminating on the 30th June, 1892.
- 4.—A Cash Bonus of £2 10s. per cent. will be paid upon this amount of £200 (i.e. £5) and at the same rate upon each completed £20 (i.e. 10s.) over and above the sum of £200.

EXAMPLE—

Minimum amount of Purchases for the year necessary to enable a Shareholder to participate in the "Bonus System" ...	£200	—	£5: 0 0
Extra Purchases ...	23	—	0 10 0
Total Purchases for year ...	£223	—	£5 10 0

Or upon Purchases of ...	£500	Bonus	£12 10 0
... £1,000 ...			£25 0 0

The advantages of the Deposit Order Bonus System may be considered, as:—

- 1.—A further direct saving in the Household Expenditure, upon Co-operative Prices; or,
- 2.—CASH BONUS paid on existing necessary Expenditure; or,
- *3.—An indirect means of increasing the return upon the Shares held in the Society.

To further illustrate the working of the system, a Shareholder having a Deposit-Order Account already with the Society, and who expends the sum of £190 per annum, can secure the Cash Bonus of £5 by slightly increasing his purchases to the required minimum of £200.

The Directors reserve to themselves the right of altering the conditions of the "Deposit-Order Bonus System" after the 30th June, 1892, when they hope that the result of their policy will be such as to enable them to reduce the minimum amount of Purchases, now fixed at £200 per annum, and thus give to other Shareholders the benefits of the system.

The Bonus will be paid by Cheque to those Shareholders who are entitled to it, as soon after the 30th June, 1892, as is practicable.

* EXAMPLE.

A Shareholder holding 50 Shares, receives the usual Five Per Cent. Dividend ... £2 10 0
And avails himself of the above System for providing his Household necessities—
spending with the Society £200, which entitles him to the Cash Bonus, viz. ... 5 0 0

The Return upon the 50 Shares would be ... £7 10 0
or, 15 per cent.

In the same manner the return upon 25 Shares would be at the rate of ...
25 per cent.

Junior Army and Navy Stores,

LIMITED.

YORK HOUSE, REGENT STREET, LONDON, S.W.

I request that all Price Lists and Members' Circulars issued from time to time may be sent to me at the undermentioned address.

Members who have already made this request need not repeat it by filling up this form.

THE HISTORY OF THE

REIGN OF

*DEPOSIT INTEREST ACCOUNT.

Money is received on Deposit, subject to 6 months' notice of withdrawal, for which Interest is allowed at the rate of 4 per cent. per annum.

The minimum amount of a Deposit must be £25. No Interest is payable on fractions of £1. Interest is payable half-yearly in January and July. The Committee reserve to themselves the power of repaying, at any time, the sums deposited, either in whole or in part, and from time to time altering these conditions and the rate of Interest.

Deposit Receipts for each payment will be given, *which must be returned when the money is withdrawn.*

Separate entries of these payments will be kept, and will be designated the "Deposit Interest Account," to distinguish them from the ordinary current, or "Deposit Order Account."

Queries concerning Deposit Interest Accounts to be made at the Chief Accountant's Office (Entresol Floor).

* Money is not at present received upon Deposit Interest Account, but intending Depositors may register their names at the Chief Cashier's Office, and will be communicated with when an opportunity occurs for receiving Deposits.

PRICE LISTS AND MEMBERS' CIRCULAR.

THE GENERAL PRICE LIST is Published Annually on October 1st.

Copies may be obtained Free at the Stores, and will be sent Free to Members who register their names and addresses for this purpose (see below); or a copy will be sent along with goods when the words "Enclose Price List" are written upon the Order Forms.

The following Price Lists are published separately, and will be forwarded to any Members who apply for them. Forms of application will be found in this book, on the pages indicated below:

CANTEEN PRICE LIST, see p. 131.

BOOKS & MUSIC LIST, see p. 341.

ILLUSTRATED CARRIAGE CATALOGUE, see p. 613.

ILLUSTRATED FURNITURE CATALOGUE, see p. 1481.

THE MEMBERS' CIRCULAR will be published periodically as occasion may require, and will contain all variations from the General Price List, and quotations of Novelties, Additions to Stock, Season Goods, &c.

Shareholders and Members requiring the General Price List and Members' Circular forwarded by Post are requested to **REGISTER THEIR NAMES AND ADDRESSES** at the Registrar's Desk (Grocery Department), at **YORK HOUSE**; or by letter to the Secretary; *vide Form opposite.*

Advertisements in the Members' Circular.—Members' Advertisements of Houses to be Let or Sold, Articles for Sale, Purchase, or Exchange, &c., will be inserted in the Members' Circular at the rate of 6d. for every ten words, or part of ten words, for each insertion. **PREPAYMENT** must be made in every case. Answers to Advertisements may be received at the Stores, addressed—*c/o Secretary.*

All communications respecting Advertisements should be addressed to the Secretary, York House.

The Management reserve the right of declining any Advertisement.

|| Crates charged, and allowed half-price on return.

The above named articles cannot be enclosed with other goods, nor their value be reckoned with that of a general order.

Goods which are not in stock, but are in the Stores' Price List, will be forwarded as early as possible at the expense of the Society when they may have formed part of an entire order coming under the above scale; but any part of an order which may take time to execute, such as Printing, Bookbinding, or Stamping, or where articles such as Hats, Boots, or Wearing Apparel are being made or procured, will, to avoid delaying the remainder of the order, be sent separately at the Member's expense, unless special instructions are given to the contrary.

Certain Bulky Articles, including Domestic and Agricultural Machinery, Garden Seats, &c., are also exempted from prepayment of Carriage, as noted upon the pages on which the various articles are quoted.

N.B.—No Counterpane has authority to PROMISE delivery within a certain time.

RETURNED EMPTIES. The Numbered Packing Cases are the property of the Stores, and should be returned promptly, and "carriage paid," to the Empties Depôt, 22a, Belvedere Road, Lambeth, S.E.

The Stores' arrangement with Carter, Paterson & Co. includes the free collection of empties. Members are particularly requested not to detach the address label from returned cases or oil cans, as from this cause numerous errors arise, the senders not being identified, and, consequently, not receiving the credit notes due to them. When the Member's postal address differs from the address on the Label, the former should be added as a guide for sending credit notes for "Empties."

ALLOWANCES ON RETURNED EMPTIES. Credit Notes, which can be cashed on demand, or used in payment of orders, are issued to Members according to the following scale, for all chargeable Empties returned, as soon as they come to hand, but Members must bear in mind that 10 or 14 days frequently elapse between the despatch and arrival of "Empties" :—

Credit Notes for returned Empties are not issued unless the value reaches 0/6. Members are requested not to return Empties until they amount to that sum.

All Empties Collected Free of Charge.

PARCEL POST.

Members desiring goods to be sent per Parcel Post must notify the same upon their orders. Goods are not sent per Parcel Post unless so requested and the postage is included in the remittance.

Parcels of £1 in value, not exceeding 7 lbs. in weight, will be sent post free when so desired.*

Parcels of £1 10s. and upwards, not exceeding the Post Office limit of 11 lbs., will be sent post free when so desired.*

When it is wished that goods exceeding the limits of 7 and 11 lbs. should be sent in several parcels, the Society will only pay the postage of one parcel.

Every care is used in packing goods for transmission by Parcel Post, but the Stores give notice that they will not hold themselves responsible for any damage or breakage that may occur in transit.

Claims upon the Post Office Authorities for damage or loss must be made by Members, and cannot be undertaken by the Stores on their behalf.

Members wishing their goods insured must add the insurance fees to their remittances, and mention their wishes upon their orders.

GOODS TO BE SENT TO RAILWAY CLOAK ROOMS.

Members desiring to have Parcels sent to any of the Railway Cloak Rooms must obtain a Ticket from the Cashier when making payment. No charge is made for the Cloak Room Ticket.

EXPORT AND SHIPPING TRADE.

For Special Export Price List, List of the Society's Agents abroad, and full particulars respecting Export and Shipping Trade, see page 133.

CANTEEN DEPARTMENT (HOME AND EXPORT).

Miscellaneous Goods and Stores of every description are furnished from all Departments to Regiments and Individuals on the most advantageous terms. A comprehensive Price List will be forwarded on application to the London Office, the Branches, or to any of the Society's Agents.

Officers' Mess and Regimental Canteen Accounts opened with Regiments on service abroad upon favourable terms, full particulars of which, with Export Price List, will be supplied upon application to the Society's Agents, as at page 133.

LIFE AND FIRE INSURANCE.

Arrangements have been made with several of the leading Life and Fire Insurance Offices whereby Insurance (Life, Fire, Sickness, Accident, Endowment, Guarantee, and also against loss or damage by Burglary), etc., can be effected by Members of the Junior Army and Navy Stores on exceptionally favourable terms. Special arrangements have been made for issuing Life Policies upon the lives of Naval and Military Officers at the Ordinary Rates of Premium, plus only a small permanent charge of 10s. per cent. to cover Active Service (including War Risk) in any part of the World. By this arrangement Officers are freed from the serious burden of additional Premium hitherto usually exacted when proceeding on Foreign or Active Service. Loans effected upon Reversions. Horses, Cattle, Carriages, and Vehicles of all kinds also Insured against Death and Accident.

For Proposed Forms, Rates, etc., apply to the Secretary. Special Terms to Officers of both Services.

STOCKS AND SHARES.

All descriptions of Stocks, Shares and other Marketable Securities can be purchased or sold through the medium of the Stores. For this purpose the Stores employ one of the most eminent firms of Stockbrokers upon the London Stock Exchange.

Speculative Accounts are not opened, the only object being to secure to investing Members who have not a broker of their own, the guarantee afforded by the employment of a first-rate firm.

AUCTIONS, VALUATIONS, etc.

Arrangements can be made through the Stores for sales by Auction, Valuations for Probate, Surveys of Properties, etc.

* This does not apply to Books or Music.

MISCELLANEOUS NOTICES.**LOST PROPERTY.**

All articles found in the Stores will be deposited in the Secretary's Office, and can be recovered on proper identification.

PASSENGER LIFTS.

The Passenger Lifts are at the entrance of the building, and in the rear of the Left Wing, near the Meat Department.

Members are requested kindly to use the Lift at the Front Hall for ascending to the different Departments, and the Lift in the rear of the Building (Left Wing) for descending.

THEATRICAL, ETC., TICKET OFFICE.

An Office has been opened on the Entresol Floor, where seats can be booked for the Opera and every Theatre in London. Booking Fee, 6d.

All applications by letter should be addressed to the "Manager, Theatrical Ticket Office," &c.

DINING ROOM, WINE, AND REFRESHMENT BUFFET.

Open from 10 A.M. to 6 P.M. Third Floor. Ascend by Front Lift.

READING ROOM.

For the convenience of Members there is a Reading Room on the Ground Floor.

LAVATORIES.

The Gentlemen's Lavatory is on the Ground Floor, adjoining the Reading Room.

The Ladies' Lavatory is on the First Floor, adjoining the "Fitting-on" Room, approached through the Drapery Department.

TELEGRAMS FOR MEMBERS.

Members telegraphing to their friends at the Stores should address them "c/o Supplies, London." For the convenience of Members such Telegrams are taken charge of in the Secretary's Office, where inquiry must be made, neither delivery or responsibility of any kind being undertaken by the Stores.

GOODS FOR REPAIR, ETC.

While every care will be taken to avoid damage or injury to the property of Members entrusted to the Stores for repair, renovation, &c., it must be distinctly understood that the Society will not hold itself responsible for such damage or injury to any amount exceeding £5. No responsibility whatever is undertaken by the Society as regards articles sent to be dyed or cleaned. Valuable articles must be declared as such.

THE MERCHANDISE MARKS ACT, 1887.

Members ordering any articles from this List are hereby informed that the Society does not give any warranty that they are made or produced in the place or country after which they are named.

As this Price List contains many thousands of manufactured articles, including what are known as "Proprietary Articles," and bearing various Trade Names, it is obvious that it would be impossible for the Society to guarantee either the materials of which the articles are composed, or to indicate the class or method of manufacture.

THE WEIGHTS AND MEASURES ACT, 1879.

NOTICE. - That in terms of the provisions of the above Act (which came into operation on the 1st January, 1879), all articles sold by the Junior Army and Navy Stores in Tins, Bottles, or any other Packages, are not guaranteed to be the precise weight or measure as described or marked, but are sold as received from the importers and manufacturers.

THE PRICES OF ALL ARTICLES ARE SUBJECT TO ALTERATION FROM TIME TO TIME, ACCORDING TO THE FLUCTUATIONS OF THE WHOLESALE MARKETS, AND ALL ORDERS ARE RECEIVED AND EXECUTED SUBJECT TO THIS PROVISION.

Every care is taken to ensure promptitude, civility, courtesy, and attention on the part of the assistants throughout the departments, and Members are requested to make known to the Management any act of incivility or want of attention.

ALDERSHOT BRANCH. FURNITURE DEPÔT.

The attention of Members resident in the vicinity of Aldershot and Farnborough is called to the FURNITURE SHOW-ROOMS, recently opened at Queen's Road, North Camp, Farnborough, containing a new stock of

DINING ROOM, DRAWING ROOM, AND
BEDROOM FURNITURE.

*The New Illustrated Furniture Catalogue will be supplied Free on
Application to Branch Manager.*

The Stores are prepared, at short notice, to undertake the entire and complete Furnishing of large Mansions, or any other class of Residence, upon the most advantageous terms.

The Dépôt will afford considerable facilities to Officers and others "en route," and for those stationed in Aldershot and its vicinity.

Storage and Warehousing.

In connection with the above, a large space has been allotted for the Storage of Furniture, Plate and Baggage; this space, as well as all other parts of the building, will be efficiently heated, ensuring a uniform temperature during the Winter months, and obviating risk from damp and cold.

Removals.

Particular attention is called to the system of Removals adopted by the Society, specially constructed vans being used for all Removals.

Arrangements can also be made for the transmission of Furniture or Baggage to all parts of the world.

Estimates will be furnished free upon application.

Personal inspection is invited at the New Furniture Dépôt, Queen's Road, North Camp, Farnborough, but all enquiries *by post* should be addressed to the *Branch Manager*, JUNIOR ARMY AND NAVY STORES, LIMITED, Union Street, Aldershot.

Ladies' Waiting Room adjoins Ladies' and Children's Outfitting Department (Second Floor).

Orders are executed through the Branch for any other goods mentioned in the General Price List, in addition to those classified under the above departments.

The central position of the Dublin Branch renders it easy of access from all parts, it being at a short distance from the Railway Termini, and close to the starting points of all the Tramcar routes, many of which pass the doors.

Country Members will find the Deposit Order Account system a convenience, and arrangements are now made by which the trouble and expense of returning Packing Cases is obviated.

The Dublin Edition of the Price List may be obtained on application to The Manager, 22, 23 & 24, D'Olier Street, Dublin.

DELIVERY OF GOODS.

The arrangements for the delivery of Goods have been revised, and in the Dublin Edition of the Price List will be found full information respecting the daily deliveries in Dublin and the suburbs, and also a Table showing the requisite value of an order to ensure free delivery at either of the principal Railway Stations throughout Ireland.

EXTRACT
OF
MEAT

"COMPANY'S"

STANLEY AND "LIEBIG COMPANY'S EXTRACT."

"On the 22nd, soon after the advance had reached camp, a cold and heavy shower of rain fell, which demoralized many in the column; their failing energies and their impoverished systems were not proof against cold. Madis and Zanzibaris dropped their loads in the road, and rushed helter-skelter for the camp. One Madi managed to crawl near my tent, wherein a candle was lit, for in a rainstorm the forest even in daylight is as dark as on an ordinary night in grass-land. Hearing him groan, I issued out with the candle and found the naked body rigid in the mud, unable to move. * * * He was at once borne to a fire, and laid within a few inches of it, and with the addition of a pint of hot broth made from LIEBIG COMPANY'S EXTRACT OF MEAT we restored him to his senses."—H. M. Stanley.

This is the ORIGINAL and ONLY Extract of Meat
ever guaranteed as GENUINE by Justus von Liebig,
the Inventor.

The Public are respectfully cautioned against all
Imitation Extracts, which, by all sorts of Names
and Devices, are offered for sale, and in many
instances bought erroneously as the

COMPANY'S GENUINE EXTRACT.

DIRECTIONS.

BEEF-TEA.

Efficient tonic in all cases of weakness and digestive disorder. Dissolve a quarter of a tea-spoonful of LIEBIG COMPANY'S EXTRACT in a breakfast cup of boiling water, add plenty of salt; this will make a strong and clear beef tea. You may add according to taste a tea-spoonful of Madeira, Sherry, or Port Wine, or the yolk of a fresh egg, or a trifle of fresh butter, or some bread, or a boiled potato. A slight addition of Worcestershire Sauce is liked by many. This beef-tea acts as a pleasant tonic, especially when taken in the morning, and may well be taken several times a day.

SOUPS.

A variety of excellent meat and vegetable soups made be made with the aid of the LIEBIG COMPANY'S EXTRACT, and any soup will acquire at once strength and fine flavour by a slight addition of Extract.

VEGETABLE SOUP.

Potato, pea, rice soup, etc. Boil the Vegetables, etc., sufficiently with a little fat, a few bones or some slices of meat, or some fresh butter; add Extract and salt according to taste.

SAUCES.

Both strength and flavour imparted by the Extract.

NIGHT-CAP.

This beef-tea soothes and settles the stomach, allays brain excitement, and induces sleep.—“The most admirable and successful Night-Cap.”—*Medical Press*.

* Crystal or Kerosine oil, being supplied direct from the oil refiners, is not subject to the usual allowance for carriage. Cans belonging to Members cannot be filed at the Stores, as the oil is not kept there.

In ordering Lamp Oil, Members are requested to write a separate order, and name Railway Station, as that will facilitate the execution of order.

Kerosine or Crystal Oil cannot be sent to Cloak Rooms.

(The Society does not hold itself responsible for any loss or leakage, after the cans and casks have been accepted and signed for by the Railway Companies and Carriers.)

Casks free,

5 and 10 gall. cans of Crystal and Kerosine Oil are now delivered at the following rates of carriage within Carter, Paterson's radius of delivery only—10 gall. 1s., and 5 gall. 8d.

Members can be supplied with 5 and 10 gallon drums with brass taps, price 6/8 and 11/8 each, complete. These drums cannot be returned nor allowed for.

Empty Oil Casks can be returned, carriage paid, to J. A. & N. Stores, 22a, Belvedere Road, Lambeth, and 3/0 will be allowed for each cask.

2 gall., 5 gall., and 10 gall. cans are charged 2s., 5s. and 10s. with every order, and are allowed for in full by credit note when returned. Members are particularly requested to observe that their remittances for oil must always include the charge for the can, otherwise the order will not be put in hand.

PROVISIONS.

The Bacon, Wiltshire and Waterford, supplied by the Society, consists of two descriptions, viz., sizeable and medium meat; the sizeable bacon is the smaller and leaner meat, the medium is the fatter and heavier meat; sides of sizeable run about 60 lbs., and medium about 70 lbs. The medium is always sold at a cheaper price than the sizeable, and in ordering Bacon it should be stated whether sizeable or medium meat is required, or the price quoted, so that the right may be sent. Fore ends of sizeable weigh from 16 lbs., of medium from 20 lbs. These are only sold whole.

The Bacon supplied by the Stores is cured MILD to suit the taste of Members, and it is *strongly advised*, especially in summer months, that orders for not more than a fortnight's consumption should be given. When a whole side is taken, the **FORE END** should be used first.

All Provisions not approved of should be **PROMPTLY RETURNED**, otherwise no allowance can be made.

BACON.

The following prices will at all times be subject to market fluctuations. A list is posted daily in the Provision Department, and orders are executed according to the day's prices.

LONDON & PROVINCIAL DAIRY COMPANY.

THE LONDON AND PROVINCIAL DAIRY COMPANY'S MILK AND CREAM.

THE production of milk, in its richest and best form, together with its careful treatment and delivery to a very large circle of customers, are specialities for which this dairy has long been celebrated. Its safe and popular method of supplying infants, invalids, and others with milk in sealed glass bottles possess invaluable features, which, for the following reasons, must claim the serious attention of every consumer of milk.

While the cost of the system for supplying milk in sealed glass bottles is no more than by the ordinary tin cans, it ensures absolute purity, proper measure, and perfect immunity from deleterious contaminations, and the milk cannot be tampered with while passing from the cow to the consumer.

From the fact of the delicate and nourishing properties of fresh milk being preserved while conveyed from the cow to consumers in glass bottles, has secured the strong recommendations of a large body of physicians as being of immense value to infants, invalids, and families generally.

Glass is much cleaner than tin, and does not injure the delicate properties of milk.

Quantities of one pint and upwards delivered to any address.

N.B.—In addition to our ordinary herd of dairy cattle, cows are kept under special treatment for providing milk for the use of infants and invalids, and "Special Milk" from the same cow can always be assured by the above process.

NEW SYSTEM OF PAYING FOR MILK AND CREAM.

THE payment of Milk and Cream under the Ticket System, introduced by the London and Provincial Dairy Company, and largely patronised by the nobility and leading families, claim the following special advantages, viz. :—

- 1.—A saving of 15 per cent. to the purchaser is effected.
- 2.—No accounts are required to be kept by the consumer.
- 3.—From the great extent to which the system has been adopted by the public, its convenience and popularity is vouchsafed.
- 4.—There is no possibility of errors and disputes, as in the old system.
- 5.—The books are of convenient sizes, and containing tickets for $\frac{1}{2}$ pint, 1 pint, 1 quart, 2 quarts, &c., of Milk.
- 6.—A ticket (or tickets) representing the quantity of milk required is torn from the book and given to the milkman in exchange for the milk taken, thus settling the purchase without the presence of money.

Books of Milk Tickets, 10^{/-}, 20^{/-}, 40^{/-}, and 60^{/-}, each, less 15 per cent. discount, may be obtained at the Head Office of the London and Provincial Dairy Company, Halkin Street West, Pall Mall Square, London, S.W., and Branches—Avenue Dairy Farm, Putney Hill, London, S.W., and 9, Queen's Road, Layswater, W., and the

SPECIAL NOTICE.

All the Articles in this Export List are carefully selected and guaranteed at the time of Shipment, no claim for loss or damage after shipment can be entertained.

Goods are sometimes ordered from the Grocery and Provision Departments not mentioned in the Export List, and which, from their perishable nature, are unsuitable for shipment abroad, in such cases Members are informed that these goods are shipped at their own risk.

PREPAYMENT OF ORDERS.

Members not having Deposit Accounts are requested to forward with all orders a remittance sufficient to cover their cost and the charges for packing. The cost of packing averages about 5 per cent. upon the total amount of the order.

PREPAYMENT OF FREIGHT.

Members are strongly recommended to give instructions that their goods may be consigned "freight prepaid," as extra expense is often thereby saved, and to include in their remittance an addition of about 10 per cent. on the value of the order, to cover same.

CHARGES FOR SHIPPING.

INSURANCE (which, except in the case of goods forwarded per Parcel Post, is always effected unless special instructions be given to the contrary), CLEARING, BILLS OF LADING, &c., are charged at lowest possible rates.

INSURANCE.

Unless special instructions are received to the contrary, all goods are Insured Free Particular average—that is to cover loss occasioned by the sinking, stranding, or burning of the vessel only. Goods can be insured against all risks if desired at a higher premium.

SHIPPING.

All Goods are carted to any London Dock free of charge. Orders amounting to £3 and upwards are forwarded carriage paid, to any Port in Great Britain for shipment, or if shipped in London an allowance of 1½ per cent. is made to Members on the total amount of the order.

PERSONAL ORDERS.

Members when purchasing goods to be forwarded abroad are requested to leave the Departmental Bills in the Export Office, and instead of paying for goods in each Department, to make one payment in the Chief Cashier's Office.

REGIMENTAL CANTEEN SUPPLIES.

A List of Articles suitable for Export will be found on page 138.

PARCELS FOR ENCLOSURE.

Members sending parcels to the Stores for enclosure with their orders should address them to the "EXPORT OFFICE, FOR ENCLOSURE." All such parcels will be enclosed at Members' risk. A declaration of contents and value must be handed in or sent by post, without which they cannot be forwarded.

RECEIPT OF GOODS.

Members are informed that all goods are checked before being packed, a list of contents is enclosed in each case, and an invoice (also showing the contents and gross weight of each case) forwarded by post.

Every care is taken in packing; but the Society cannot be held responsible for any damage or breakage that may occur in transit.

PASSAGE DEPARTMENT.

Passages can be booked by any of the Ocean Steamships through the Agency of the Stores, free of charge.

Baggage Collected, shipped and Insurance thereon covered at lowest possible rates. Baggage must be on board two clear days before date of sailing.

SHIPPING AND CLEARING.

Parcels forwarded to all parts of the world.

Inwards Baggage cleared at Customs and forwarded to address or warehoused.

SHIPMENT OF ORDERS.

Whenever possible, goods are shipped by the first steamer sailing after the receipt of order, but Members are requested to give instructions whether the order is to be shipped complete, or if any part that has to be made or specially procured may follow.

Members are also requested when ordering goods for the Continent, to state if they are to be forwarded by Grande or Petite Vitesse.

EXPLOSIVES.

Cartridge Cases and Caps coming under the head of explosives have to be cleared at Customs before shipment; this sometimes delays orders of which these goods form part.

S. W. MONSOON.

The British Indian S. N. Company will not book cargo to Alleppy, Beypore, Calicut, Cannanore, Carwar, Cochin, Colachel, Gou, Mungalore, Tellicherry, Vingorla, between April and September.

PARCELS FOR INDIA.

Packages of any size or weight can now be forwarded through the medium of the Stores to any station in India at 6d. per lb. Insurance up to £5, and delivery free.

PATTERN POST.

The Pattern and Sample Post to Foreign Countries and the Colonies generally, is restricted to *bond fide* trade patterns and samples of Merchandise. Packets containing Goods in execution of an order (however small the quantity), if sent by Pattern Post will be charged as ordinary letters.

Coin, Jewellery, and precious articles, cannot be sent through the Post to Countries in the Postal Union except to Gibraltar and Malta.

FOREIGN PARCEL POST.

Parcels can be now forwarded through the Post Office at the following rates :—

Postage in all cases must be paid in advance.

MONOBRUT

1884

A & G. LEMAITRE
AY
CHAMPAGNE

CHAMPAGNE.

SPECIALY RECOMMENDED

An Extract from "THE PRESS."

MONOBRUT CHAMPAGNE.—This champagne is shipped by Messrs. A. and G. Lemaitre, who have the best vineyards in Ay, acknowledged to be the finest champagne district. Monobrut is at present practically unknown, but this arises from the fact that it is only recently Messrs. Lemaitre have resolved to ship to England, and they have selected this cuvée of 1884 vintage for the introduction of their wines. That vintage does not at once give the idea of possessing great "body," simply because it is not deep coloured, but for all that it is more "vinous," and consequently possesses more "body" than one is at first led to imagine. Monobrut is in reality a magnificent champagne, possessing great delicacy and exquisite bouquet. It compares very favourably in quality with other high-class wines of the same vintage, and is offered to the public at a much less price.

15/0 —

Burgoyne's Branxton Cabernet
(selected)—Superior Australian Claret

20/0 11/6

The ILLUSTRATED NEWS states:—"As fine as any produced in any of the European States."

Burgoyne's Branxton Burgundy

—Robust Wine, perfectly natural 24/0 13/6

It has a fresh, vigorous, natural flavour, is wholesome to a degree, and the STANDARD states, "Nothing purer or more genuine of the kind is to be drunk." It is generous, without coldness or semblance of acidity, a desirable Wine for dinner use, attractive to the palate, and may be fairly termed dry.

Burgoyne's Tintara—Ferruginous... .. 24/0 13/6

From the LANCET.—"It is a dry non-acid satisfying Wine, and might take the place of Port Wine; by analysis, the constituents of grape juice abound, the phosphoric acid is particularly high, while the Wine is remarkably free from sugar."

From the MEDICAL TIMES.—"The Tintara is a natural Wine of generous quality, is grown on ferruginous soil, and possesses high tonic and invigorating properties. The Wine before me is quite mature, pre-eminently full-bodied, and nutritious."—DR. DRUITT, M.R.C.P., F.R.C.S.

Burgoyne's Singleton Hermitage

(selected) — Finest quality, choice, old Wine of
exquisite flavour and bouquet

27/0 —

THE LANCET.—"These Wines are remarkable for their robustness of body and vinous flavour, being in these respects superior to most of the Wines of France, Germany, Greece, and Hungary."

A pure cheap Dinner Wine, without capsules or
labels. Corks branded "Burgoyne"

Burgoyne's Branxton White Bur-

gundy—A delicate Wine, natural, and dry, with fine vinous flavour—the Wine to enjoy at dinner

24/0	13/6
------	------

The LANCET states:—"It requires only to know these Wines, and to give them a fair trial; to ensure their being greatly preferred by all."

Burgoyne's Highercombe Amber ... 28/0 —

See LANCET, &c.:—"Delicate dry Wine, free from saccharine, and strictly unfortified, fragrant flavour, and drinking clean and wholesome; the sort of Wine suitable for persons liable to gout, rheumatism, or indigestion, and diseases in which the development of acidity has to be avoided." Recommended by Dr. PAVY, M.D., F.R.S. (Physician to Guy's Hospital).

Burgoyne's Singleton White Her-

mitage (selected grapes), Choice old Wine ... 27/0 —

STANDARD.—"These Australian Wines are generous, full-flavoured, and full of body; nothing purer or more genuine of the kind is to be drunk by those who cling to the taste for the unadulterated article."

MEDICAL TIMES. — "These Wines are good in themselves, and good for the sick and the healthy."

DUBLIN BRANCH—FIRST FLOOR.

DRUGS.

PATENT MEDICINES, PERFUMERY,
SURGICAL INSTRUMENTS, AND
MINERAL WATERS.

POISONS.

Members sending Orders which include Poisons must at the same time forward a Physician's Prescription for them, otherwise the Orders will not be executed.

PRESCRIPTIONS.

Prescriptions are carefully compounded with Drugs of the finest quality by fully-qualified Assistants.

All Prescriptions should be sent as early as possible, as some require a long time to prepare.

When Medicines are ordered from Prescriptions written in any other than the sender's name, the NAME ON THE PRESCRIPTION should invariably be quoted.

Each Prescription dispensed is copied in a Book kept for that purpose, under a registered number, which will be found on the Prescription and also on the label of each bottle. Should a Prescription be lost or mislaid, the copy can be referred to and the medicine dispensed by quoting the registered number.

GOODS NOT KEPT IN STOCK.

Members are informed that when special articles, not quoted in the Price List or not kept in stock are included in their orders, the order will not be detained, but such goods will follow as soon as procured, at Members' expense.

MEDICINES PER PARCEL POST.

Medicines will not be sent per Parcel Post unless so requested, as, while every care is used to guard against breakage or damage in transit, the Stores cannot accept any responsibility in the event of an accident. The P.O. Authorities will not entertain claims for damage or loss in the case of liquids or semi-liquids.

ANALYST'S REPORT ON AËRATED WATERS,

Manufactured at the Society's Mineral Water Factory, Farnborough, Hants.

(Copy) ANALYTICAL LABORATORY,

11 & 12, GREAT TOWER STREET,

LONDON, E.C.

July 23rd, 1889.

CERTIFICATE OF ANALYSIS.

I hereby certify that I have submitted to an exhaustive chemical analysis specimens of the following varieties of Aerated Beverages, received from the Junior Army and Navy Stores, Limited, viz., Lemonade, Ginger Ale, Ginger Beer, Soda, Seltzer, Potash, and Lithia Waters.

I find all to be perfectly pure in composition, of very excellent quality, and absolutely free from contamination and pollution in any form whatever.

They are perfectly bright and clear, free from all deposits, well bottled, and highly charged with purified carbonic acid gas.

I pronounce them to be thoroughly wholesome and reliable preparations, well suited for ordinary and regular consumption.

(Signed) GRANVILLE H. SHARPE, F.C.S.,

Analyst,

Late Principal of the Liverpool College of Chemistry.

EUCALYPTOZONE SOAP.

Prepared with the essential Oil of the leaves of the *Eucalyptus Globulus*. The extraordinary properties of this Oil, as an Antiseptic and Detergent, combined with the emollient properties of a highly purified Soap, render this one of the most desirable of Toilet Articles.

Its sweet and refreshing odour, wonderful soothing action upon the skin, and its sanitary effects, have given it a high reputation.

In boxes of 3 large Tablets, 10½d.

WETTON & CO.'S PATENT "MAGNETICON" APPLIANCES.	Descriptive Pamphlet on application.					

Invigorating, Appetizing, and Stimulating.

Flitwick

A REMARKABLE CHALYBEATE TONIC SPRING.

AN ABSOLUTELY UNIQUE PRODUCT OF NATURE.

Which gained the **HIGHEST AWARD**

At the International Medical Exhibition, also The National Health Society's Exhibition.

Flitwick

Is Pleasant and Refreshing to the Senses.

Removes Seediness and creates Energy.

Imparts Tone and Vigour to the Nervous System and Prevents Brain Fag.

Cures Depression which follows the use of Alcoholic Stimulants.

A Wine Glassful Removes Fatigue, Prevents Exhaustion. A Splendid PICK-ME-UP.

Flitwick

Supplies a Long-felt Want in every Family Circle for a Safe and Reliable TONIC, which can be taken with the utmost Benefit by every Man, Woman, and Child.

It Positively Cures Loss of Appetite, Indigestion, Debility, Sluggish Liver, Neuralgia, Nervousness, Rheumatism, and Poorness of Blood.

PRICELESS IN VALUE.

THE extraordinary properties of FLITWICK have restored to Health long-standing cases of INDIGESTION, NEURALGIA, RHEUMATISM, INDIAN OR JUNGLE FEVER. The most obstinate cases of Anæmia (Poorness of Blood) and Chlorosis in Young Women are speedily cured by Flitwick. It is easily digested and assimilated, and is invaluable for delicate Women and Children.

FLITWICK removes Blotches, and beautifies the Complexion.

A SINGLE BOTTLE IS SUFFICIENT TO CONVINCE THE MOST SCEPTICAL OF ITS WONDERFUL INVIGORATING PROPERTIES.

TRY IT.

TRY IT.

Medical Opinions of Flitwick.

Dr. GODDARD ROGERS, *Senior Physician to Royal Chest Hospital, City Road,*

"Having been induced to use the FLITWICK CHALYBEATE WATER, I have prescribed it to more than six hundred cases at the City Road Chest Hospital, and with a still further experience of its wonderful efficacy for poorness of blood, Chlorosis and acute Rheumatism, I do not hesitate to pronounce it the very best Tonic the United Kingdom possesses."

ROBERT T. COOPER, M.A., M.D.

"Having visited every Mineral Spring of repute in Europe, not one of them can compare with FLITWICK for its Tonic properties; as a Pick-me-up, for imparting tone and vigour to the whole Nervous System, it probably has no equal. FLITWICK is an Isolated production of Nature, unrivalled—unimitated and inimitable."

JAMES WILLIAMS, M.D., M.R.C.S.

"It would be impossible to speak too highly in commendation of FLITWICK. No artificial preparation of Iron can equal this active, agreeable, and perfect tonic, which must, when well-known, command an unlimited sale."

ARNOLD ROYLE, M.D., *Surgeon to the late Duke of Albany.*

"After a patient investigation of FLITWICK, I have come to the conclusion it possesses most valuable Tonic properties."

EDWARD BLAKE, M.D., M.R.C.S.

"Flitwick is invaluable for backward children. For Neuralgia it renders the greatest possible service, in building up nerve tissue, wasted by pain; but it is in the Strumous types of Anæmia that FLITWICK performs its greatest miracles. In Ague or Malarious Fever, FLITWICK seems to have one of its happiest uses—It gently stimulates a congested and overworked liver, restoring its powers to its wonted vigour. The teeth are not affected by FLITWICK."

JAMES HINTON, M.D., M.R.C.S.

"Flitwick is a most valuable Tonic and Stimulant, much can be taken by patients who cannot tolerate the artificial preparations of Iron; in cases of Dyspepsia, Indigestion, Anæmia, or Poorness of Blood, and affections of the Nerves, it is simply invaluable."

Dr. A. W. DOWDING, L.R.C.P., M.R.C.S., L.S.A.

"I have found FLITWICK very useful in cases of Anæmia, Poorness of Blood, Chlorosis, Bright's Disease, Hysteria, General Debility, and Unstrung Nerves. It does not derange the stomach, is easily assimilated, and is agreeable to take. It is especially suitable for ladies and children."

J. W. PATON, M.D., M.R.C.S.

"FLITWICK CHALYBEATE is really an excellent tonic. I use it largely, and have found it most useful in all forms of Anæmia, and particularly Chlorosis."

Interesting Historic Associations of Flitwick.

The youthful genius, Bunyan, frequently drank the invigorating Tonic from the FLITWICK Spring, when visiting his grandfather. He mentions it in his writings as the "Spring which cured all manner of diseases." Two miles from the Spring stood the Old Moated Farm House, in which Bunyan was arrested while preaching, for which he was imprisoned in Bedford Jail for twelve years; which gave him the opportunity to write his Immortal Allegory of "The Pilgrim's Progress."

The Dépôt to which this remarkable Tonic is consigned, forms the front portion of the famous old Hotel where the Canterbury Pilgrims rested, as described by Chaucer. Shakespeare's "Jack Cade" put up at this place. Dickens has also immortalized it in his "Pickwick Papers." He here first introduces us to the merry-hearted Sam Weller. The fine old Panelled Room is still preserved, in which Mr. Pickwick, Mr. Tracy Tupman, Mr. Snodgrass, Mr. Alfred Jingle, Mr. Perkins, and Mr. Wardle, met after the elopement of Miss Rachel Wardle. Little Dorritt used to peep in at 63, as she flitted by on her way to the Marshalsea Prison.

THE NEO-CYCLOSTYLE COPYING APPARATUS

(GESTETNER'S PATENT).

Is introduced to take the place of the Cyclostyle which is now discontinued. The Patentee has invented a **NEW PEN** which will be found a very great improvement on the old one, being shaped exactly like an ordinary pen, and with which it is much easier to write.

The Apparatus itself is also of superior workmanship and finish, possessing a SLATE INKING SLAB instead of the wooden one hitherto supplied, hence the prices are somewhat advanced.

Any number of copies may be taken by this process in a permanent jet black colour from one original writing, which may be kept any length of time for further use. No washing, wetting, or damping requisite.

The Apparatus complete in a box including Pen, Ink, Roller, Paper, &c., &c. £ s. d.

THE FITCH

TYPE

WRITER.

(NEW MODEL).

The Cheapest
Type Writing Machine in
the Market.

The Makers claim for this Machine that it is the only Type-writer that does its writing in absolutely plain sight; its key-board, which is reduced to the smallest practical number of keys, produces 81 different letters, characters, numerals, and signs; its alignment is absolutely perfect; it possesses a novel inking-device, which dispenses with the use of a ribbon; changeable type; it turns out cleaner and neater work, and with less noise, than any other key-board machine; it is light, small, and portable.

Price, including Case £12 0 0.

Engravings
Etchings
 AND
Photogravures.

A Selection always on view in the Stationery Department. Any picture not in stock can be procured in a few hours. The latest productions are added as published from time to time.

Artist's and other Proofs can be supplied at correspondingly reduced prices.

SECTION SHOWING CONSTRUCTION.

The Float is so weighted and poised as always to keep the Ink on the same level, whatever quantity may be contained in the Reservoir. The Mechanism is made of hard Vulcanite, and cannot get out of order. Adapted for all countries and all climates.

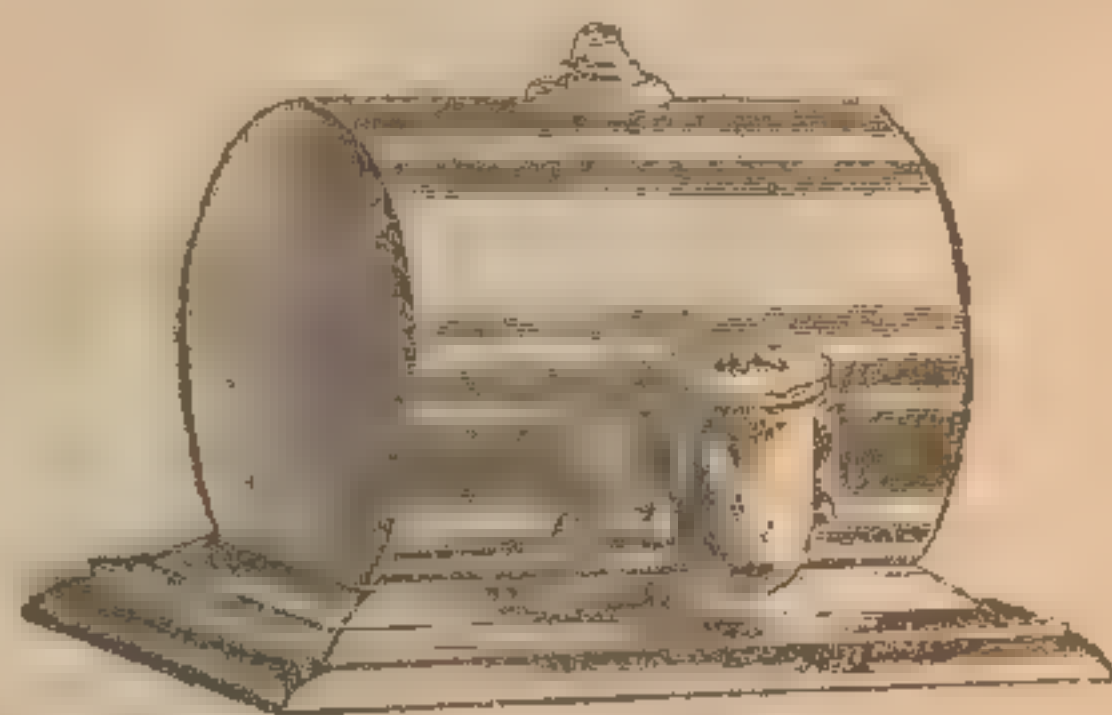

Earthenware,
Lilac Glazed,
4/3

In Jet Black Faience,
with Crystal Dome Top, 5/9.

The same, mounted on Walnut stand,
with four Pen hollows, 8/0.

In Nickel-plated metal, with Crystal ends,
16/6.

The same, mounted on dark Oak stand,
with one Pen tray in front, 20/6.

These Inkstands contain a large Reservoir of Ink, with a small dipping well, which is always of the same depth until the supply is exhausted, thereby securing great economy of Ink, and time in cleaning and replenishing.

SPECIAL attention given to Alterations and Repairs, but it is suggested that Members should give their Orders as early as possible, with a view to prevent delay and consequent disappointment.

The time usually taken for such work as re-lining and repairing Muffs, Capes, Collarettes, &c., is from ten to fourteen days. Re-making Seal Jackets, Mantles, and Fur-lined Cloaks, three to four weeks, and when re-dyeing is necessary, at least a month.

Members are reminded of the liability of Sealskins and other Furs to shrink somewhat in the process of dyeing or re-dyeing, and when this occurs the Society cannot accept any responsibility.

The Stores having secured skilful, practical assistance in this Department, can give special advantages of quality and style, and suitability to any requirements.

DIRECTIONS FOR THE MEASUREMENT OF A HORSE FOR CLOTHING AND HARNESS.

For Harness—

The following particulars should be given:—

1. General description of the horse.
2. Height.
3. Girth.
4. Length of Trace from end to end.
5. Collar measurement.—This should be taken with a straight rule flat against the neck from the top of the withers to the middle of the throat. Say if the neck is thick or thin.

For Clothing—

The height of horse and a general description are usually all the particulars necessary.

For Roller—

NOTICE.**JOB HORSES, PRIVATE CARRIAGES, ETC.**

Arrangements have been made for supplying Shareholders and Members with Private Carriages of all descriptions, and matched Pairs, Single Harness Horses, Ladies' and Gents' Hacks, ready for immediate use, for either Town or Country work, upon advantageous terms for hiring by the month or year (with or without the option of purchase). If hired under yearly contract, **New Carriages** and **Harness** can be supplied. Estimates can be given for Weddings, Races, Picnics, &c. Horses can be sent to any part of the Country.

The Society is prepared to supply **Victorias, Landaus** or **Broughams** by the Hour or Day, for the London Season or any longer period. **Coaches, Brakes** and **Waggonettes** with two or four horses, for Picnics, Race Meetings, or Country Drives can also be provided. Any kind of Carriage can be sent out at short notice.

The Society is willing to arrange Coaching Tours for any distance or period.

Horses can be hired for any period.

Horses can be thoroughly broken to Double or Single Harness.

Horses and Carriages can stand at Livery, and will receive special attention.

Steady and careful Coachmen in Livery are sent out on all occasions

Families will be called on for orders daily if required, and estimates for any purpose will willingly be furnished at any time.

Saddlery and Harness London Work, Hand-made.

DUBLIN BRANCH—SECOND FLOOR.

FAMILY AND HOUSEHOLD LINENS, &c., HOSIERY, GLOVES, HABERDASHERY, AND UMBRELLAS.

DYEING AND CLEANING.—A fully detailed list of Dyeing and Cleaning will be forwarded on application.

“Cut Lengths,” Materials Specially Procured, or Garments “Specially Made” for Members, cannot be exchanged or received back into the Department by the Society.

CURTAINS.—A variety of Artistic Designs in Lace Curtains, produced expressly for the Society, will be found between pages 680 and 681.

Table Cloths and Napkins can be made with any special Monogram; and in Chamber Towels, any letters or stripes can be woven as a distinctive mark. Samples, with full particulars, can always be obtained.

Handkerchiefs, Table Linen, Bed Linen, and Linen of every kind can be embroidered in any design of Letter, Monogram, Coronet, Crest, &c., by most experienced workers. A selection of designs can always be seen on application.

Printed Specifications, showing in detail the approximate requirements for Household Linens, for furnishing purposes, can be supplied on Application.

PATTERNS.—Members can have by personal application in the Department, or by letter addressed to the Secretary, Patterns of almost every description of Drapery Goods, including Calicoes, Linen and Cotton Sheetings, Towellings, Huckabacks, Flannels, Oxford Shirtings, Flannelettes, Rough and Ready Serges, Yosemite, Oatmeal Cloths, &c. The return of the patterns within a week, prepaid, is requested.

ORDERS SENT BY POST.—To prevent disappointment, it is suggested that a second selection be made as, with a large daily sale, particular lengths are sometimes sold out, before the Orders are received.

NOTE.—In mentioning the sizes of various articles sold in these Departments, the terms current in the trade have in several instances been used, but as most textile Fabrics will somewhat vary in the process of manufacture, it is impossible to guarantee that the Goods shall always measure what they are called, more especially in the lower qualities.

FAMILY AND HOUSEHOLD LINENS, &c.

The "Junior Army and Navy" LONGCLOTHS AND CALICOES are manufactured expressly for the Society by HORROCKSES, MILLER & CO., and specially finished for Ladies' and Children's wear.

SANITARY FLANNEL.

For Qualities and Prices see page 679.

PURE NATURAL WOOL.

This Flannel is manufactured from a **PURE UNDYED FLEECE**, and is guaranteed to be entirely free from all staining or any process of manufacture calculated to detract from the advantages of a **PURE WOOL**.

The necessity of wearing Woollen Fabrics is now emphasized by Physiologists, and endorsed by Physicians, while the experience of Travellers, Cyclists, and Athletes generally, amply confirms the wisdom of the theory.

To secure the advantages accruing from the use of Woollen Fabrics, the purity and genuineness of the substance worn should be beyond all question, and, in the **NATURAL SANITARY FLANNEL** these *desiderata* are present in a pre-eminent degree.

ADVANTAGES.

1.—It has a stimulating effect on the skin, and promotes healthy action and free exhalation from the body.

2.—Being a better non-conductor than cotton, linen, or silk, it abstracts less animal heat, and maintains an even temperature throughout the body.

3.—While its porous nature permits the ready passage of perspiration and free access of air, its non-conductibility prevents the over-heated and freely perspiring surface from being too rapidly cooled after exercise, and thus proves the finest preventive against chills and colds.

4.—The same properties render it in Winter warm and light, and in Summer cool and airy. It keeps out the greater heat of the sun in Summer, and conserves the natural heat of the body in Winter.

DELICATE PERSONS, YOUNG CHILDREN, AND AGED PEOPLE derive immediate benefit from wearing **SANITARY FLANNEL**, while those of robust constitution and active life find its use the best preservative of health.

DYEING AND CLEANING DEPARTMENT.

K—DRAPERY—FIRST FLOOR.

A Pamphlet giving full details of the Prices for every description of Dyeing and Cleaning, will be forwarded on application.

The Society undertake Orders for every description of Dyeing and Cleaning by the most improved appliances in a superior style.

HOW TO SEND GOODS.

Members sending Goods for Dyeing and Cleaning by Rail or Parcel Post, are particularly requested to enclose with the Parcels their Names and Addresses and distinct Directions on each article.

Goods sent from the Country should always be advised by Post.

NON-LIABILITY.

It must be distinctly understood that the Stores will not undertake any liability or responsibility whatever for any damage or injury to Goods Dyed or Cleaned. Every care will be taken to prevent damage, but it may be pointed out that sometimes defects already exist which *only appear after* Dyeing or Cleaning.

GOODS NOT CLAIMED.

Goods lying unclaimed beyond three months will be disposed of at Owner's risk.

The List of Prices which has been carefully prepared are for ordinary Dyeing and Cleaning, therefore they cannot in every case be adhered to. Where Goods are exceptionally troublesome or valuable, extra charge is made, but the lowest price consistent with the work done will be made.

COLOUR LIST.

For general reference this List will be found very useful, but the Colours on all fabrics cannot be guaranteed.

It is most important that Members should send a choice of two Colours, so as to ensure one of them being suitable.

Any colour can be re-dyed or dyed Black, re-dyed goods have generally to be a darker shade, to cover faded and soiled parts.

Amber will dye any light colour but Blue or Mauve.

Black will dye well, only in Black again.

Blue will dye Brown, Claret, Maroon, Crimson, Green.

Brown will dye Claret, Maroon, Dark Green.

Cardinal will dye Brown, Claret, Maroon, Ruby, Crimson.

Cerise will dye Brown, Claret, Maroon, Ruby, Navy, Prune.

Wool Goods which have been whitened with Sulphur, cannot be dyed pale colours successfully.

LADIES' AND CHILDREN'S HOSIERY.

The Stock has been carefully selected, and is well assorted with LADIES' and CHILDREN'S HOSIERY in all the newest Colours, all of which are of the BEST PRODUCTION, several of the makes being manufactured expressly for the Society.

The attention of Shareholders and Members is specially directed to the fact, that the "MERINO," "HYGIENIC WOOL," "ANGLO-INDIAN," and "LAMBSWOOL UNDERWEAR," are of Scotch Manufacture, made from two-threads Double Spun Yarns, being much superior, both for Washing and Wearing.

The great feature of the Scotch makes is the superior style in which they are fashioned to fit the figure without seam or gussets. This will be found a great improvement upon the ordinary makes.

LADIES' "HYGIENIC" UNDERWEAR.
 MANUFACTURED EXPRESSLY FOR THE SOCIETY,
 FROM PURE NATURAL UNDYED SCOTCH WOOLS.

These Goods are manufactured in a special manner from superior wools, selected for their peculiar non-shrinking properties, and can be warranted not to shrink, if washed with due care and attention.

An important feature of this make is the superior style they are FASHIONED, being skilfully shaped on anatomical principles to fit the figure without seams or gussets.

Medical authorities, comparing Scotch with German Hosiery, unhesitatingly give the preference to the FORMER on all SANITARY GROUNDS, and as a matter of fact, the Hosiery and Underclothing made from PURE SCOTCH WOOLS are the best in the World.

GUNS, &C.—continued.

The Self-Ejecting Mechanism of this Gun is that known as "Westley Richard's Patent."

It is of the type known as the Anson and Deeley, with various additions and improvements.

With respect to the special features, we may state that two single cocking-dogs (marked G) are used, but these are so formed that, when the gun is taken apart and the tumblers let down to bearer, the gun can be easily put together again without having first to cock the tumblers. The fore-end can also be put on without difficulty. The triggers are bolted by a very simple and effective safety (E). This safety is actuated by a prolongation of the main bolt. The safety and trigger box are so arranged that little wood is cut away, thus securing a very sound head to the stock.

A is the ejector tumbler, B the sear for holding the ejector tumbler back while the gun is opened; C is a prolongation of the mainspring, which slides forward when the gun is fired, and at the proper moment releases the ejector tumbler. The cam (D) not only forces the extractor out the usual distance, but it also partly draws it in again as the gun is closed, thus reducing the friction on the face of the breech action. There is also a very strong stop for the extractors to bump against.

Price £25 10s.

The most satisfactory self-ejector in the market.

The ejector lock is strong and simple, and will no doubt do its work well, and be as durable as any other part of the gun.

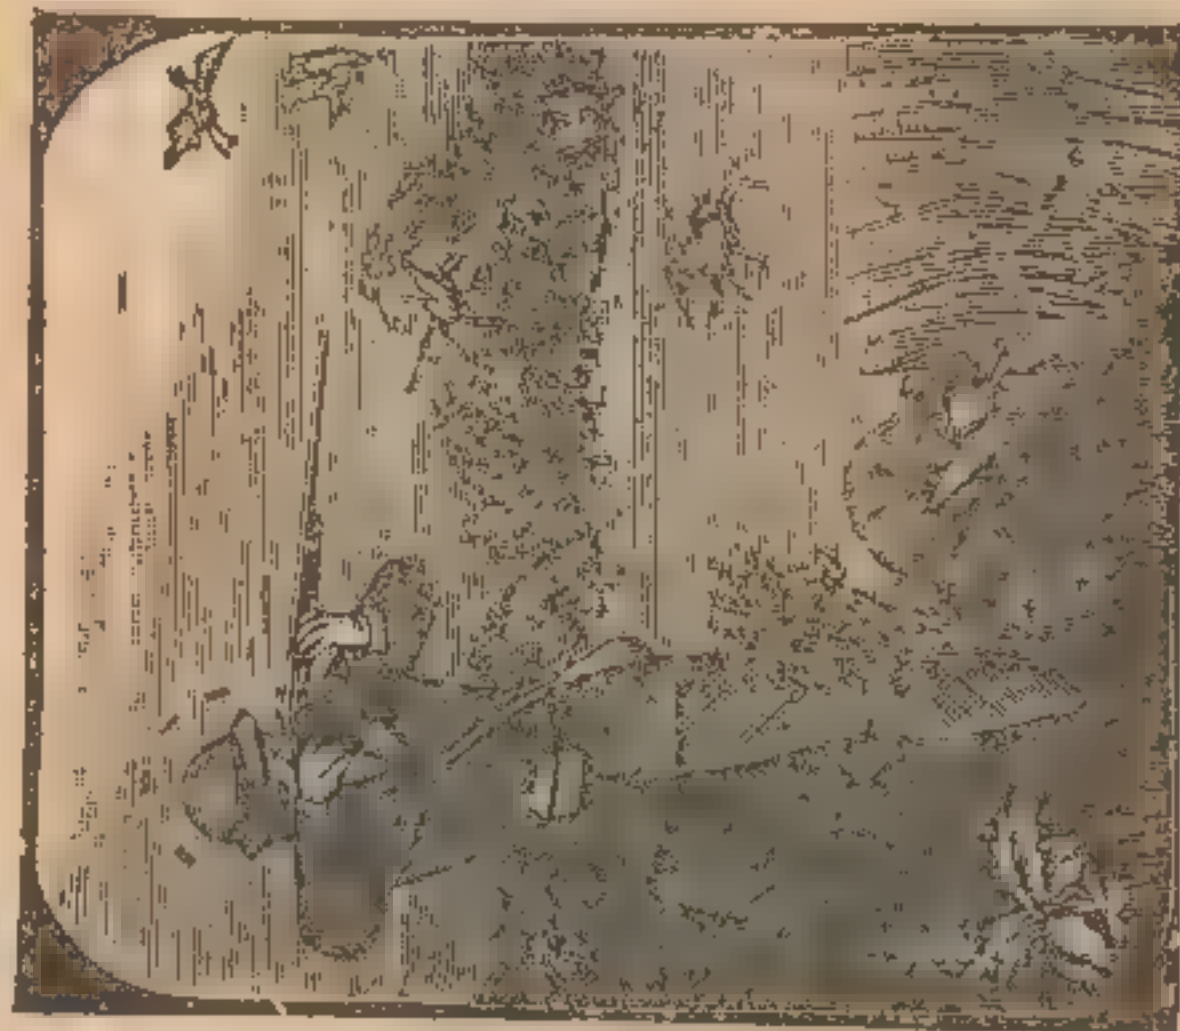

The gun is fitted with efficient tumbler safeties, in addition to the trigger safety; and it is also fitted with the patent top-screw treble grip which has already been favourably reported upon in our columns.—*Vide "The Field,"* June 15th, 1889.

Attachable with One Screw.

Self-Attaching Pattern.

A simple arrangement, which obviates the double image drawback, produced by dual vision over the length of the firearm.

The "CORRECTOR" is a small disc or screen, which blocks the sight of the left eye when taking aim. It is easily attached to the breech of the weapon, admirably fulfils its purpose, and is invisible in the act of aiming.

This invaluable invention was introduced to the shooting world some time ago—but has been held in abeyance pending the production of satisfactory attachments, and such as would be suitable for all shot guns and rifles. This has now been accomplished.

From the few patterns—in a crude form—issued in order that the principle might be tried, ample testimony has been received as to the correctness of the Inventor's theory, and it is now proved beyond a doubt, that by using the power of both eyes aided by the Corrector, hitherto indifferent shots may become good marksmen, and good shots notice a decided improvement in their shooting.

In independent and volley firing with the Corrector, marvellous results have been recorded, and the time cannot be far distant, when to produce a good shooting army, the use of this Invention will become indispensable.

It may be asked, how is this improvement to be accounted for, and it is safe to reply, that unless a clearly defined and accurate aim can be promptly taken, reliable shooting is impossible, and this, what is claimed for the Corrector, coupled with the advantage of being able to bring the power of both eyes to bear upon the object, which at the same time take in the entire field.

Let it be distinctly understood, that all who possess good natural sight in both eyes whether left or right eyed—are more in need of the Corrector, than those who have defects of vision, that is to say, the more perfect the sight of the shooter, the greater the necessity for this controlling aid, and the greater are the advantages to be obtained by the use of this invention.

Price of Corrector, 9/6. Self-attaching Pattern, 11/6. Fitting above, extra

*AMMUNITION (ELEY'S LOADING), FOR BREECH LOADING GUNS, PIN OR CENTRAL FIRE.

NOTICE. Loaded Cartridges are among the articles excepted as to free carriage. They cannot be enclosed with other goods. Three days notice is required for the execution of orders for cartridges of "ordinary load." (See *Notes*). For cartridges of "special" load, about a week or ten days is required. During the months of August and September these periods for delivery may be extended even longer, and Members are therefore recommended to give their orders for the season as early as possible. Delivery by Rail cannot be guaranteed by any certain time, as some Railway Companies will not carry explosives every day. The Society cannot hold itself responsible for any delay in transit, especially to Ireland. In all cases care should be taken to state the Gauge, Colour, or Quantity, and whether Pin Fire or Central Fire and size of shot. This notice is rendered necessary by these particulars being so frequently omitted in orders. The Society cannot undertake to trace the loading and particulars of previous season's cartridge orders. Full particulars must always be given. Cartridges and Cartridge Cases cannot be supplied in less quantities than boxes of 100.

ARTIFICIAL BAIT.

HUMPHRIES' LIGHTNING SPINNER.

This new Spinner has been most successfully tried this Season. It does not kink the line. A deadly bait for Salmon, Trout, Pike, Perch, Chub, Bass, Mackerel, &c.

Mr. R. B. MARSTON, Editor of the *Fishing Gazette*, writes:—"Your Double Action Lightning Bait ought to have a big run, as there is no doubt it will. I can safely recommend it to all who use Spinning baits; the double action being very attractive."

THE NEW "M.C." PATENT PHANTOM MINNOW.

Section of Head. Patent Combination Swivel.

The "M.C. PATENT PHANTOM MINNOW" spins beautifully without any Swivel Trace, and is pronounced by the most competent judges to be the greatest among the many improvements in the Spinning of Artificial Baits during recent years. The Patent Combination Swivel is on the **Ball Bearings** principle, so that there is almost no friction.

The attachment being completely enclosed in the Bait, and no Swivel Trace being required, the long-standing objection to the motion of Swivels in smooth water is obviated, and at the same time there is absolutely no danger of the line twisting.

THE 'FACILE' BASKET STRAP (Registered).

The 'Facile' is slung on the LEFT shoulder, the basket being kept in position by a waist strap. Both waist and shoulder straps are adjustable, so that the 'Facile' will fit any figure.

It can be taken off INSTANTLY by unfastening the waist strap in front.

For Fly-fishermen it is invaluable, as perfect freedom of the right arm is afforded, whilst the basket is kept firmly in one position, no matter how vigorous the action of the body.

- 9 to 10 „ Knee.
- Cross or Side Pockets.

Attention is requested to the following suggestions for taking measurements, which, if acted upon, will tend to avoid the occurrence of misfits :--

1. When there is any peculiarity in the figure, such as very upright, stooping, round-shouldered, high-shouldered, low-shouldered, long or short neck, &c., and it is recommended that the entire measurement be always sent, even though a single garment only be required, as a better idea can be thus arrived at of the general proportion of the figure.

2. The measurement for length of coat is to be taken from seam under the collar, and not from top of collar.

3. The measurement around top of arm, giving size of armhole, is useful, especially in the case of muscular figures.

4. The breast and waist measurements for coats and vests are to be taken over the vest, and moderately close upon the figure. The breast measurement should be taken close up under the arms, and over the blade bones. All necessary allowances are made when the garment is cut. This rule applies to orders for overcoats as well as undercoats, the breast and waist measurement for both of which ought be taken upon the vest.

5. In taking inside leg measurements of trousers, it is necessary that the trousers should be pulled well up in the fork, and the measurement taken from the top of the inside seam, keeping the leg quite straight.

6. Coats made from worsteds and fancy diagonals should, as a rule, be ordered with bound edges

THE SCREW NEEDLE COLLAR STUD.

(Registered.) No. 1. No. 2.

Price 9d. each.

Stud with needle sunk, ready for fixing to shirt and collar.

DIRECTIONS.

Stud with needle projected ready for the tie.

Fix the Stud to Shirt and Collar as usual, then turn the top of Stud round until sufficient length of Needle is projected. Make the bow, or knot of tie, a little below the needle, and when finished raise the bow on to top of needle and press it down. The tie will now be held quite firmly in position, the necessity of using pins being quite done away with. The advantage of this Stud over every other is, that it can be used as an ordinary stud when the needle is not projected. It is especially applicable for white ties, and for shirts made with fixed collars where no kind of collar clip is of any use.

THE IMPROVED COLLAR CLIP.

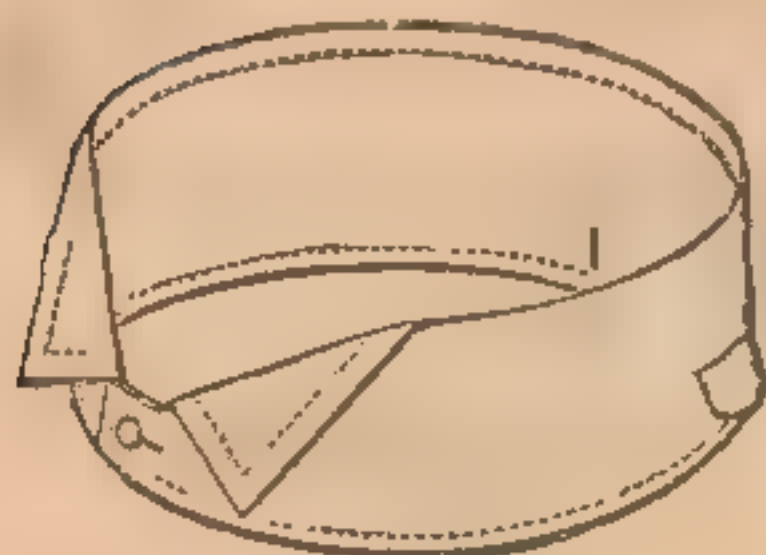

Per pair ... 0/4

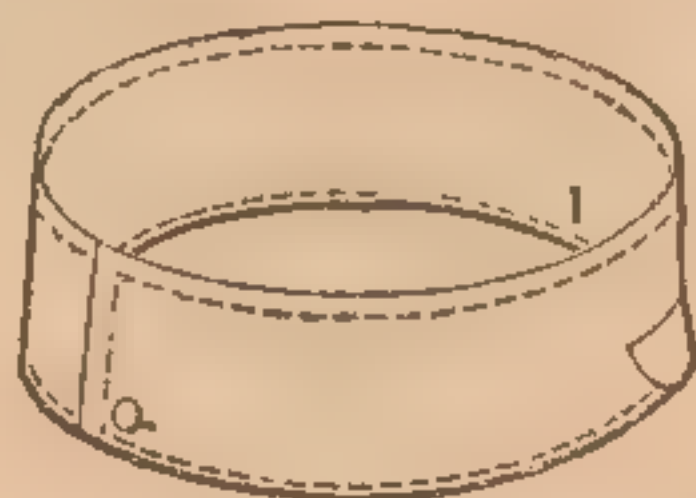

COLLAR WITH CLIPS ON.

DIRECTIONS.—Slip the clips on the back of the Collar, about midway between the Button-Holes, then fasten the Collar on in the usual manner. The small needle point on each Clip prevents any Tie or Scarf moving, and the necessity of a Pin is done away with. White Ties are held quite firmly in position by these points. The Clips can be slipped a little more to the front for White Ties.

HAT DEPARTMENT.

DIRECTIONS FOR SELF-MEASUREMENT.

In ordering Hats, it will suffice to quote the size, number, and price.

Cut strips of paper the *exact* length and width of hat, as represented by the lines A to A and B to B in diagram. Enclose the strips so marked with the order, being careful to add the name on both strips of paper to insure accuracy.

The *exact* shape of the head can be registered, if required by the "Conformateur" at the Stores.

In ordering goods the number of ticket should always be stated.

N.B.—All goods stated as "SUPERIOR" quality are the Best that can be made and are specially manufactured for the "Stores."

NOTICE.—Hats left "to be called for," either new or old, will be disposed of if not applied for within three months.

„ A, 2 „	...	1/11	„ A, 2 „	...	3/0
„ B, 3 „	...	2/3	„ B, 3 „	...	3/6

Each time that water is poured into the top glass the air under the Aëerator Cover is forced through the block, which is thus automatically aërated. Removing the china screw releases the carbon for cleansing or renewal.

Patent Self-Aërating Moveable Block Silicated Carbon Filters, cream coloured Stoneware and plated Taps. The Carbon Block can easily be removed, leaving the whole of the Filter open for inspection and cleansing.

The warm air in the refrigerator being lighter than the air in the ice-box rises, circulating through the pipes or holes into the ice-box passes through the ice and sinks back as cold air, the latter being heavier than warm air. This air circulation will continue until the air in the refrigerator has attained the same temperature as the air in the ice box.

"PREMIER" SAFETY (DIAMOND FRAME. MODEL F).
HILLMAN, HERBERT & COOPER.

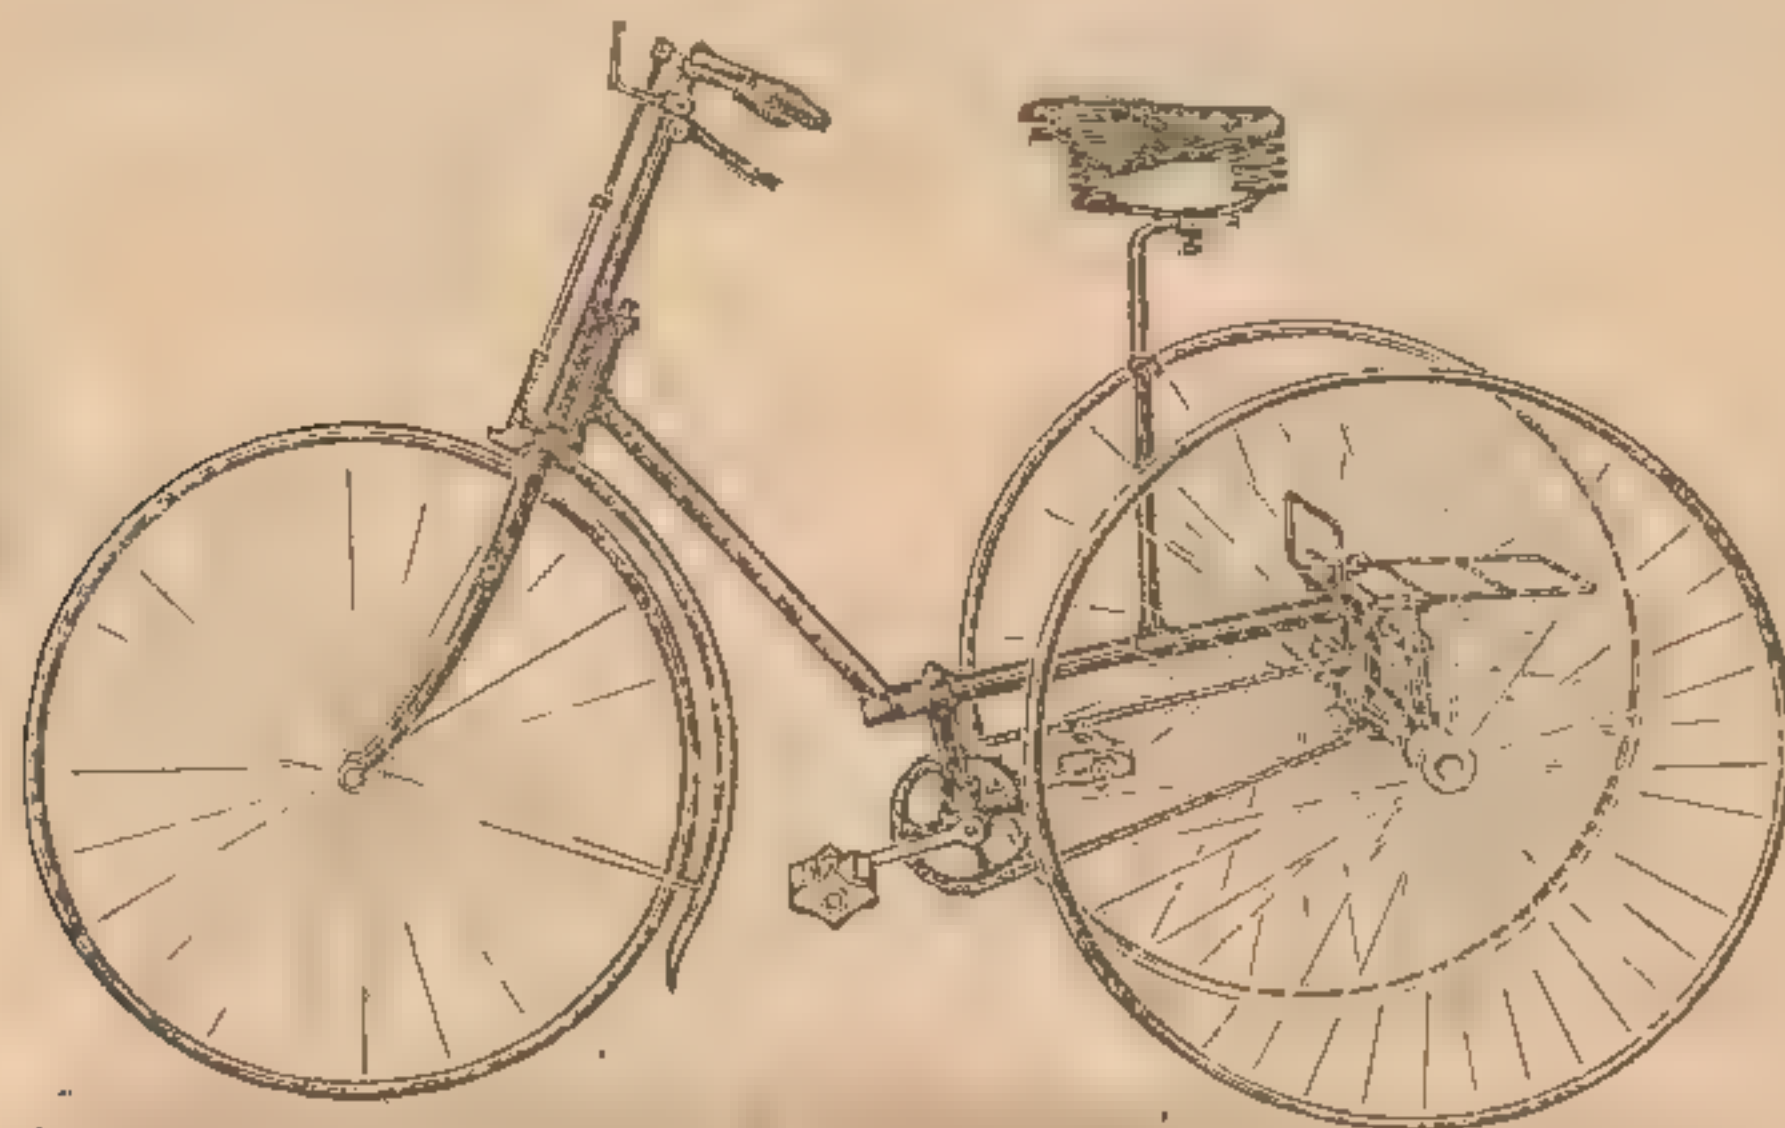

Is an exceptionally strong and sound Bicycle at a very moderate price. Its special feature is a diamond-shaped framework of novel construction. The frame is formed of trough-shaped or semi circular steel, fitted together in a way which gives it the appearance of a tubular frame, divided vertically, except for a few inches at the neck, and opened out about 2 inches at the centre. This formation at the frame gives great lateral stability, an important characteristic not possessed by many Diamond Framed Safeties. 13,000 of these Machines have now been sold with the most satisfactory results.

CCX CHAFF CUTTER,

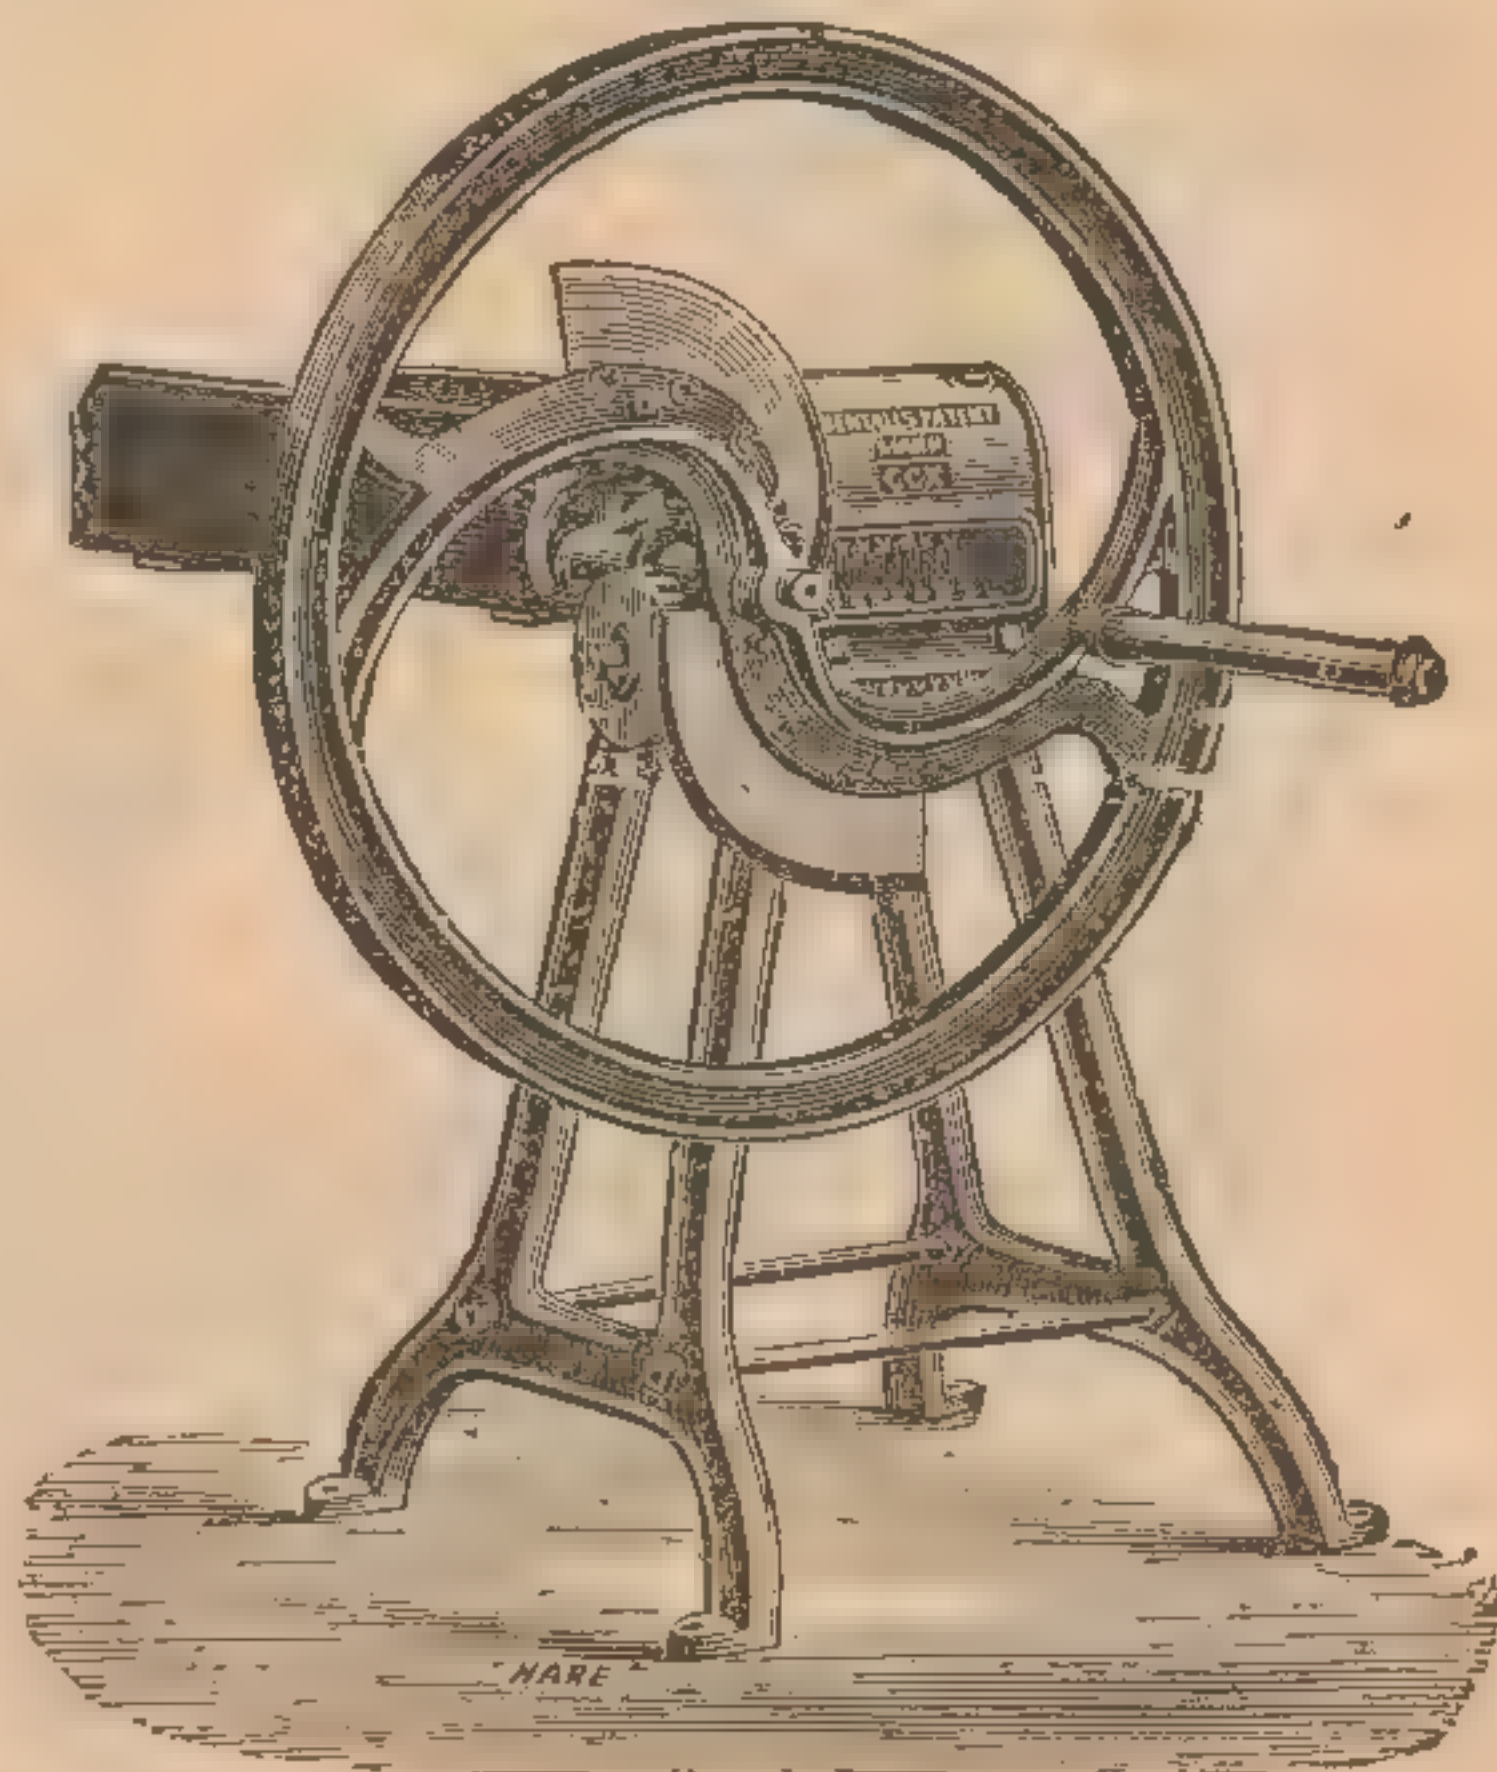

With fixed mouth, 7½ in. by 2½ in.
Cuts two lengths, viz., ⅝ and ⅞.

If ordered specially, it can be fitted with a single worm to cut ⅞.

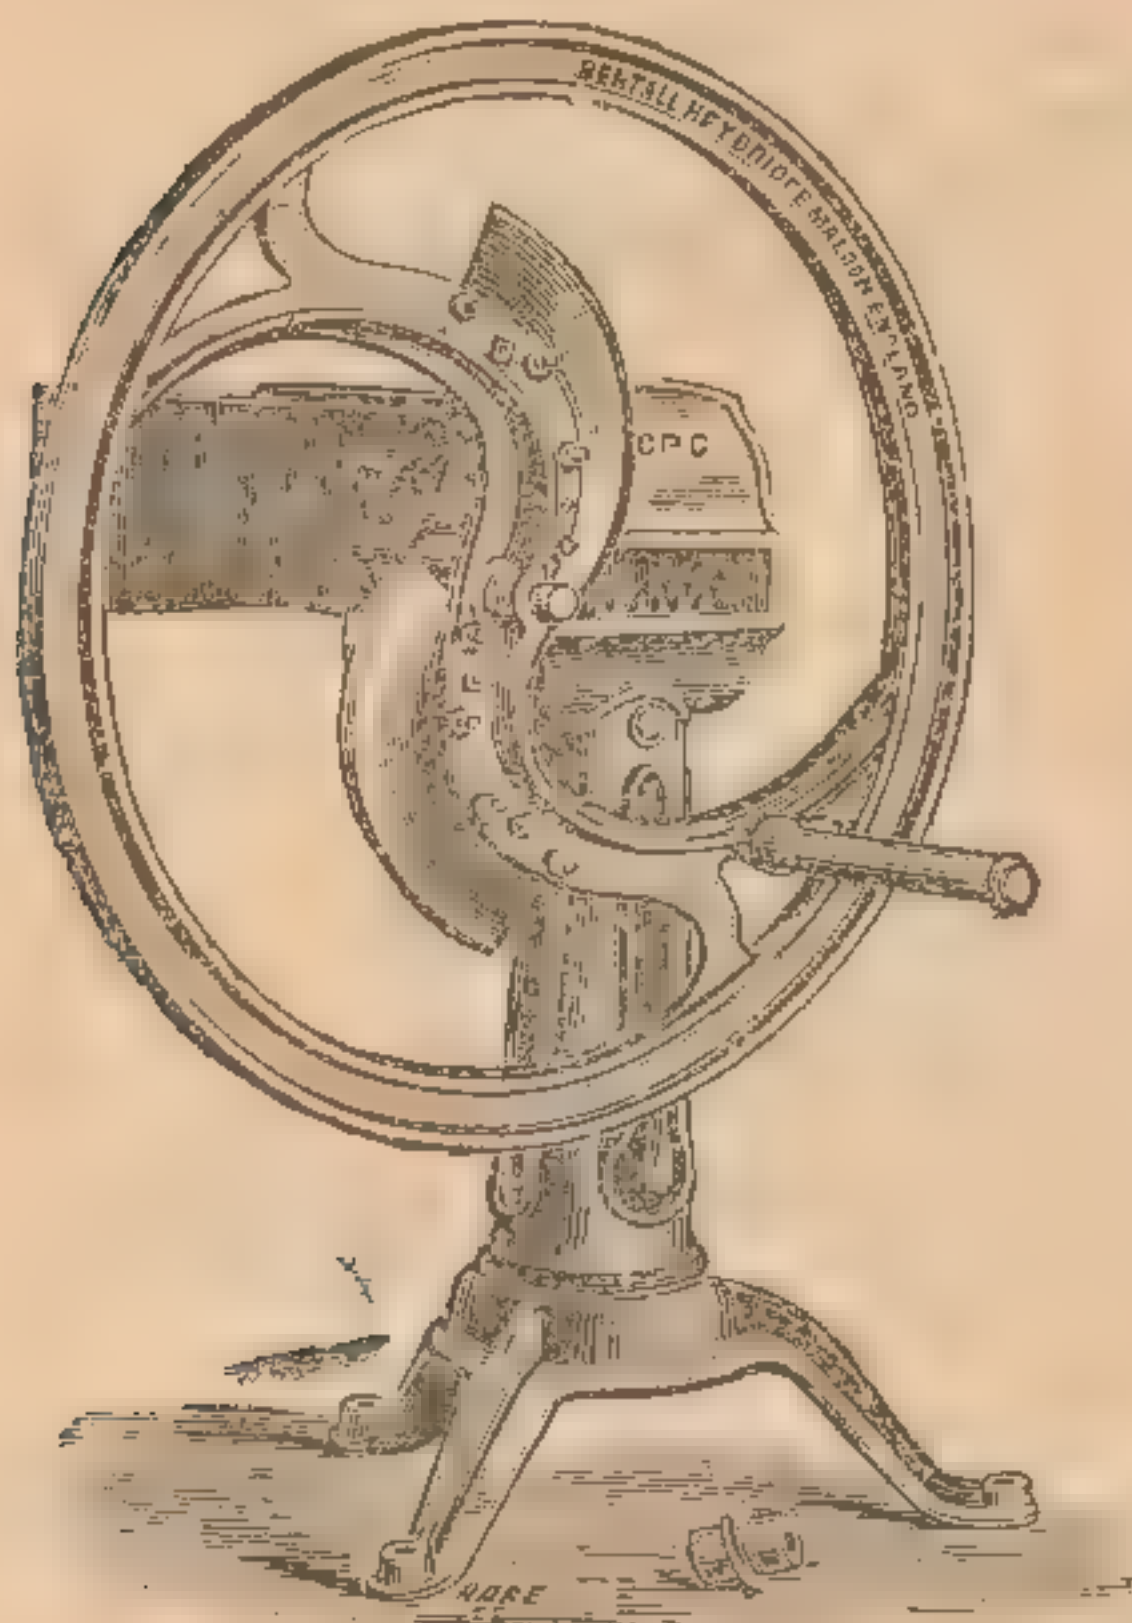

The above is a very durable machine, and is strongly recommended for gentlemen's stables. It occupies but little room, and can easily be worked by a lad. The legs are firmly braced together with wrought iron stay rods, and the mouth-piece is chilled on the face. It is fitted with a double worm, so as to cut two lengths of chaff, viz., ⅝ and ⅞.

Price 40/0.

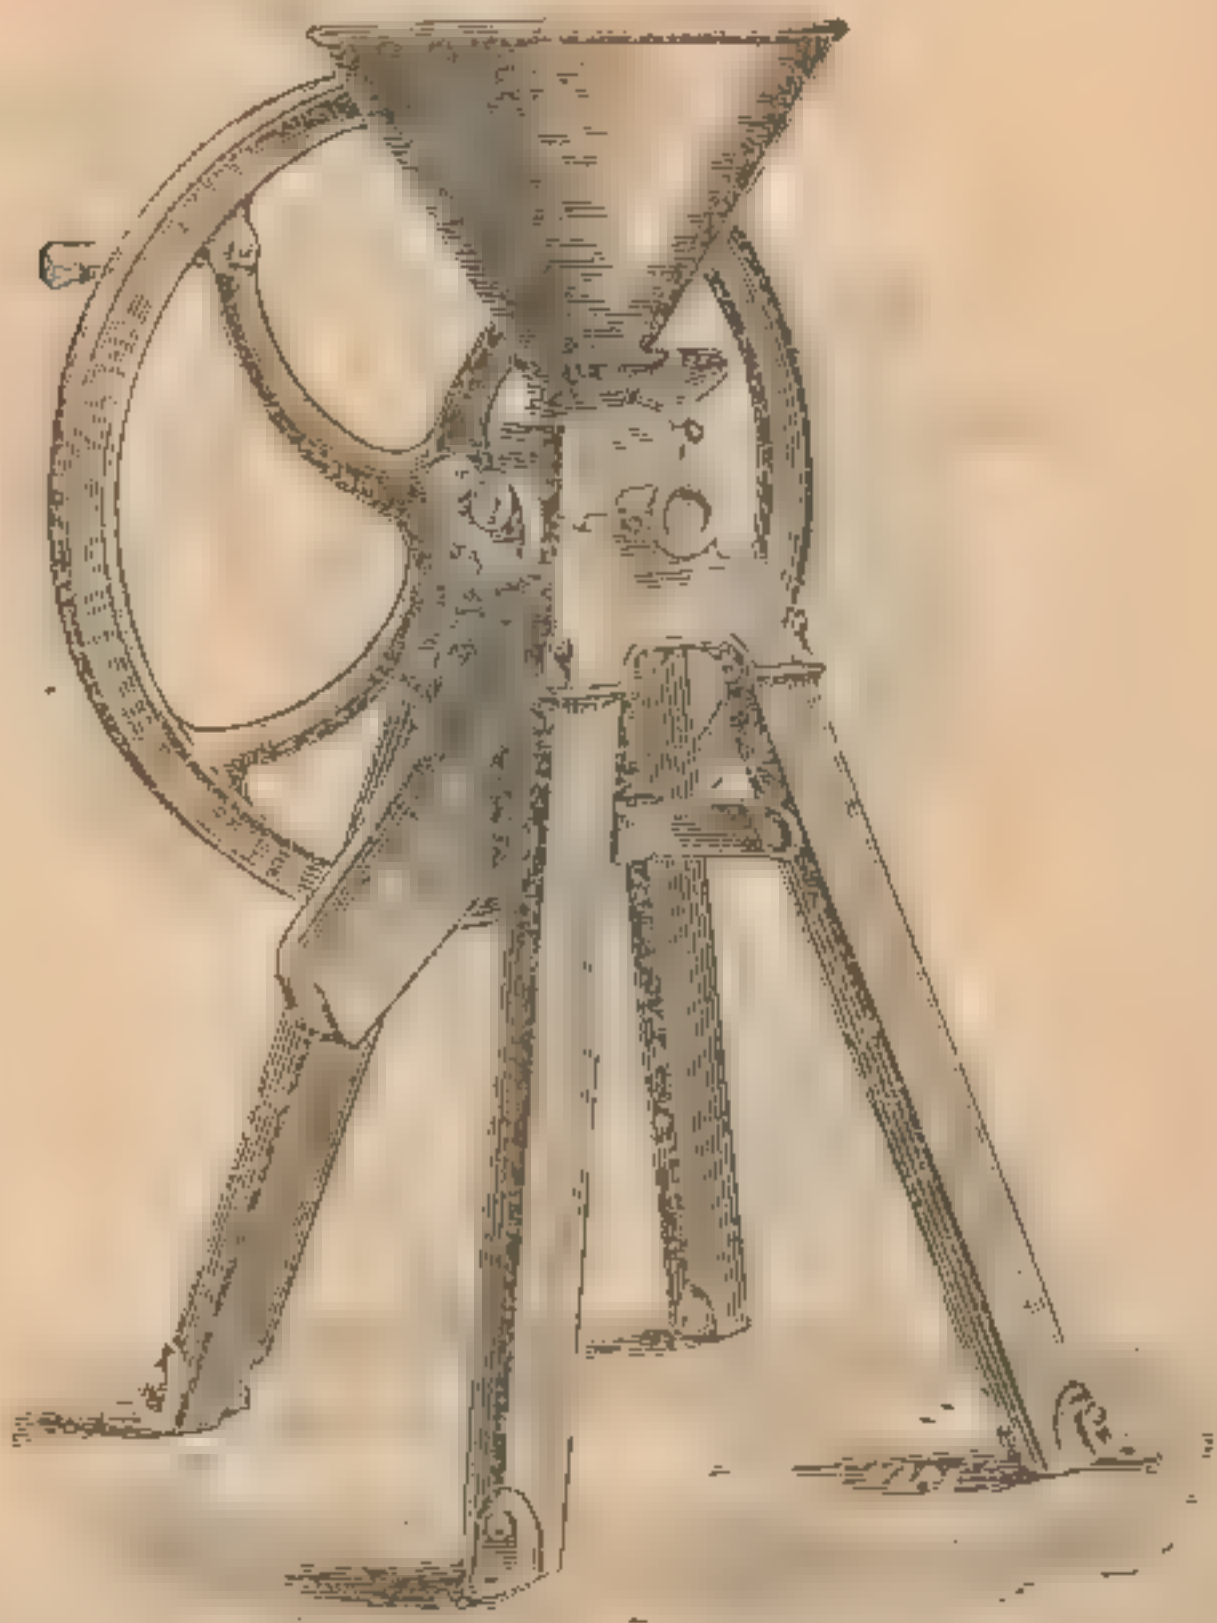

Carriage paid to any Station in England or Wales.

CHAFF CUTTER.

KIBBLER.

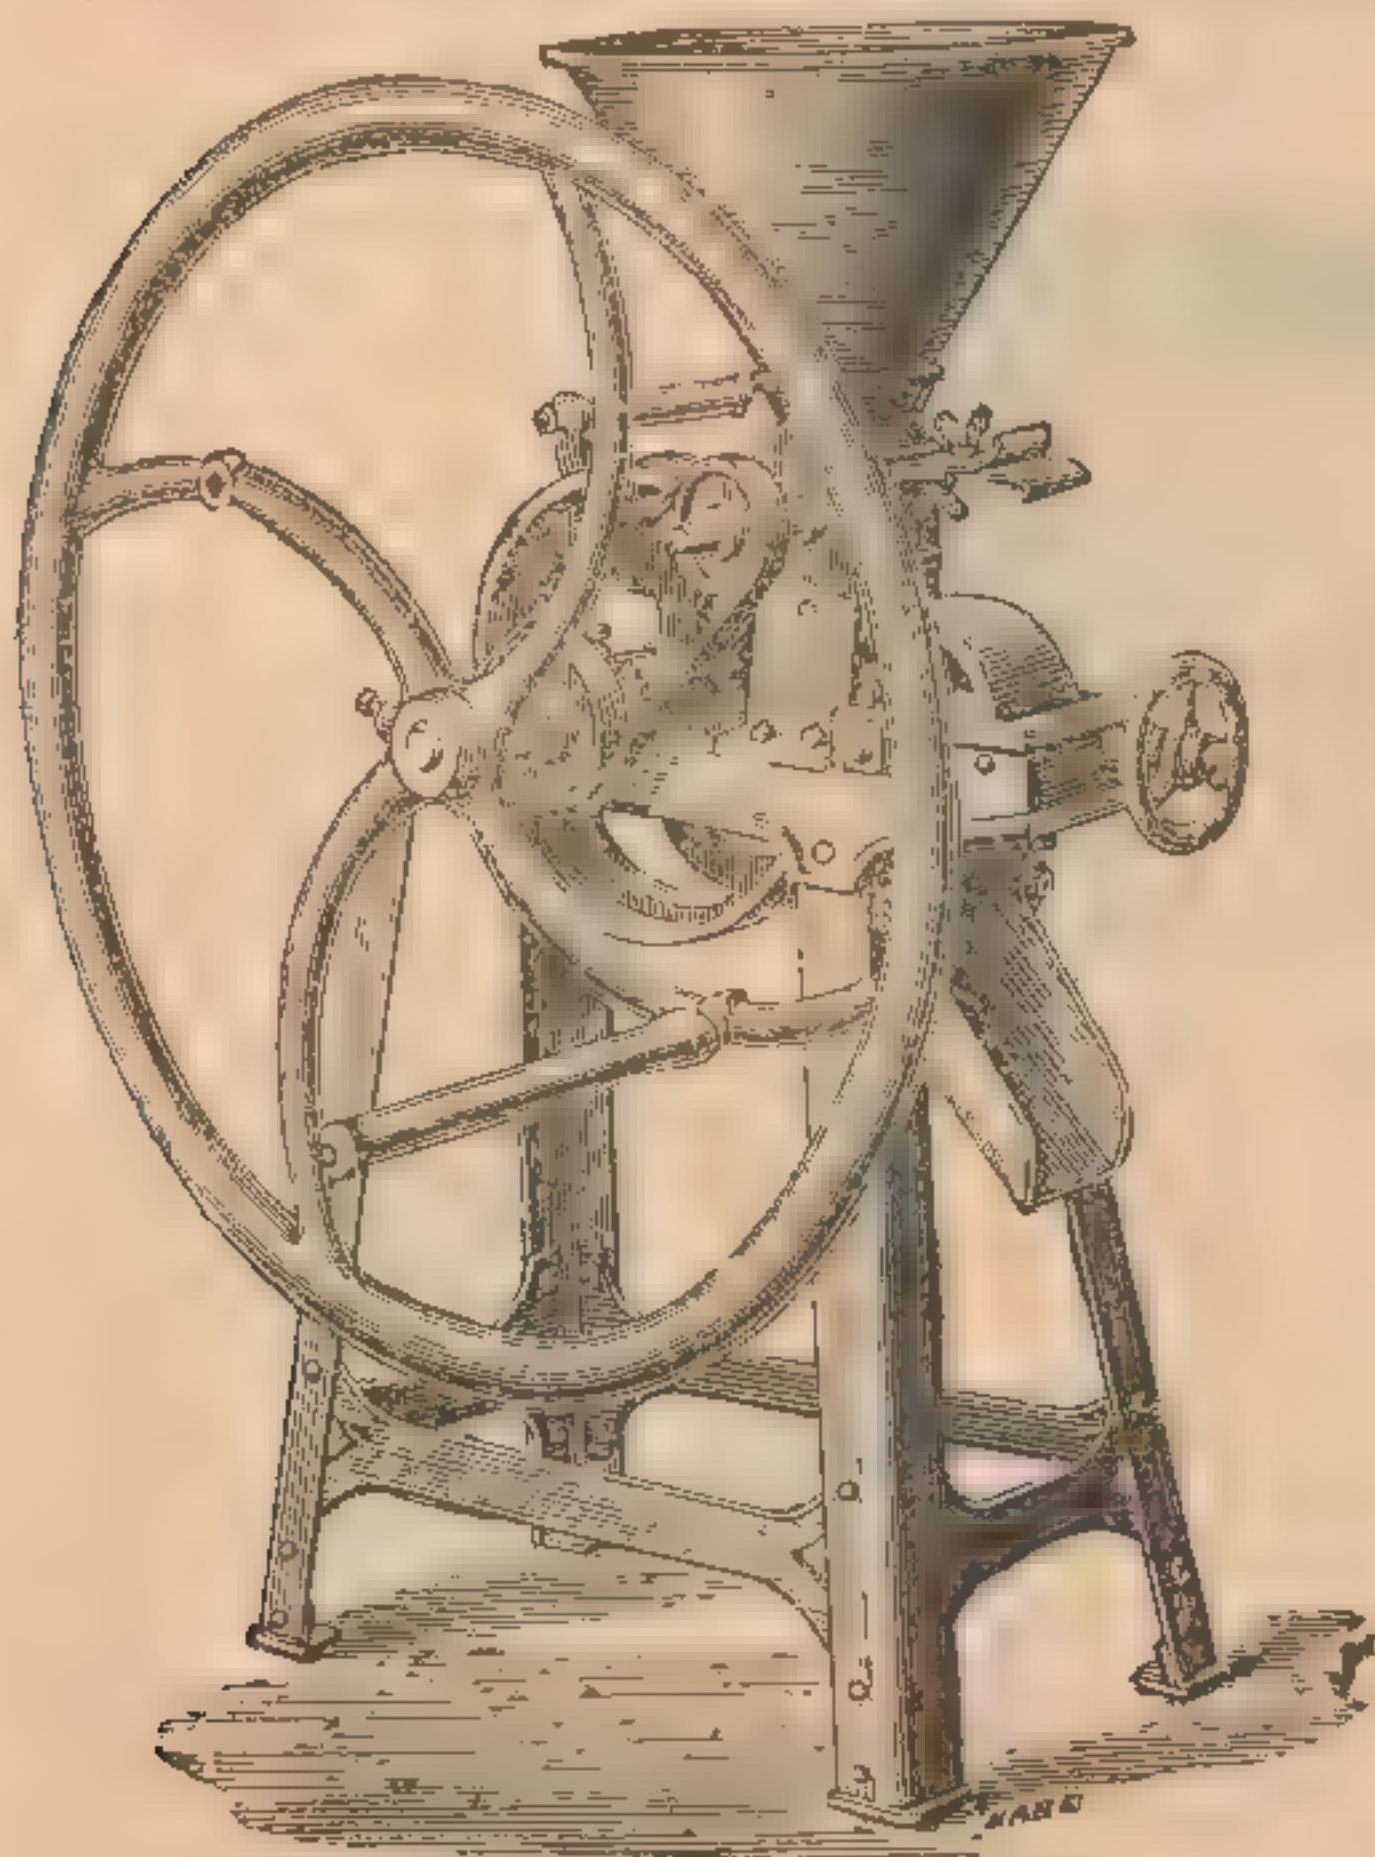

C.P.C. For Hand Power. Fixed mouth, $7\frac{1}{2}$ inch wide ... 35/0
 The above Machine is supplied with an extra worm for cutting 2 lengths of Chaff, and is very useful for small occupiers.

The C.P.C. is mounted on an open cast column.

G.M.C. Kibbler for Oats, Maize, &c. ... 38/6
 New Machine for kibbling Oats, Maize, &c. The rollers and cutting plates are of hardened steel, machine finished; they are so constructed that the feed is readily adjusted without the aid of a spanner.

A coarser roller for kibbling Beans and Maize can be supplied to either of the above Mills.

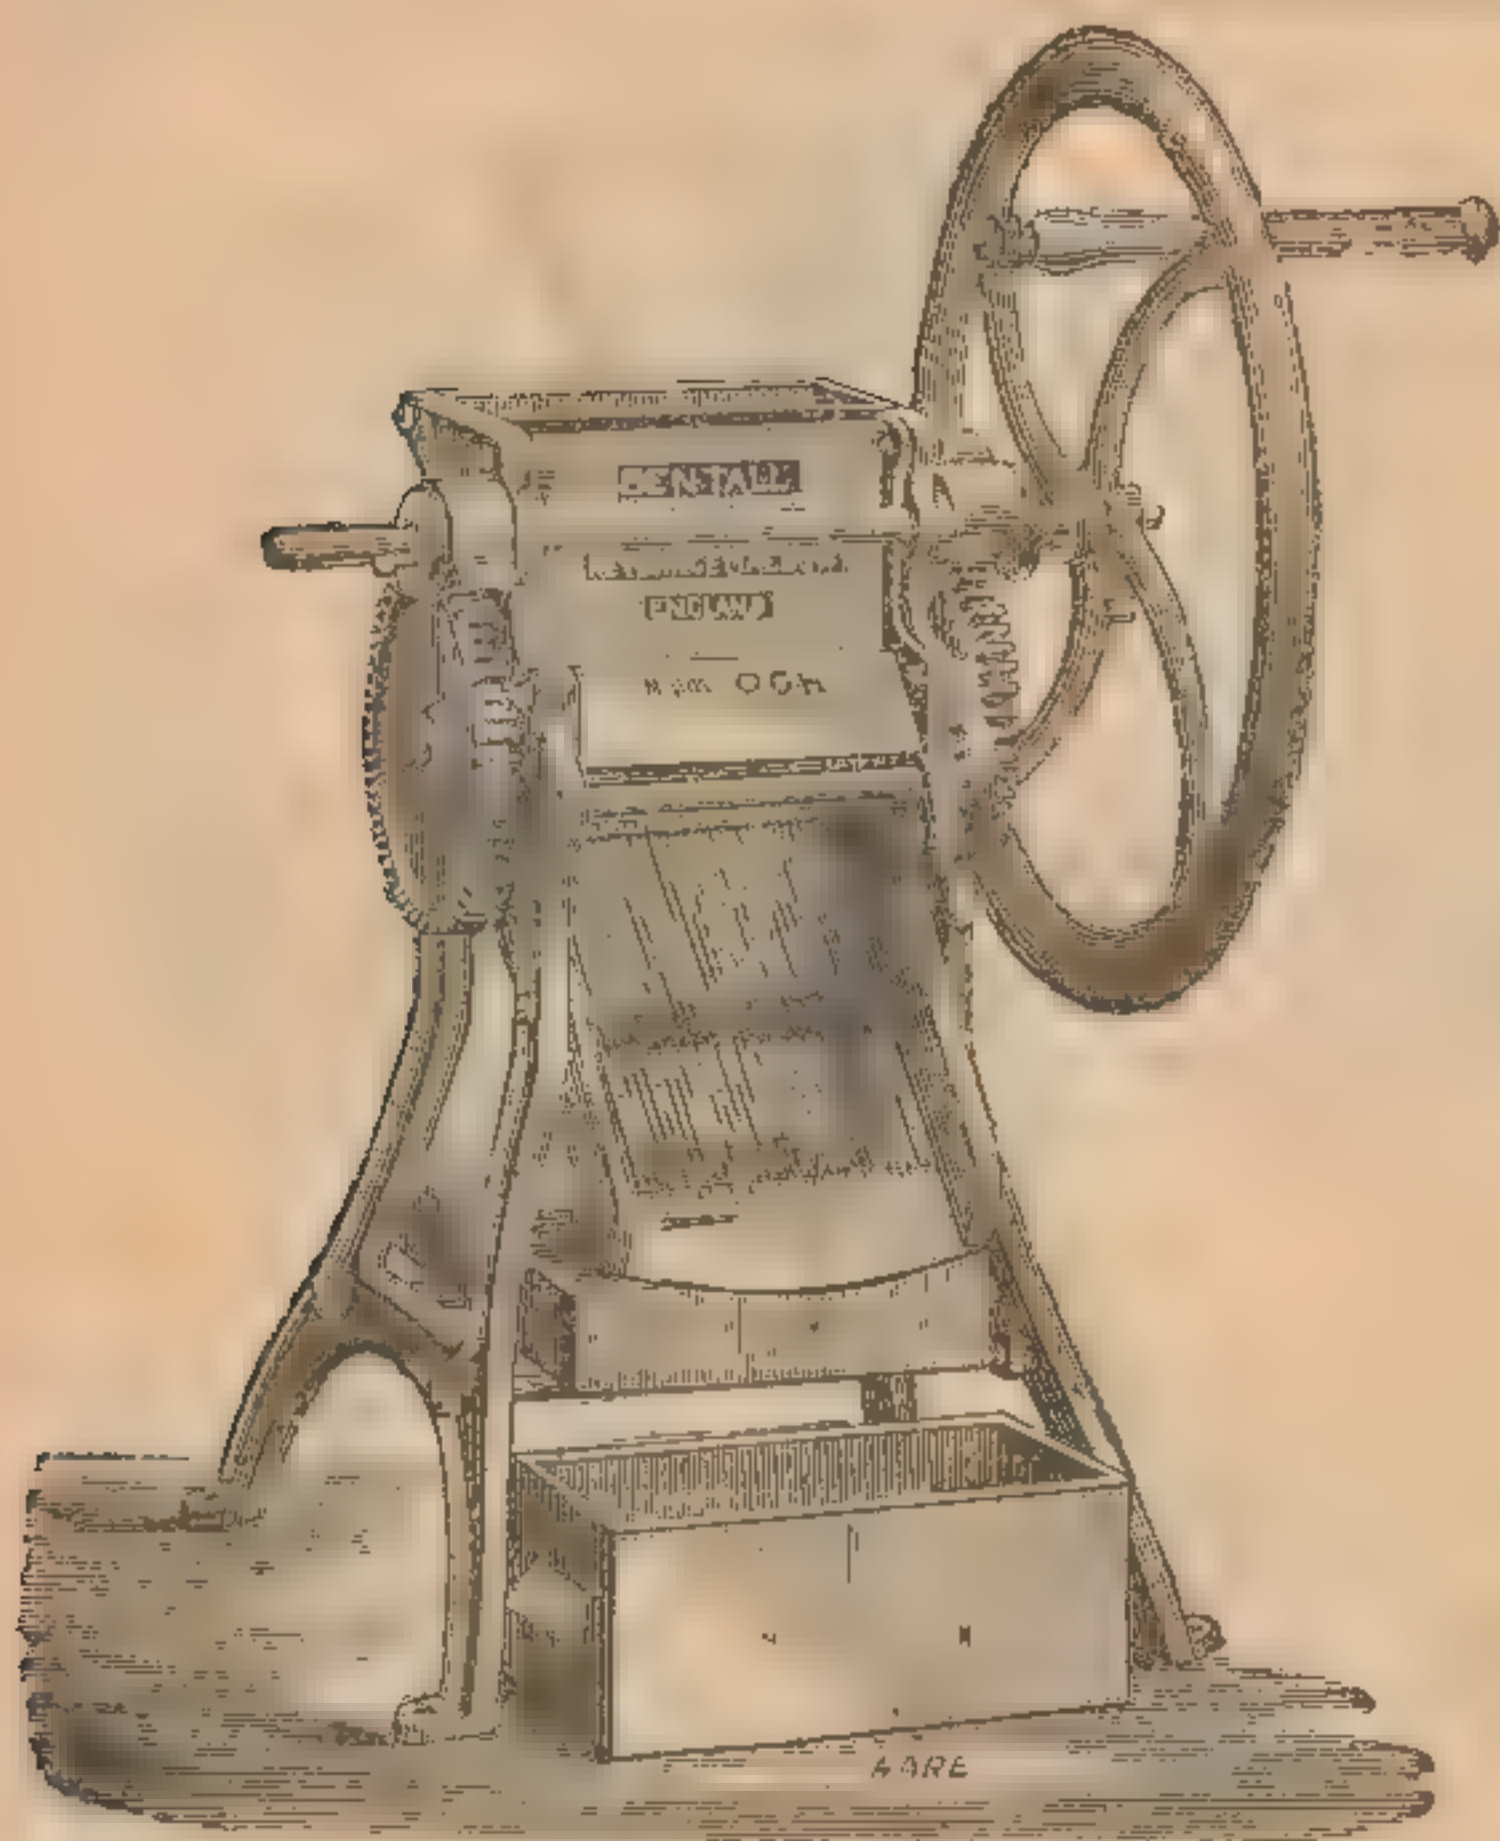

CORN, SEED, AND
MALT CRUSHER.

R.S.E. Crushing Rollers, 16 and 8 in. diam., by $3\frac{3}{4}$ in. wide ... 90/0

R.S.E. and Kibbler Rollers, 16 in. and 8 in., diam. $3\frac{3}{4}$ in. wide ... 120/0

These Mills are for crushing Oats, Linseed, Malt, or Barley. The rollers are of different diameters, and the grain is simply bruised or crushed without being mealed.

They can be supplied with Kibblers for kibbling Beans, Maize, or Peas. The Barrels being made with steel triangular cutters which can easily be renewed.

IMPROVED OIL-CAKE BREAKERS.

O.C.I. Mouth 12 in. ... 46/9

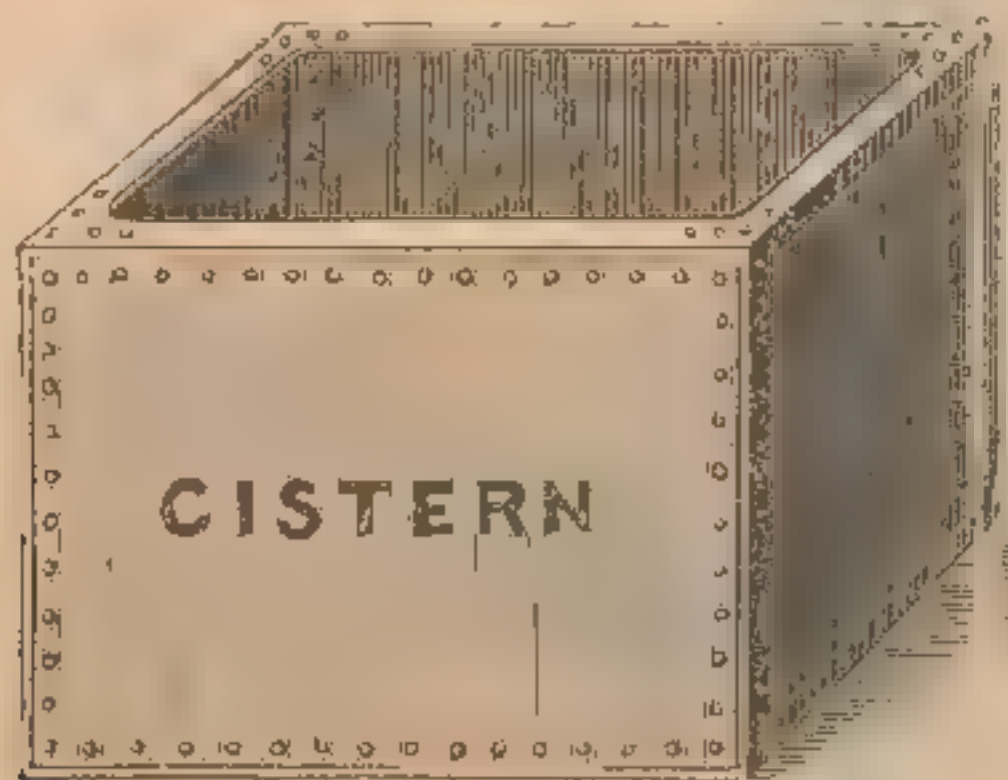

By means of the eccentric they can be regulated to break seven different sizes.

These Machines, with the exception of the sides of the spout, are made entirely of iron.

Carriage paid to any railway station in England.

Coffee in perfection can be obtained by the use of this most simple apparatus. It is made in brass with plain iron standards as shown by the illustration, and on bronzed copper with ornamental bronzed or electro-plated standards. The glass cover affords the means of seeing when the coffee is made.

Fig. 3.

COFFEE POTS—continued.

DIRECTIONS FOR USE.

Put the Ground Coffee into the jar: then pour over it as much Boiling water as is required: put a teacupful of hot water into the bottle, and light the spirit lamp. Then fit the syphon tight into the bottle, allowing the perforated end to rest on the bottom of the jar, and when the air is expelled from the bottle (which will be known by the commotion in the jar subsiding), extinguish the flame and the Coffee will pass through the syphon into the bottle, from which it may be run into cups as required.

N.B.—Before running out the Coffee by the Crane, remove the Syphon from the neck of Bottle.

DIRECTIONS FOR THE MEASUREMENT OF FENDERS.

As mistakes frequently occur in taking measurements for Fenders and Kerbs, the following directions are drawn up for the guidance and assistance of Members; but it must be understood that under no circumstances can the Stores take back or exchange Fenders and Kerbs made according to Members' own measure.

FOR A FENDER.—Measure in a straight line from A to A, viz., from the *centre* of each "jamb." The usual width for Fenders is 12 inches (inside measurement). If any other width is required, it must be specified.

FOR A KERB.—Measure in a straight line from B to B, viz., from the extreme outer edge of each "jamb." The width preferred must invariably be stated, as there is no regulation width.

NOTE.—A "Kerb" has no bottom plate, and is generally used on a tiled hearth.

Owing to the difficulty of accurately measuring for Ash Pans, Members would do well not to attempt it, but to obtain the assistance of a practical man. The Stores will not be responsible for Ash Pans made to order.

SPAN-ROOF CONSERVATORY.

LEAN-TO CONSERVATORY.

Fig. 11.—Registered Design, No. 15,518. Fig. 12.—Registered Design, No. 15,522

Fig. 11.—This design is easily adapted to suit any situation, and makes a very handsome building. In the style shown above, with a door opening into it from one or more Reception Rooms, it would make a splendid addition to any Mansion. It is in the Queen Anne style, and has a semi-circular recess formed at one side suitable for a seat and table. Built in the best possible manner. Intending Purchasers waited upon by competent surveyor, when exact particulars and measurements can be given and advice offered, and special drawing and estimate submitted. No charge for this if an order be placed, and only third class railway fares charged if no order resulted.

Fig. 12.—This is a design which is largely used, and is strongly recommended. The large squares are glazed with polished plate glass, and have a very fine effect. It can be made any required size, and any height either at eaves or back. Improved lever gearing is used for actuating the roof ventilators, and the very best materials only are used in the manufacture. Intending Purchasers waited upon by competent surveyor, when detailed measurements, &c., can be taken, and a special drawing and estimate submitted. No charge for this if an order be placed, and only third class railway fares charged if no order resulted.

RANSOMES'

'NEW AUTOMATON' & 'CHAIN AUTOMATON'

The best "GEAR" and "CHAIN" Machines for general purposes.

THE "NEW AUTOMATON" Lawn Mowers are without a rival in design, mechanical construction, excellence of materials, workmanship, finish, durability, and lightness of draught. These Machines are intended for doing the highest class of work, and for producing the finest surface on lawns in front of houses, or for tennis lawns, &c., where closeness of cut and absolute freedom from ribbing are specially desired. These Machines have a large open cylinder which enables them to deal with either long or short grass; this cylinder is adjusted to the bottom blade by a patent single screw adjustment which cannot get out of order. The gearing is completely covered to exclude dirt, and all the bearings are easily accessible.

The "CHAIN AUTOMATON" Lawn Mowers are equal in every respect to the above, but are driven by chain instead of gearing, which is preferred by some as being extremely easy to work and silent in action. The chain is made entirely of steel of special construction, very strong and durable, and cannot stretch except by actual wear.

"The Field" for Feb. 6th, 1886, says:

"After a season's trial it is scarcely possible for us to speak too highly of this Machine."

RANSOMES'

“NEW PARIS” LAWN MOWERS.

THESE Machines are specially adapted for those who require a light working and cheap Machine. Being equally as strong and well made as our more expensive Mowers they are unequalled by any similar Machine in the market, and unlike many of their rivals will prove good and serviceable Machines after many years wear. They are very useful for small gardens, for amateurs and ladies' use, also for cutting banks and sloping ground. The gearing is completely covered, and the height of cut can be easily altered. The adjustments are strong and durable, and it is really wonderful what these light and simple machines will do. Grass Collecting Boxes are supplied when desired.

RANSOMES'

“WORLD” LAWN MOWERS.

THESE Machines are equally as well made as the “AUTOMATONS,” but are specially adapted for cutting longer grass and dealing with rougher work. They are always fitted with side rollers, thus leaving the front open so as not to roll down the grass in front of the cutters, and they will cut off almost all the “bents.” They will cut long or short grass, wet or dry, and are adapted for getting over a large amount of work with little labour.

THE "PONY AND HORSE POWER."

For Large Lawns, &c.

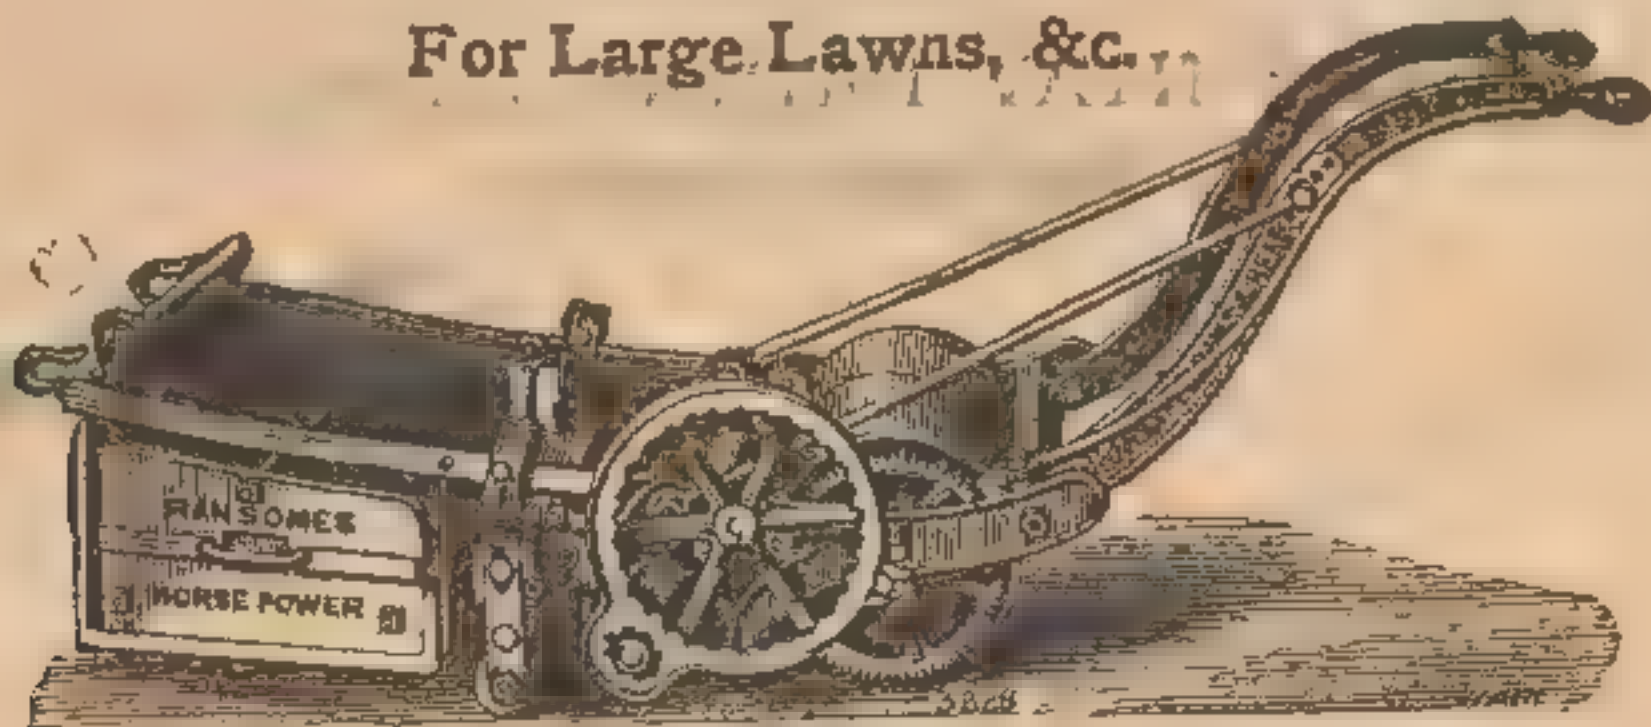

Fig. 5.

Suitable for Large Lawns and Pleasure Grounds, Cricket Grounds, Arboretums, Lawn Tennis Clubs, etc.

They possess the following advantages:—The grass can be delivered on either side at pleasure; a simple and effective arrangement for adjusting the knives; an adjustable concave (to suit the wear of the knives and to regulate the delivery of the grass) which can be removed when it is desired to leave the cut grass on the ground; a "wind" guard to prevent the grass blowing about, and a grass box which can be folded back on to the handles, so that the machine can be stowed away in a small compass.

They can be fitted with a simple arrangement for delivering the grass without stopping the horse, at a slight additional cost.

Fig. 19.—AUTOMATIC FOLDING SEAT AND FOOT RESTS.

The latest novelty in garden seats. By the action of folding down the back of the seat the foot rest is raised to the position shown in second drawing. A clean and dry seat and footboard is thus always ensured. The arrangement of levers is very simple, and nothing can get out of order. The seat is strongly made of wrought-iron and pitch pine, and well finished.

BROWNING'S PRESERVATIVE ENAMEL PAINT AND SOLUTION AND INDESTRUCTIBLE PAINT.

In ordering Paint please state whether for indoor or outdoor use, and if shining or flat is required.

BROWNING'S ENAMEL PAINT.

This can be prepared to dry either with an enamel surface, glossy and firm as porcelain, or “flat,” if desired, and entirely free from the gritty and “sand-paper” feel of ordinary “flat” paint. It has stood years of wear and washing in kitchens, pantries, and basement offices, where the ordinary oil paint is little better than distemper; and has been most successfully employed in stables, especially on the brickwork of stalls, where a hard and washable surface is essential.

All Colours, Shining or Flat, in Cans of 4, 7, 14, 28, 56, 84, and 112 lbs. Price of Stone Colour, Drab, Buff, Bronze Green, Lead Colour, Purple Brown, Black, Chocolate, Slate Colour and Red, 5d. per lb.; or per cwt. 46/0. Brunswick Green, 5½d. per lb.; or per cwt. 52/6 White Greys Pale Blue Pink, and Pale Green, per lb. 6½d.;

THE "CHALLENGE" PORTABLE KITCHENER.

The Oven Plates are regulated (as to the thickness) to ensure a uniformity of heat round the Oven, thus ensuring as much heat at the bottom as at the top.

The wearing parts of the Stove are made of strong malleable iron, and the fire-chamber is fitted with fire-brick linings. It does not require brick-work fitting of any kind, and can be placed into position by almost any inexperienced person in a few minutes. The cooking utensils are made of wrought iron (being half the weight of the old-fashioned heavy cast-iron pots and pans). The Stoves are packed free for England.

SASH LINE FASTENERS.

These Sash Line Fasteners, made in the best malleable iron, are easily fitted into any square framed sash. The object of this invention is to do away with the necessity of taking out sashes and removing beadings. Once fixed, any handy person can replace a broken cord in a few minutes, at a very trifling cost. Diagrams, with full directions, sent on application.

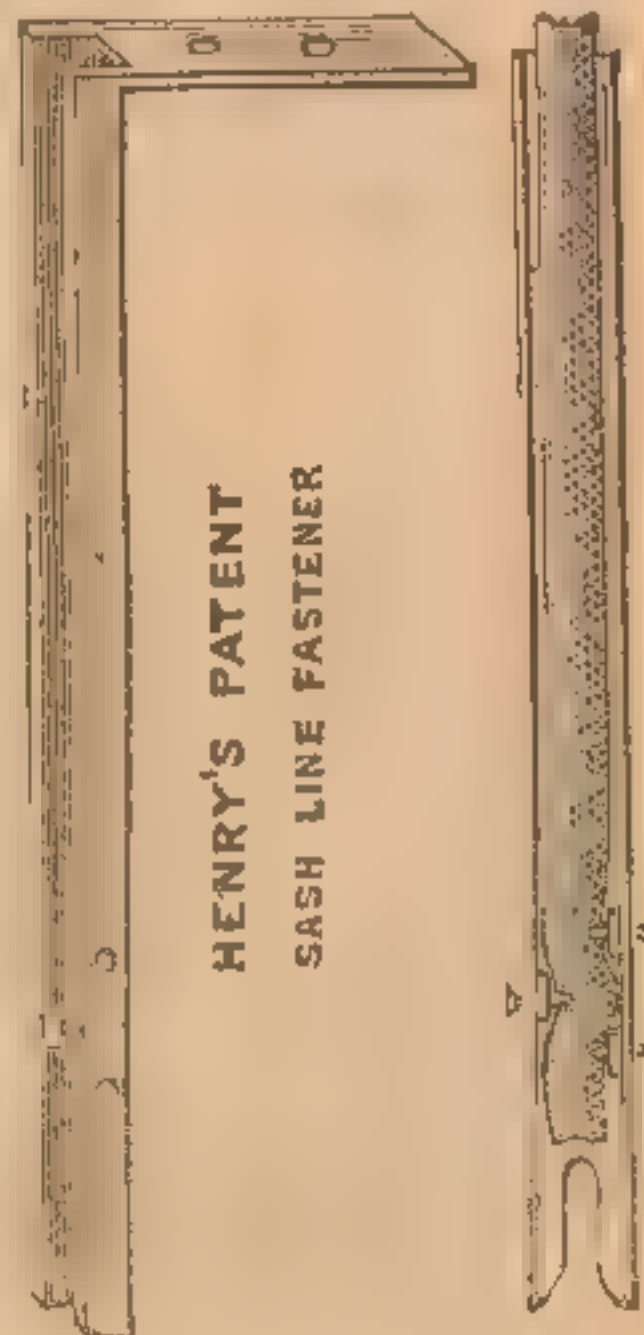

A pair for ordinary sashes.

Price 1/7 per pair.

A pair for heavy sashes.

Price 1/10 per pair.

These utensils are thickly coated, inside and out, with refined tin. They can be easily re-tinned, but the bodies, being bright steel, are equally healthy, cleanly, and uninjurious to food, thus rendering them far superior to copper. Their strength and thickness, and being seamless steel, make them practically indestructible, and not liable to burn their contents. Their cost being considerably less than wrought iron, they should be used in every household, cooking school, restaurant, club, &c. Made also to nest, for shipping, and with loose handles for camp use.

FAMILY "DUPLEX" GAS COOKING STOVES.

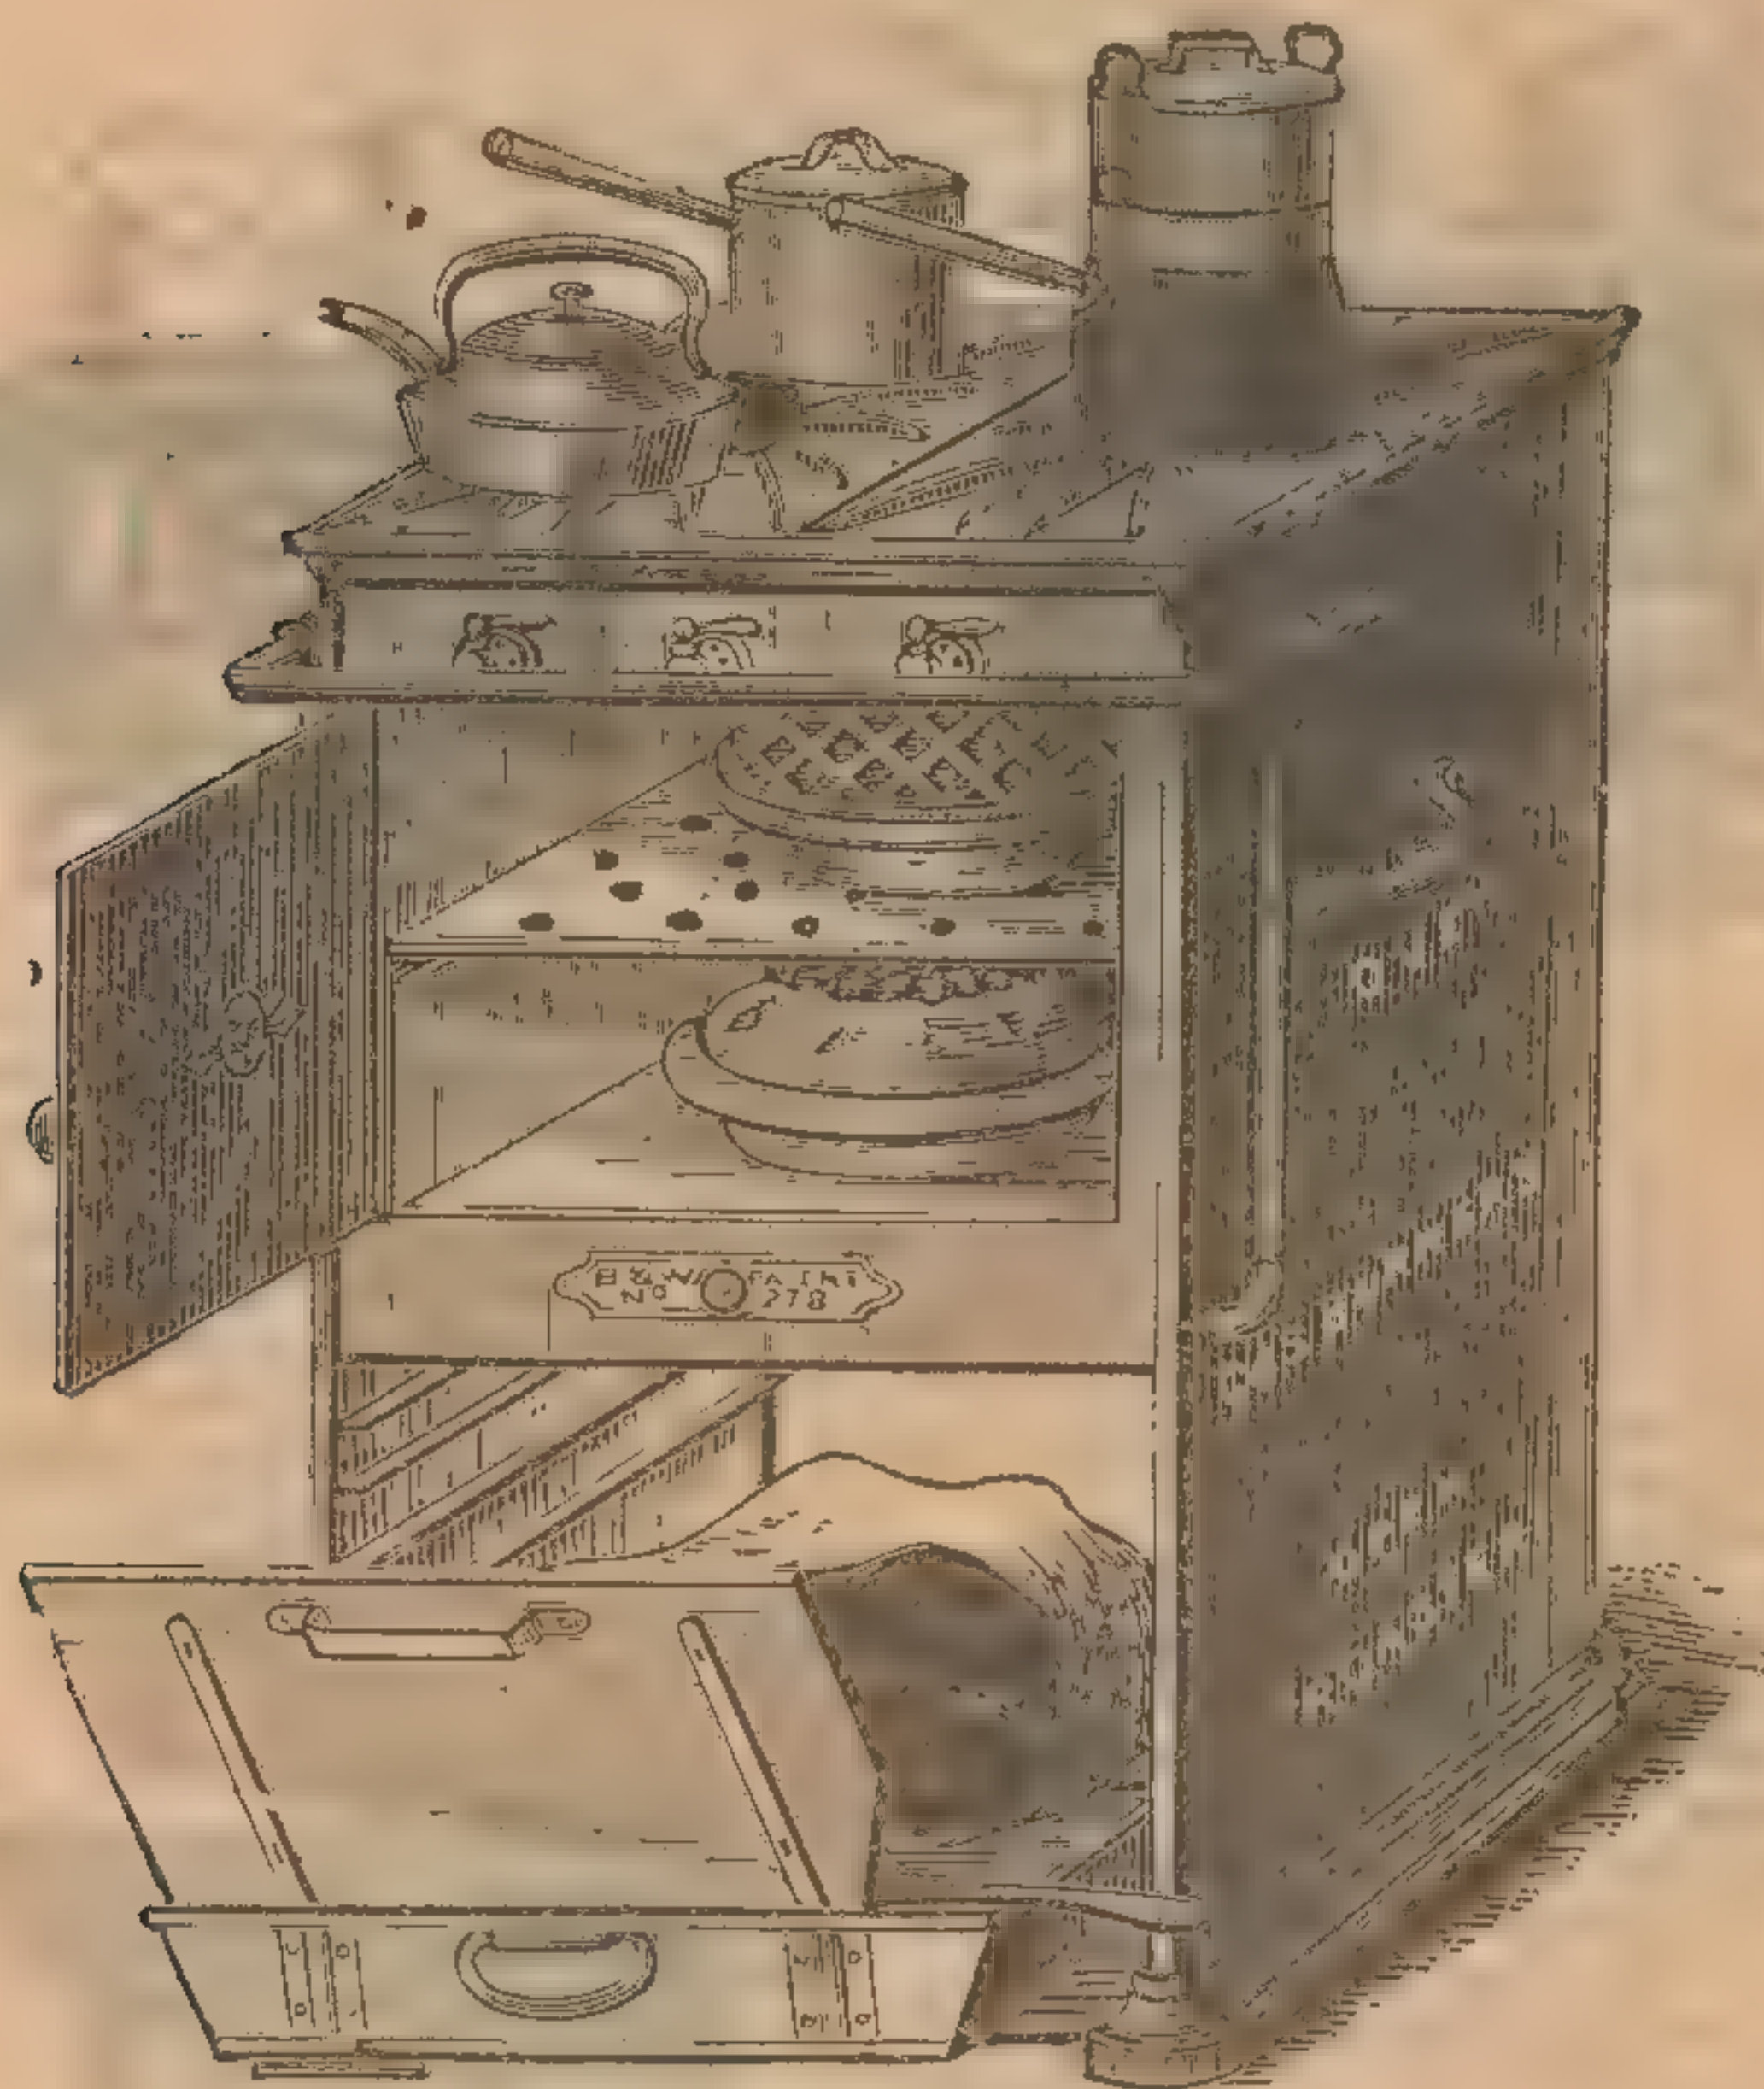

FIG. 11.

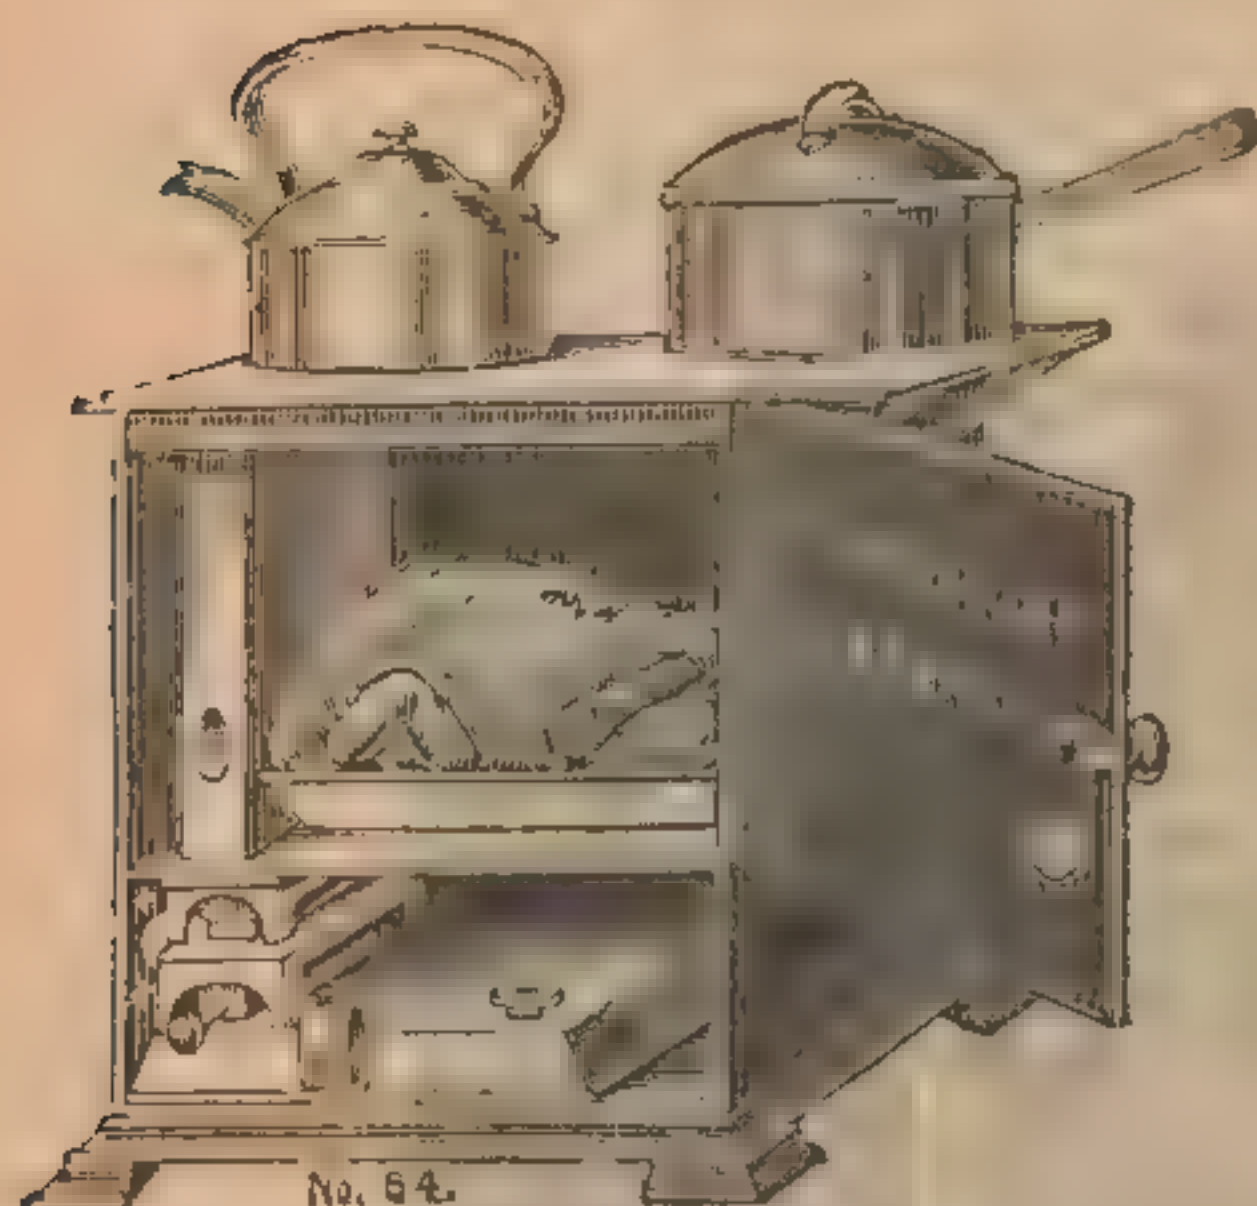

High, 32 in. Wide, 17 in. Deep, 16 in. Price 52/0.

This is a most useful and economical Stove; it will cook a dinner for a family of from four to ten persons. The Oven is large and double cased, and a regular distribution of heat being ensured, it will be found very efficient for baking Bread, Pastry, &c. Special attention is called to the improvement made in the Roaster; the burner being divided in the middle, and each part supplied with separate taps, so that a Chop, Steak, or any small article can be cooked as if with a smaller Stove.

This Stove is supplied with a Movable Tray, under the top Burners, for the removal of any Grease or Dirt that may accumulate.

The Hot-Plate is composed of three powerful Atmospheric Ring Burners, one or all of which can be used independently of the other parts, for boiling Water, Frying, &c.

STOVES, OIL.

No. 64. BREAKFAST STOVE.

It will answer every purpose for which it is intended, and upon emergency will bake a fowl or small pie, but is intended more for boiling, toasting, frying, heating plates, &c. It is made of best sheet-iron, and is fitted with one 4½-in. movable burner, patent sliding tank, cast-iron heat deflector, meat tray and grid. The top of Stove is extended and forms a capital hot plate.

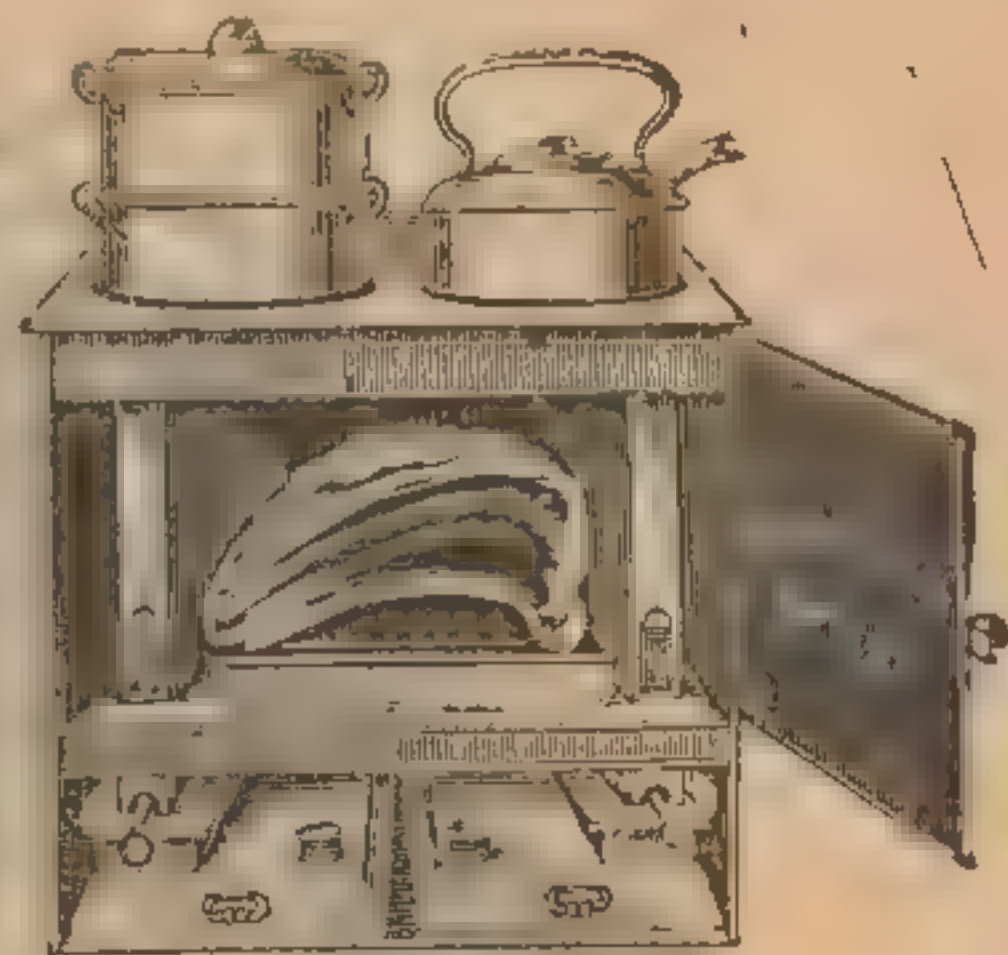

Price of Stove, with Meat Tray and Grid, 18/0; ½-gal. Kettle, 1/4; Stewpan, 1/4; Steamer, 1/1; Frying-pan, 1/0; Toast or Meat Hanger and Tray, 2/0; Cottons, 3/0 per box.

Remove the screw, and pour into the lower part, through the small funnel sent, about as much water as the inner vessel will contain.

Put the Tea in the inner vessel, replace the screw, and light the spirit lamp.

In about five minutes, when a bubbling sound is heard, extinguish the spirit lamp, as all the water will then have been boiled and poured on the Tea.

Let it stand for a few minutes, then pour out as usual.

This Pot should always be carefully drained after use.

THE "COMPACTUM" TOOL CABINET.

An Improved Combination Tool Cabinet, Joiner's Bench, and Wood Carver's Table.

This Cabinet is framed in dark American Walnut Wood, with Ash Panels, and has a work bench made of very strong well-seasoned hard wood, which is fitted with a patent Bench-stop, and also with an improved iron Joiner's Bench Vice. The fittings are made of polished brass, and the Cabinet throughout is of superior strength and workmanship. When closed it makes a handsome and well finished piece of furniture.

It is 3 feet 6 inches long by 2 feet 8 inches high ; the top forms the Carpenter's Bench which is 3 feet 6 inches long by 1 foot 6 inches wide, when closed. An extension piece is sent out with each Cabinet. This can be easily attached and firmly fixed to one end, thus making the Bench 5 feet long, which is of sufficient length for any work that is necessary. In this respect it is a great improvement on any combined Cabinet and Work Bench yet placed on the market, those that have hitherto been sold being too short for any large work. There is also a back to the Cabinet which can be raised with the greatest ease, this is also used as a rack for tools, so that each tool has its special position. Particular attention is drawn to this arrangement, as the user can see all the tools in the Cabinet at one glance.

When the back of the Cabinet is lowered into position, extra width is given to the bench, the top of which is then perfectly flush from end to end, and clear from front to back. This additional width is a great advantage, and the arrangement by which the back of the Cabinet can be stowed away, while the worker is using the bench, is an enormous advantage which will be appreciated by the user.

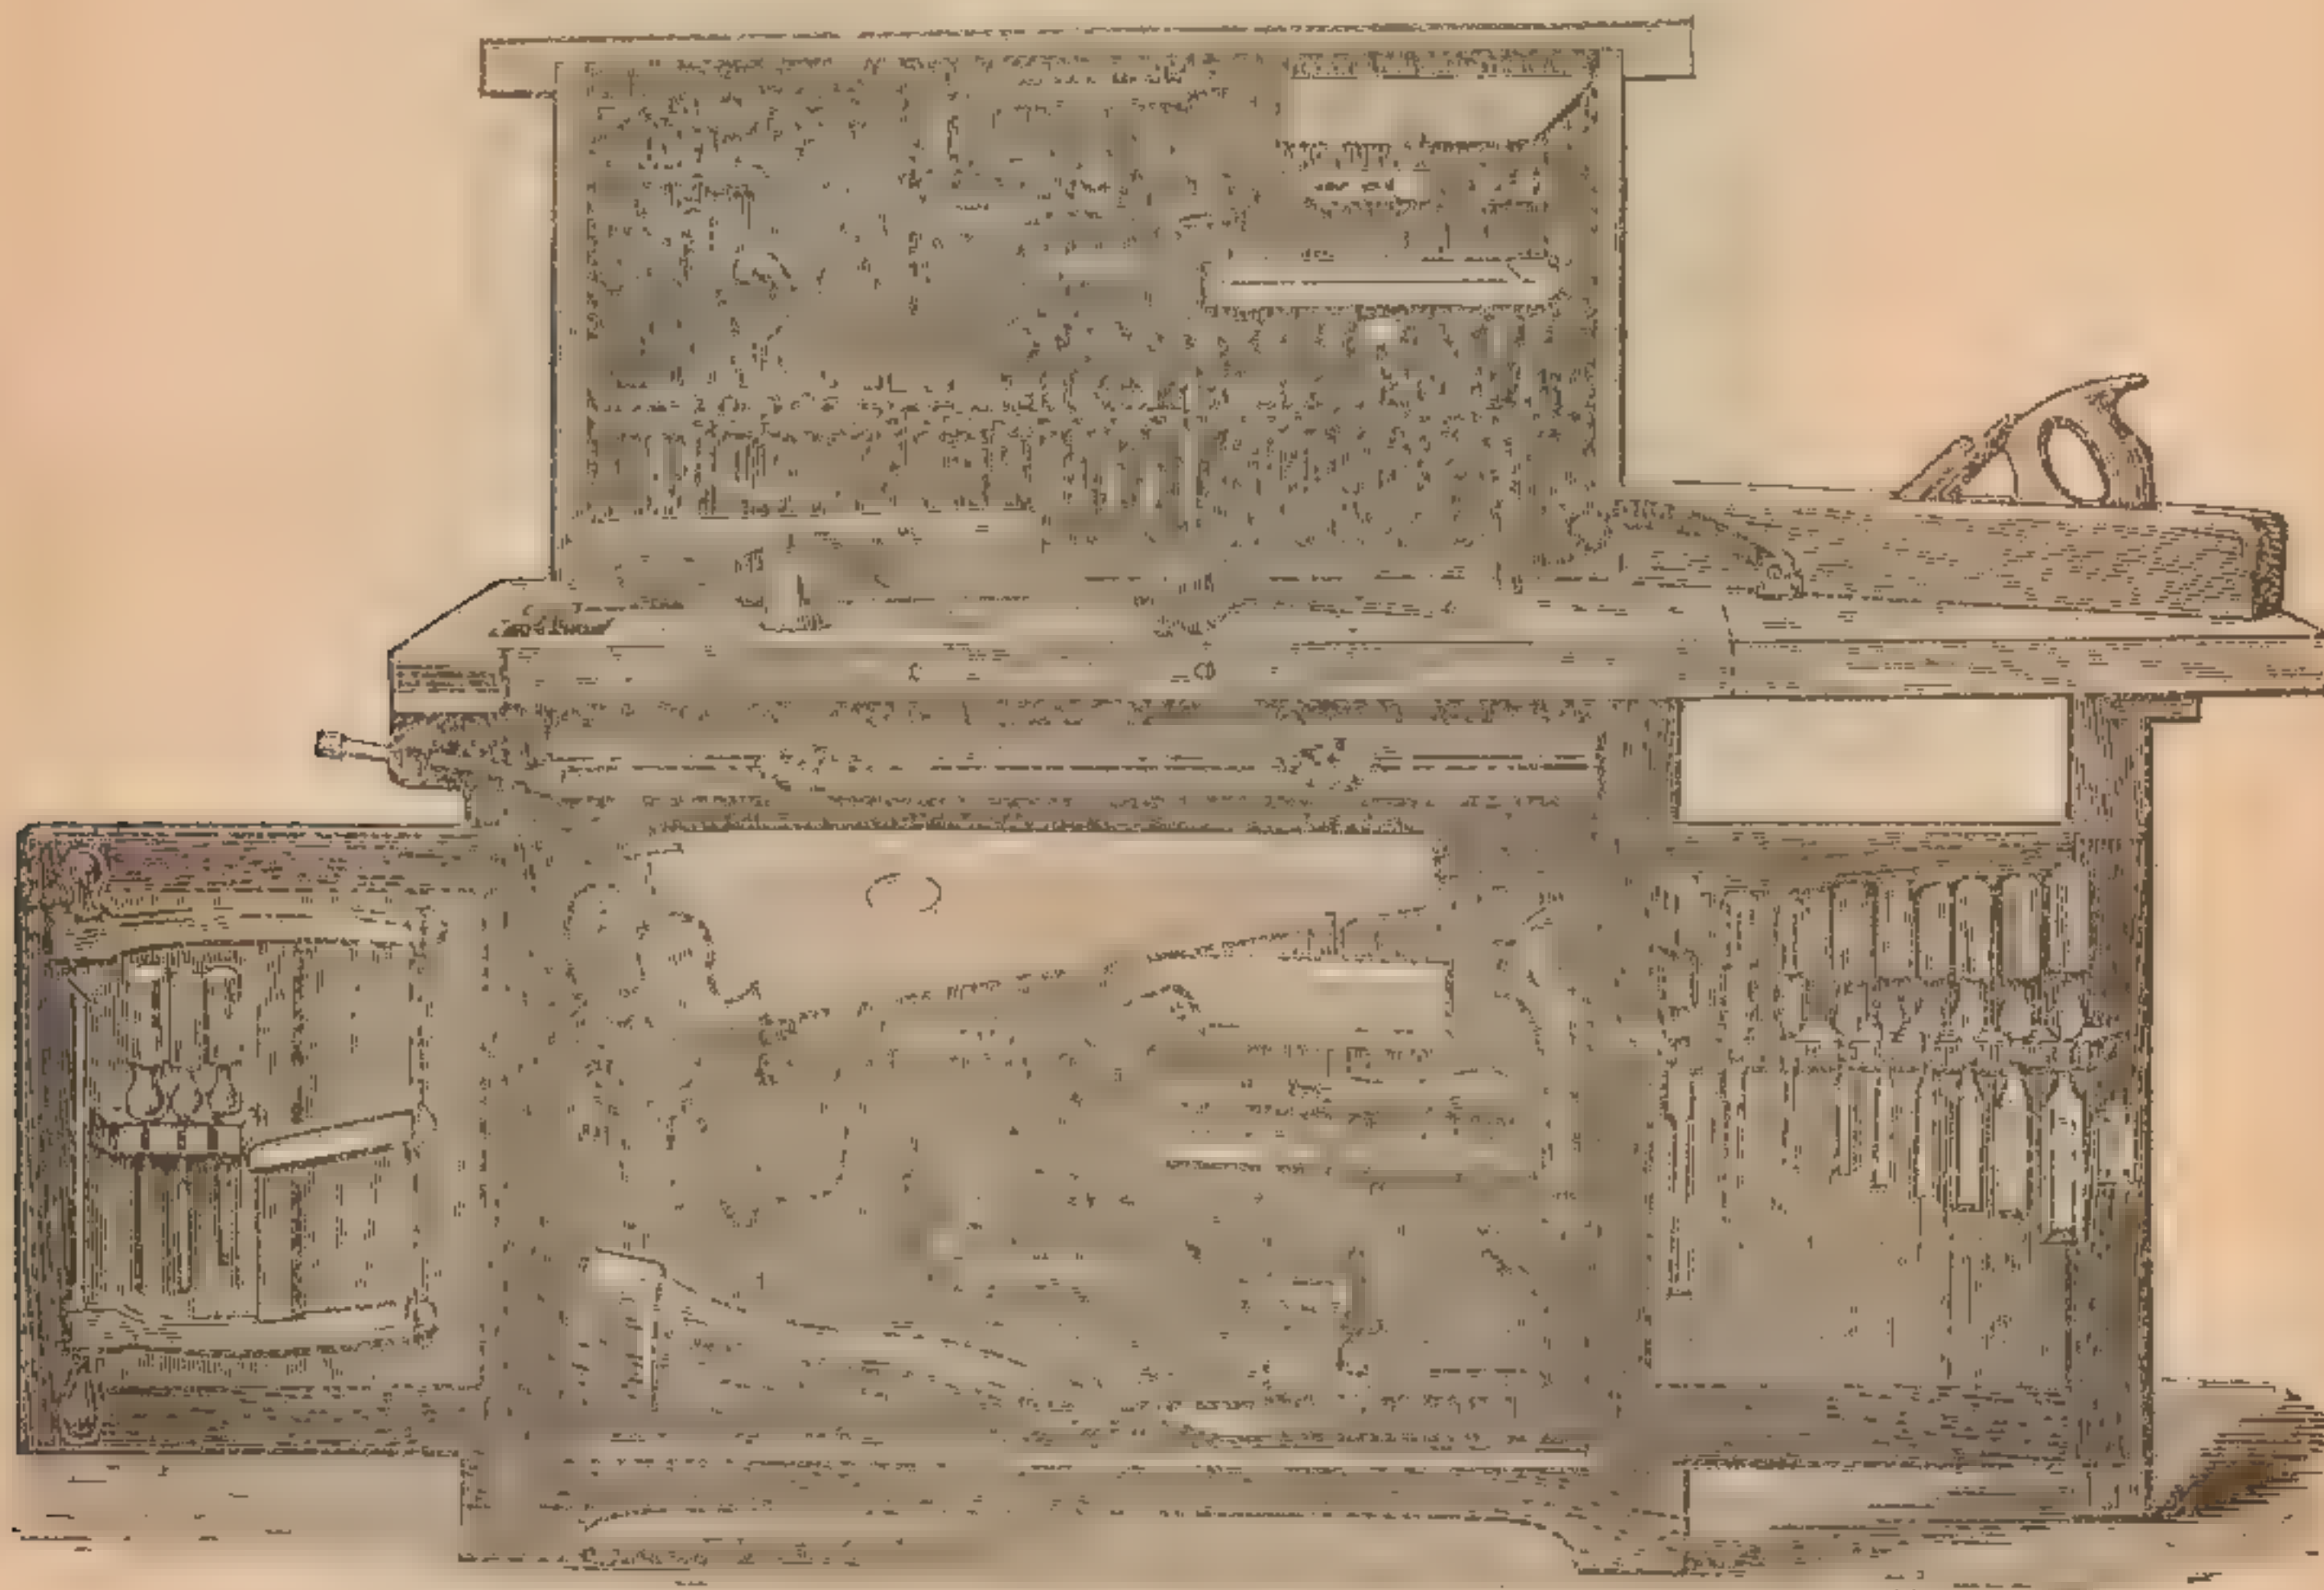

O 1154 JUNIOR Army and Navy Stores, Limited.

TOOLS, CARPENTERS'—*continued.*

On the right side of the Cabinet is a cupboard to hold the extension piece, and which can also be used to stow away large planes or any other large tools that may be acquired. On the left side are three drawers as shown in the engraving below, which will be found very useful for any additional tools, or for small work of any description, and in front, under the bench, there is a long shallow drawer, with partitions for nails, screws, brass fittings, &c.

This engraving shows the Cabinet with the extension piece fixed in position in front of the work bench, ready for use for wood carving, or for any other work that requires a strong table.

The Carver's Stool, shown on previous page is made to rise or fall at option of operator without shifting his position, as it works on a rack and does not require to be spun round like ordinary stools of this description. It is very strong and well made, and has a revolving top of hard polished wood. The Stool is not included in price of Cabinet.

THE "AGATHA" CANDLE GUTTERING PREVENTER.

1st.—It combines cleanliness and economy and saves labour. With it a candle may be carried at any speed or placed in any draught without guttering.

2nd.—It prevents waste, the edge of inner cone acts as a wall to the candle like the paper casing does to the night light, preventing the candle from wasting, therefore saves the entire cost in a few weeks.

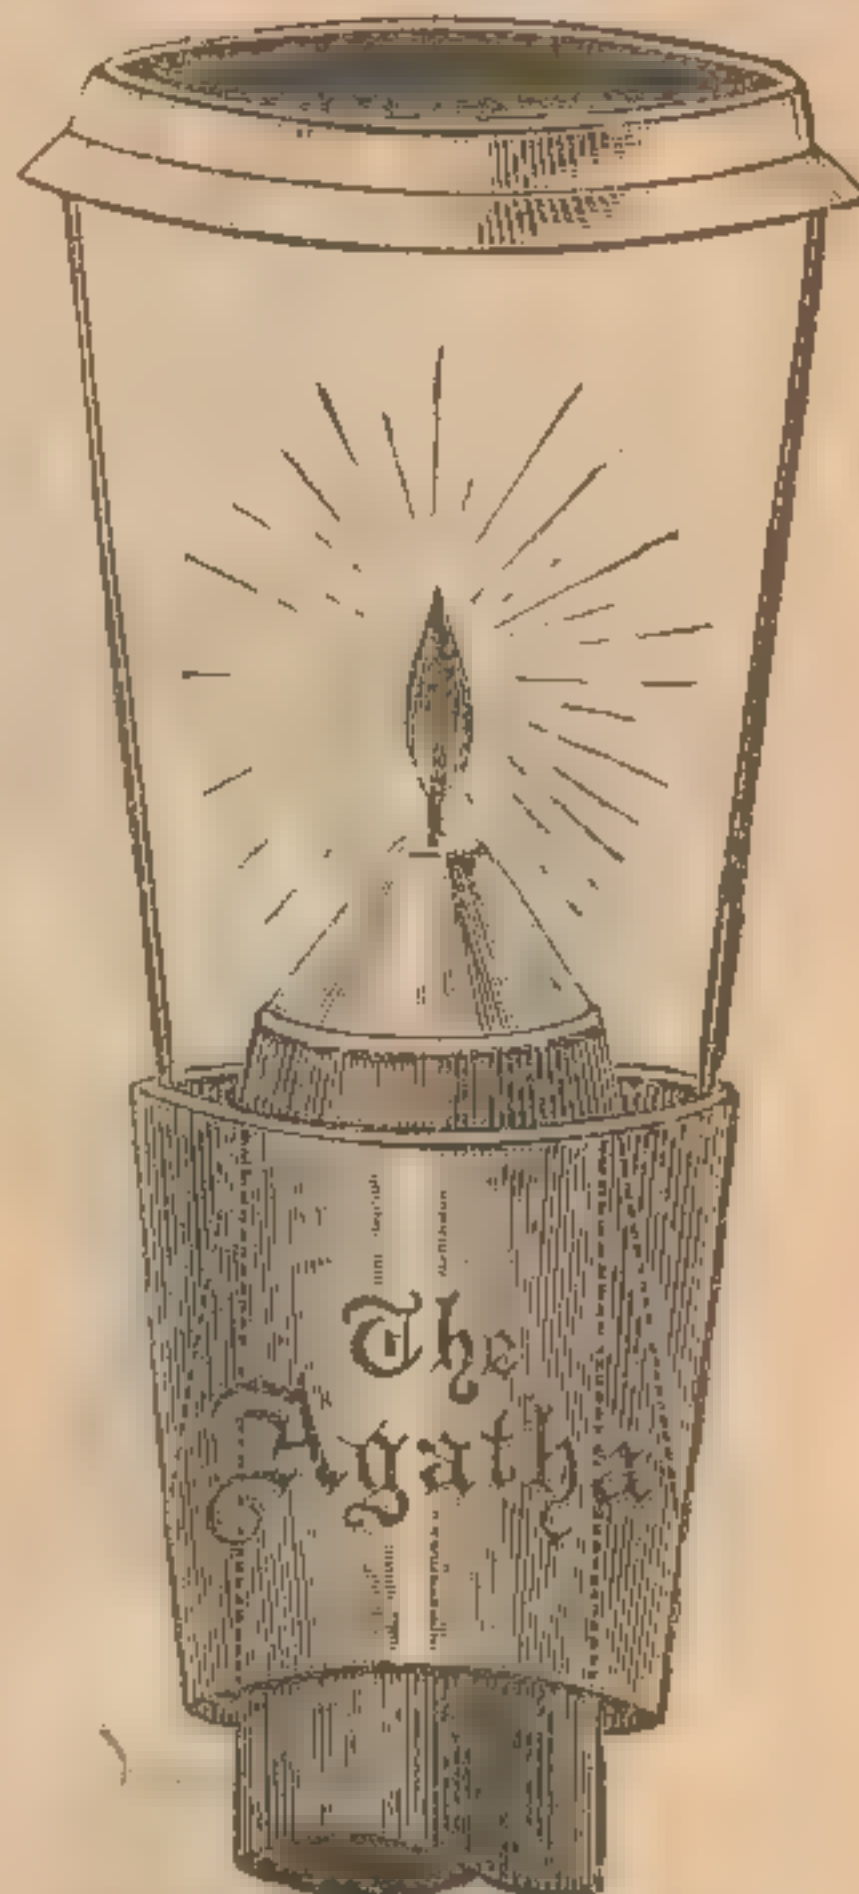

3rd.—The great annoyance of dropping grease spots upon the furniture, carpet, or clothing, is entirely done away with.

4th.—If any grease overflows from excessive draught it trickles into the receptacle and will be out of sight.

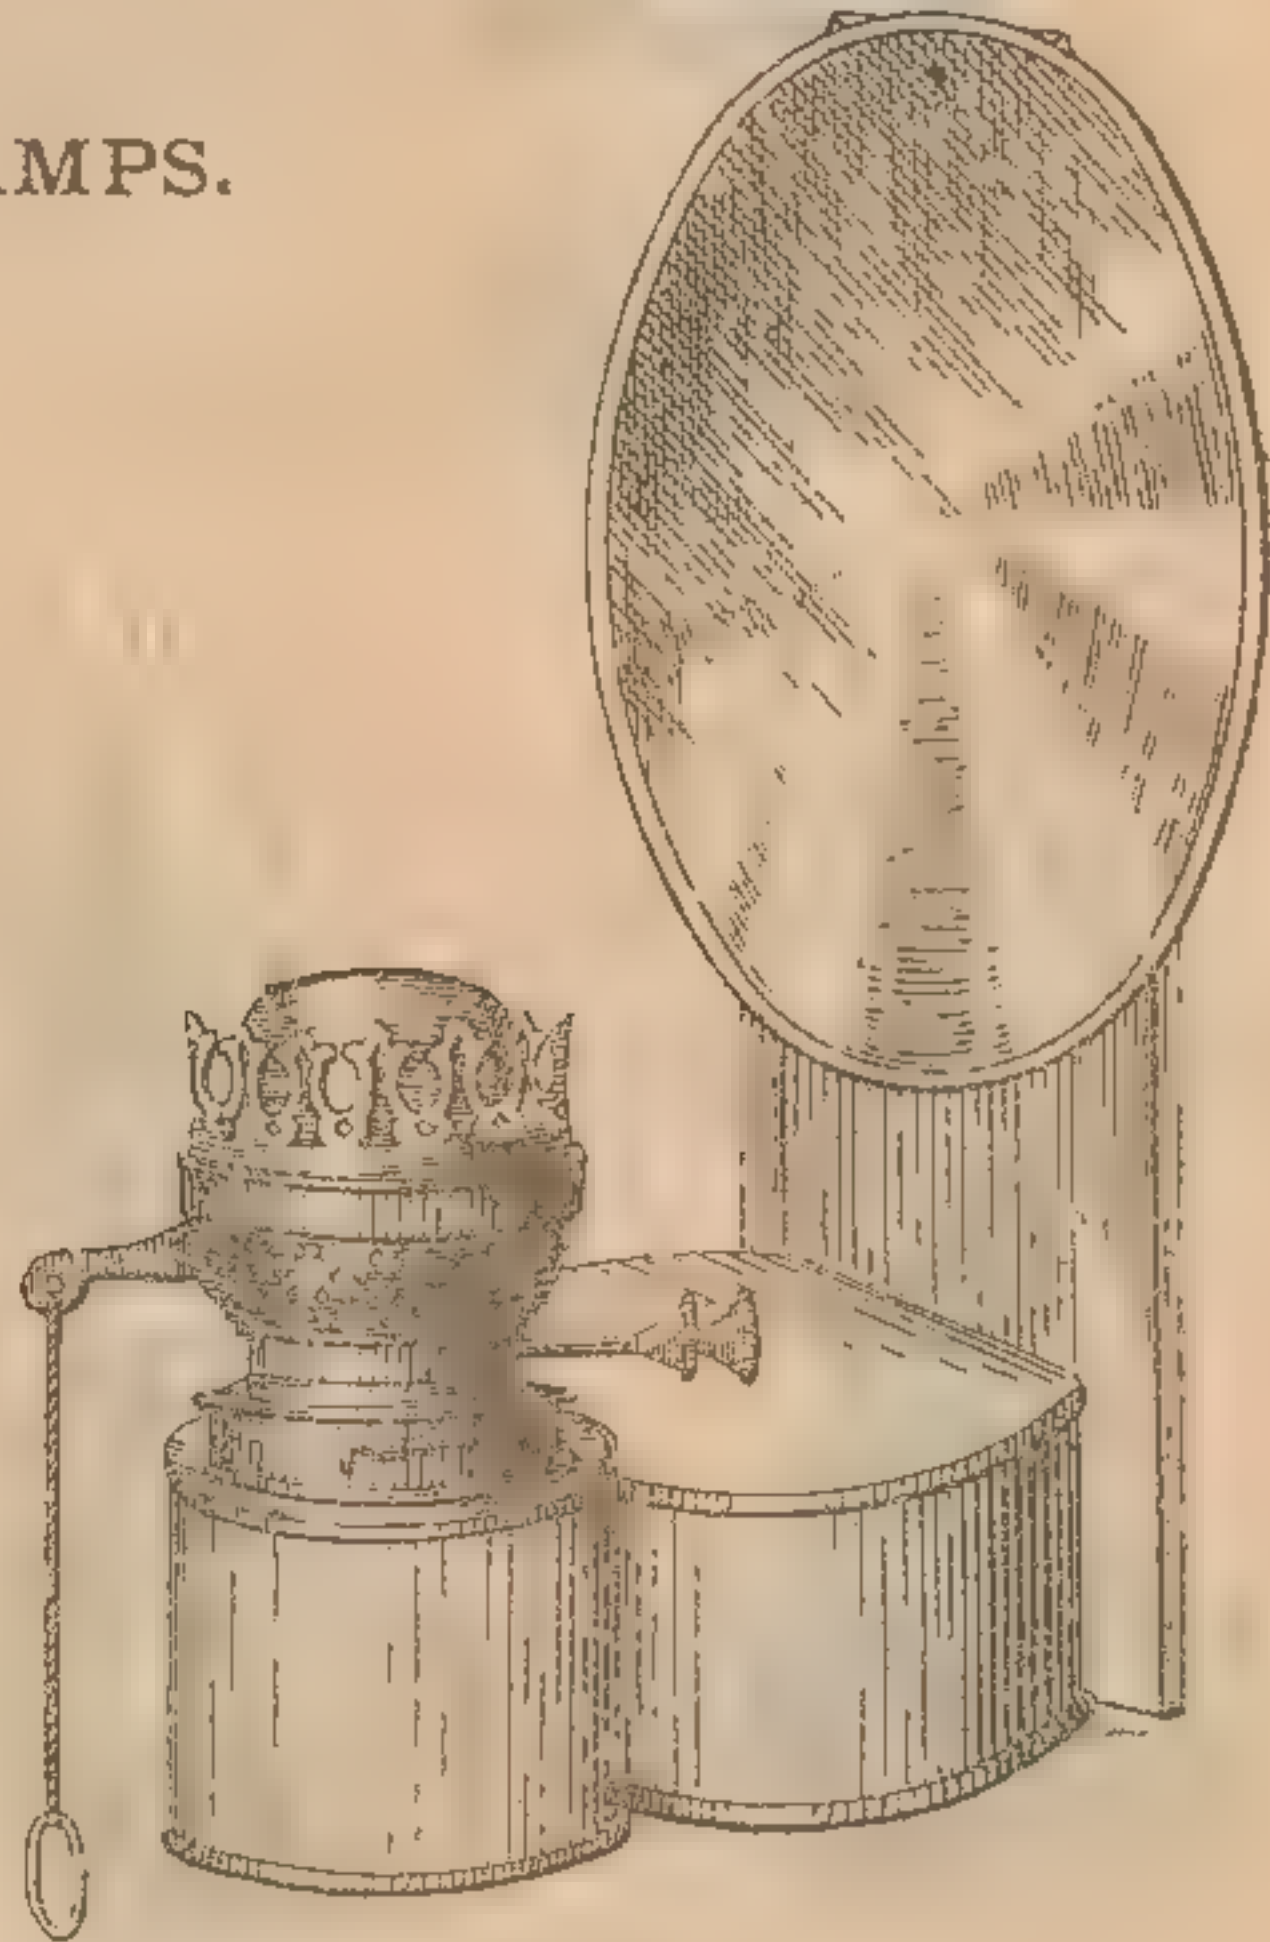

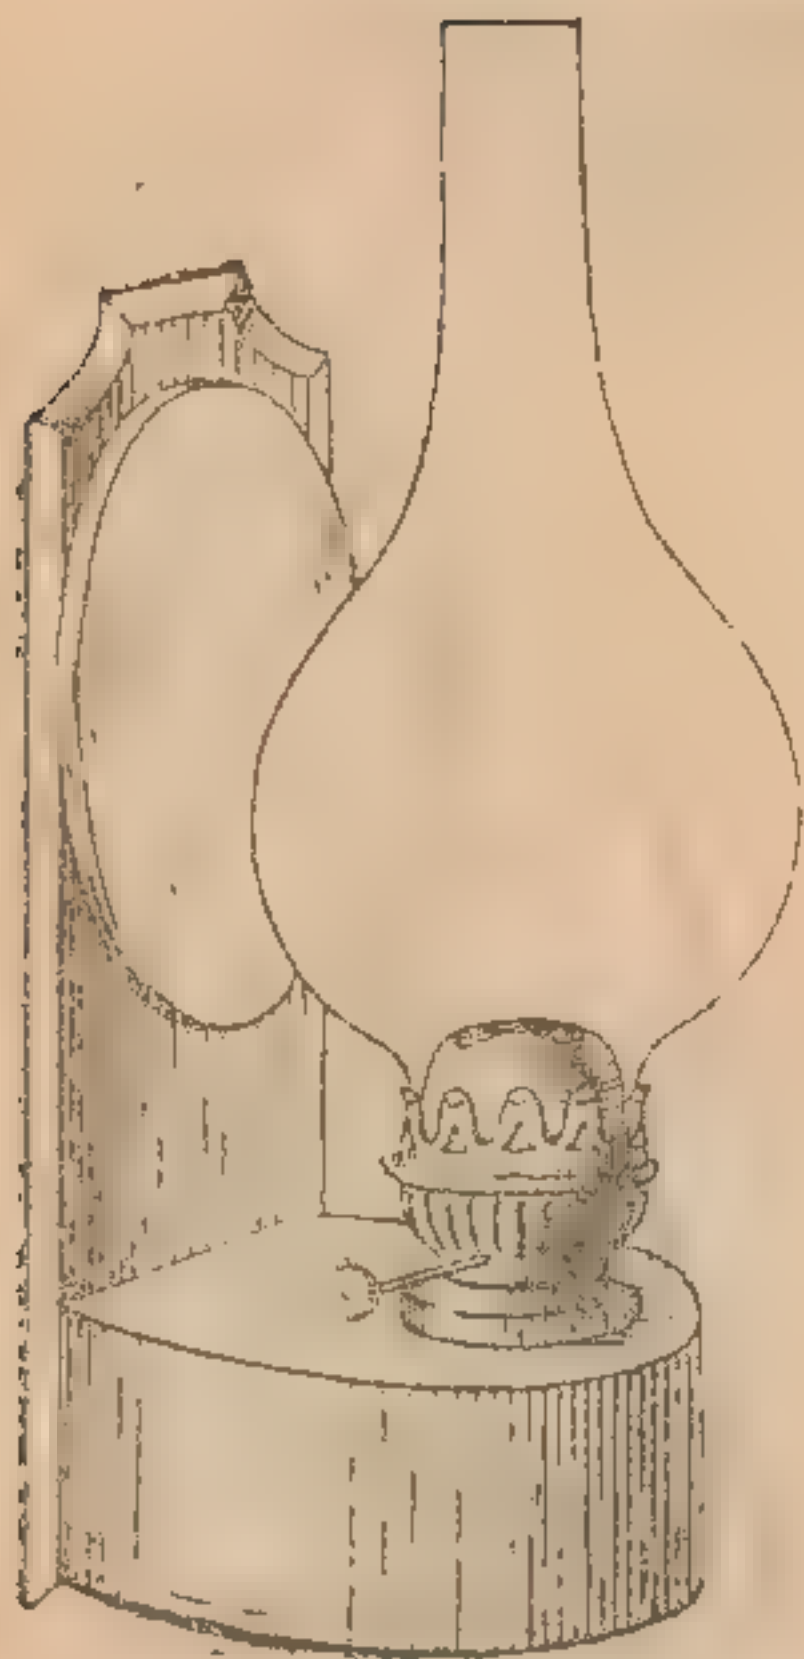

5th.—It is cleansed in a moment by being dipped into boiling water.

China & Glass

Dept.

All cases, hampers, and crates from this Department are charged for, the full sum being allowed in full on their return.

When returning empties Members are requested to cross through their own name and address on the card—which must on no account be removed—and to advise the return of empties by post card.

MATCHINGS.

Considerable delay is sometimes incurred in the execution of orders for single pieces of China or Glass, or for patterns not in stock. Every effort will be made to minimize this delay, but the Society cannot hold themselves responsible, nor guarantee completion by a certain time.

Only approximate prices can be quoted. No "matching" order will be put in hand without prepayment.

Samples sent on application must be returned carriage paid.

Orders in this Department cannot be enclosed with other Goods.

CARRIAGE.

Hitherto China and Glass have been excluded from the privileges respecting Free Carriage according to the scale set out on page 25. In future, however, carriage will be paid upon purchases in this Department to the amount named in the scale. But the value of China and Glass purchases cannot be reckoned in with that of a general order to secure payment of carriage, neither can such purchase be enclosed with other goods.

PACKING.

Every possible care is taken in packing goods purchased in this Department, experienced and skilful packers being employed for both Home and Export Orders, hence the Society cannot be liable for breakage in transit.

BREAKAGE.

Members are particularly cautioned against signing for the receipt of goods before verifying the sound condition of the same, as in such cases they forfeit their claim to the Railways to make good any loss.

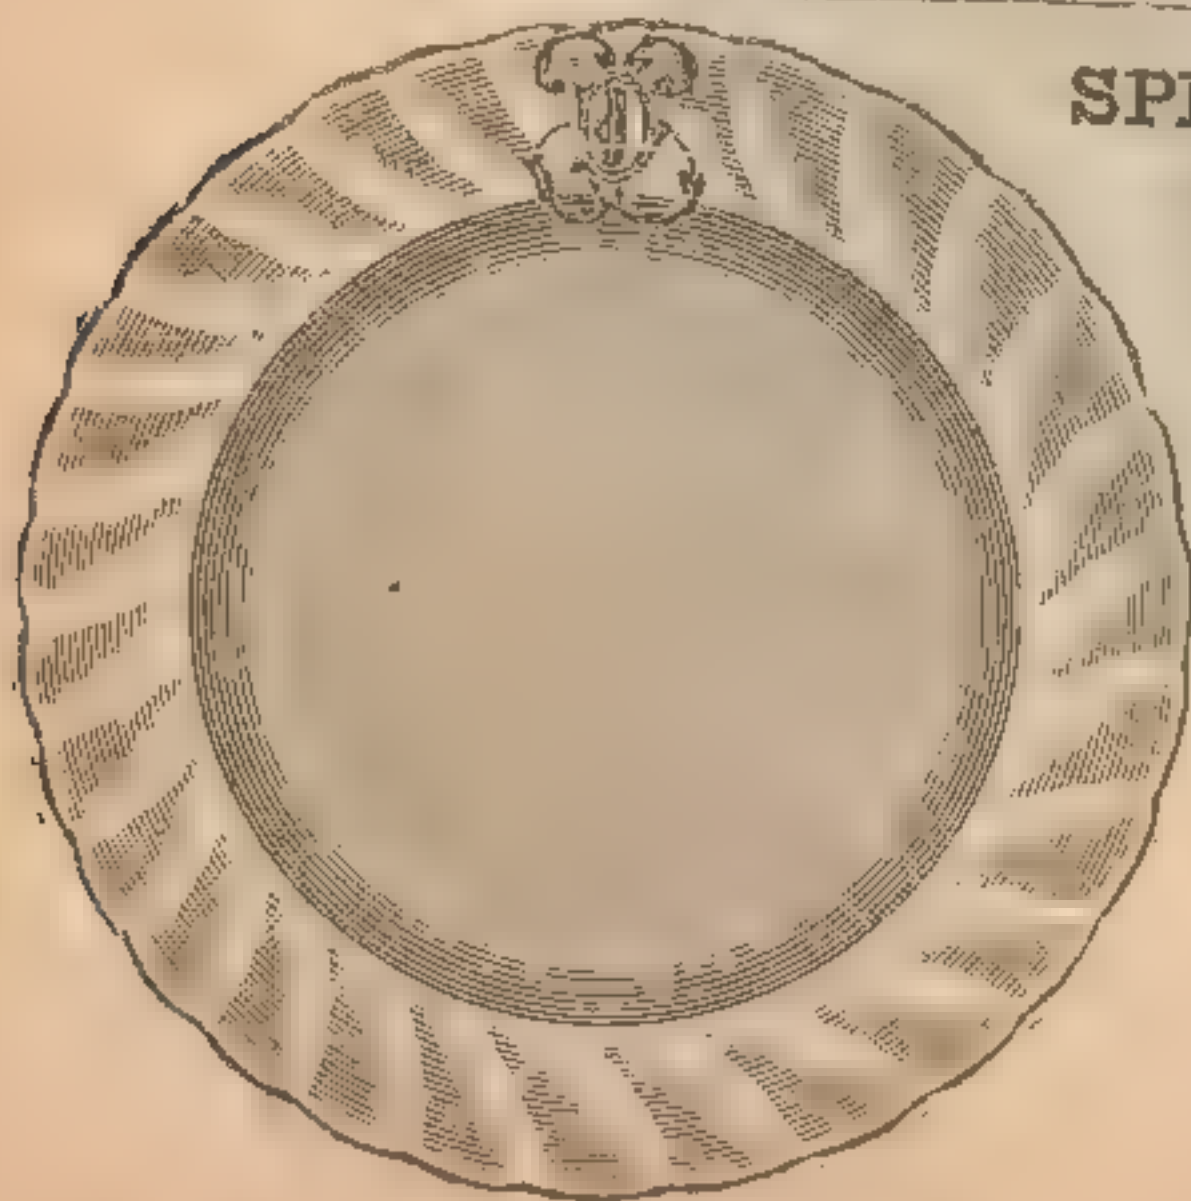

In the event of a breakage, the Consignee must claim against the Railway, and not against the Society.

Notice of Claims must be sent in to the Railway within 3 days from the date of delivery.

As a safeguard in signing for the receipt of Goods where a package cannot at the moment be examined, the person signing for them should add "Contents unknown and not examined."

NOTICE.

Every care will be taken to prevent any of the Patterns named in the Price List being out of stock, but to avoid possible disappointment and delay, it is advisable to select Two Patterns (mentioning which is preferred), in case one of them may be temporarily out of stock.

"PARAGON" CAMP FURNITURE.

The "Paragon" Camp Furniture is constructed on an entirely novel principle, which combines a maximum of strength with a minimum of weight. Each article opens and closes with one movement, and when shut occupies an almost incredibly small space, as shown in the following drawings. The mountings are of malleable iron, but can be had in gun metal at a small extra cost.

THE "SHAKESPEARE" COT.

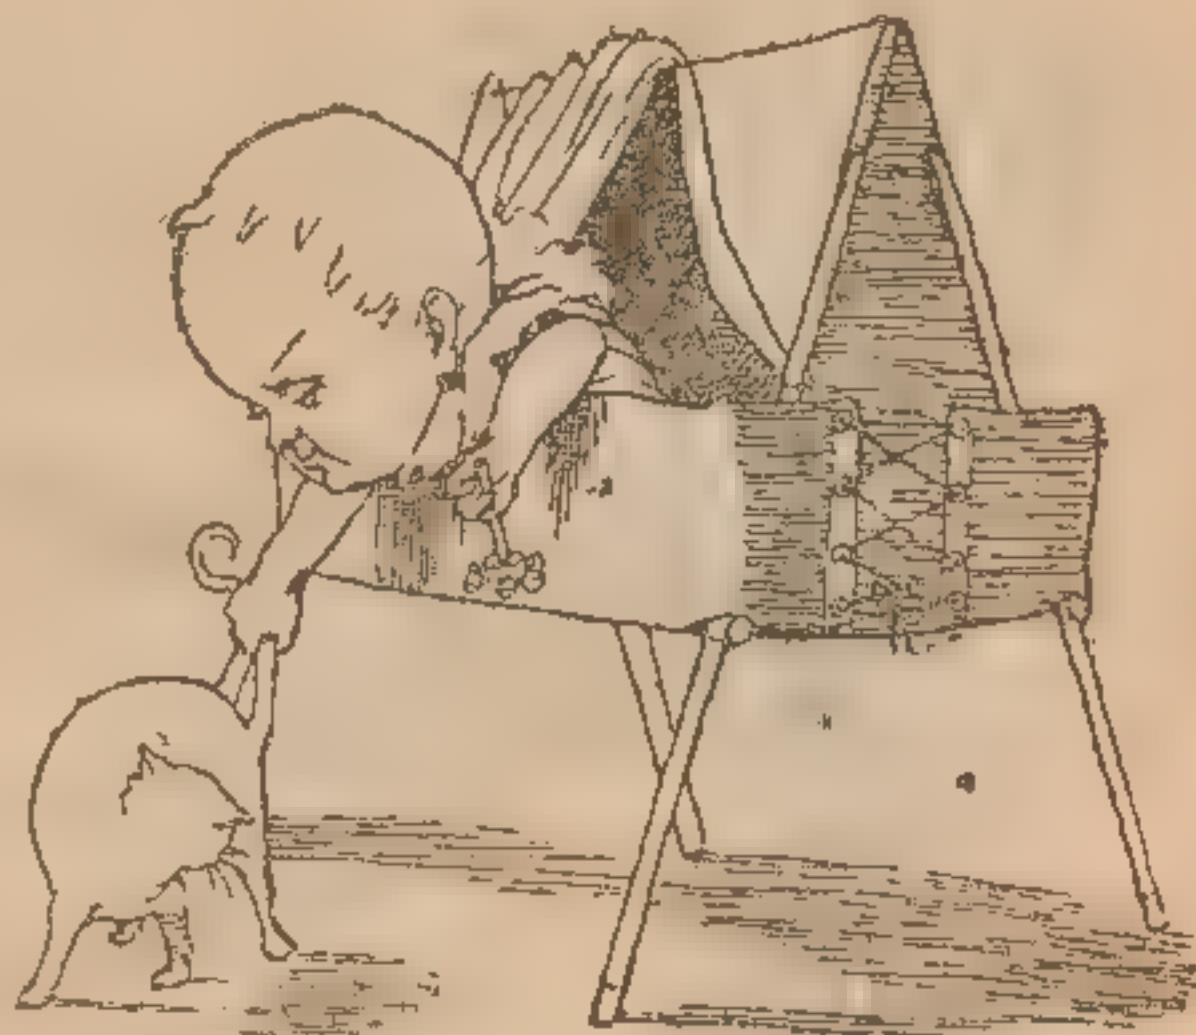

(To Order.)

Strong and simple, easily taken to pieces and put together again, packs into a small compass, and weighs from 11 to 15 lbs. The Canvas is in one piece, which is stretched on to a frame forming such an easy pliable bed that a mattress is not needed.

Travellers to the seaside or abroad can avoid using hired beds for their little ones by taking these Cots with them.

TO ERECT THE COT.

First spread out the canvas, then pass the side rods through the open seams. Fix on the short end pieces to the side rods inside the canvas, keeping the brass angles that lean to one another upwards. The leg rods pass through the brasses into the pockets at the head and foot of the bed, then lace up the ends tightly together.

THE PATENT TRESTLE COT AND HAMMOCK.

TO ORDER.

TO ORDER.

Price, in Bag complete ... £2 7 0

Size when Packed, 3 ft. 8 in. long, 8 in. diameter.

This Invention supplies a want long felt and expressed for a simple method of suspending a Bed or Hammock without Cords or Pegs.

The New Patent combines strength with simplicity of construction. The trestles, when open, are quite rigid, and are connected by a double crossbar, jointed in the centre. The fittings are of brass, and exceedingly simple.

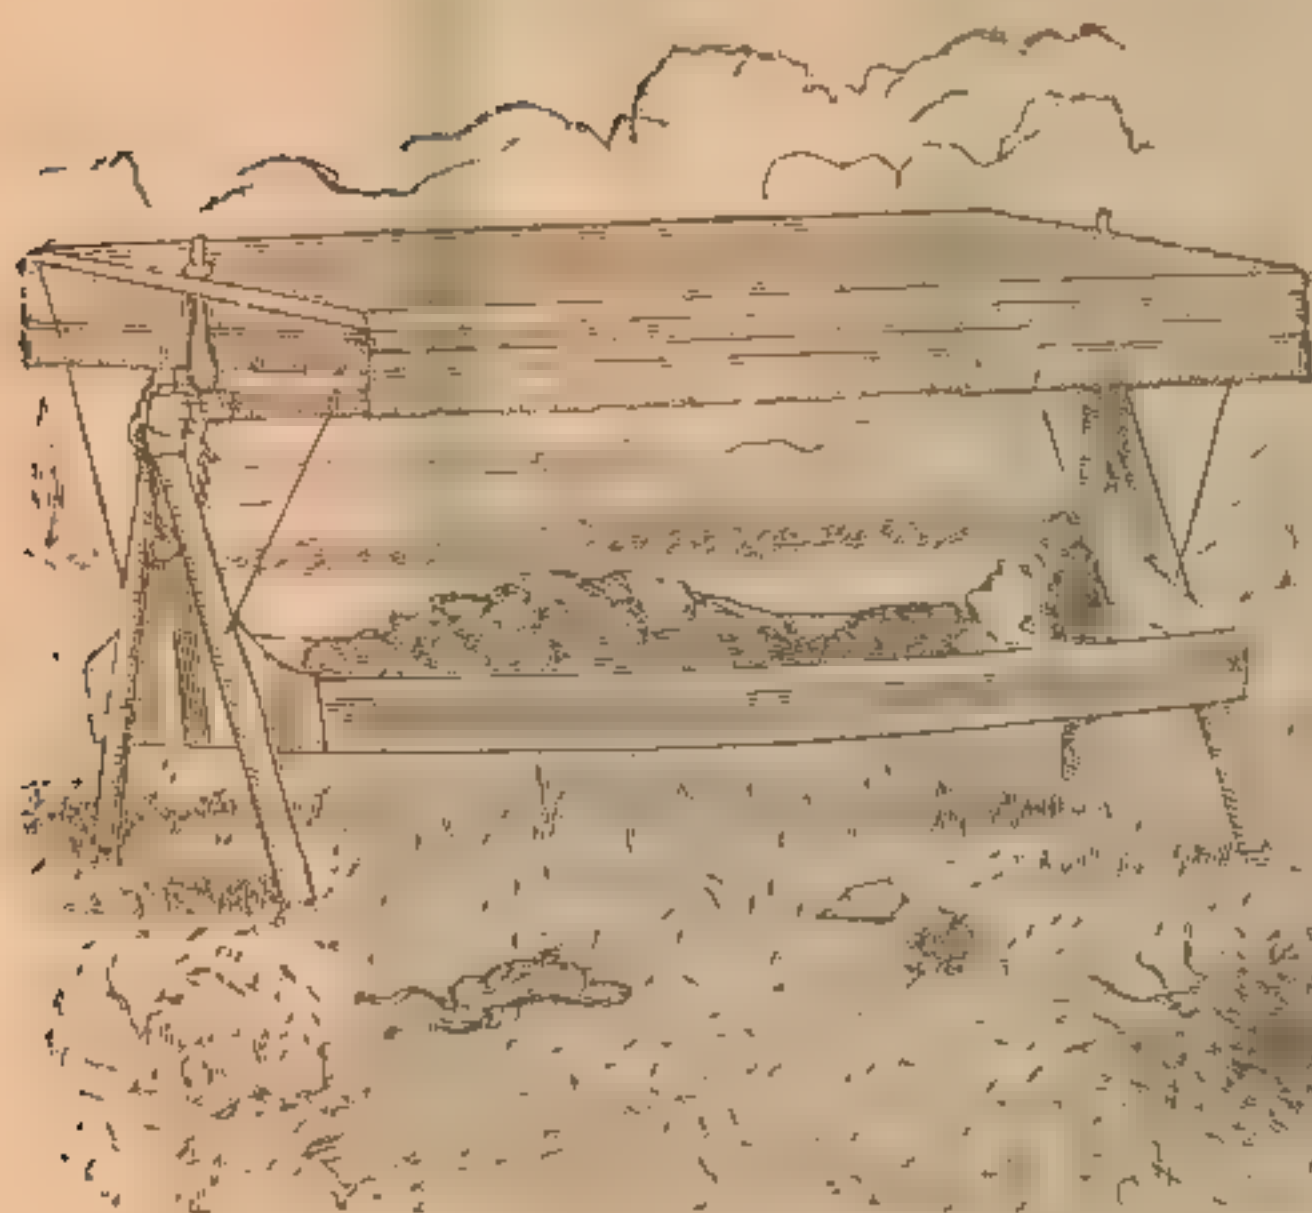

The Patent Trestle Cot stands by itself anywhere; without Lines or Pegs; and is equally suitable for use on the ground, or on the floor of a room or cabin. The Cot can be detached instantly, and suspended from beams or ceiling, or used as a Litter. The whole folds up and packs into Bag about 3 ft. 6 in. long.

THE TRESTLE HAMMOCK.

THE TRESTLE COT WITH AWNING OR SUNSHADE.
TO ORDER.

Price, without Awning ... £2 5 0
Ditto, with Awning ... 2 18 6

The Awning is adjustable at any angle.

The Awning is fixed or removed with the greatest ease, and is adjustable at any angle that may be desired for shade. The Cot thus forms an agreeable Lounge for out-door use.

It is also most useful as an invalid Couch for use out of doors. The Cot can be detached from the supports instantly, and the invalid can then be carried in it to or from the house, as in a litter, without the necessity of movement or disturbance. The Cot is fitted with handles at the lower corners for this purpose.

THE TRESTLE COT—
COMBINED WITH TENT.

Price of Tent and Trestle Cot, complete
£4 19 6

Size of Tent, 6 ft. 9 in. long, 6 ft. wide,
5 ft. high.

Affording perfect security and comfort to the Traveller or Explorer—the Sportsman and Tourist. The Cot can be unslung in a few seconds—and the tent can be used as an ordinary *Tente d'abri*.

SQUARE TENT, FOR THE SPORTSMAN OR TRAVELLER.
With Frame and complete Inner Lining.

This Tent is one of the most comfortable living Tents that can be made. The lining excludes cold and damp, and there is an air space between it and the outer canvas. The walls are 6 feet high, and the whole interior space is thus available to stand up in. There is a wooden frame all round the top of the walls, which gives great rigidity to the Tent, and from this frame a Cot can be slung, forming a most comfortable sleeping berth.

BEST QUALITY LANTERNS.

The following Lanterns are of the highest excellence both Optically and Mechanically and are Manufactured by Messrs. Watson & Sons. A complete and detailed Catalogue can be obtained on application.

IMPROVED PHANTASMAGORIA LANTERNS.

Suitable for the Lecture Room, the School, or Home use.

These Lanterns are constructed on the most modern principles, and are of the very best manufacture. They are fitted with improved lamps to burn paraffin, which give a most brilliant light, and are very clean to use. They are much less costly and troublesome, and in every way superior to any other form of Oil Lantern. They may also be fitted to use the Limelight at a small additional expense.

BIUNIAL LANTERNS.

Of the most Improved Construction and Best Workmanship. (Best Quality).

BIUNIAL LANTERN, of the very highest class, and most perfect workmanship, first quality condensing lenses 4 inches diameter, the body of selected polished mahogany, metal-lined, the whole of the front of the Lantern in polished brass, and fitted with three sets finest achromatic lenses, in different foci, to be used singly or in combination and allow of the Lantern being used at varying distances from the screen (there being brass telescopic sliding tubes to give a range from 6 in. to 16 in. between the condenser and front to allow of the use of these lenses), and having also rackwork adjustment with double pinion heads, allowing of the focussing being done from either side of the Lantern; Doors on both sides, and each door fitted with darkly-coloured glass in brass flanges to allow inspection of light without pain to the eyes. Brass tubes are fitted on the back of Lantern to connect to burners and dissolvers, instead of the ordinary india-rubber ones saving the confusion often occurring when so many flexible tubes are used. There are also handsome brass rail handles on each side of Lantern for convenience in moving, stops to each of the slide-holders, with screw adjustment to insure all slides fitting exactly in the centre of disc, and improved pattern brass curtain slide to give rolling-up effect. This Lantern is fitted with every convenience that our long experience approves; and is a most perfect instrument. Fitted in strong travelling case. £20 13 6

Pair of New Lanterns of very best quality fitted with 4 inch double condensers, improved 4 wick lamps with rackwork dissolver, as illustration, working from back. In case complete £8 13 3

MAGIC LANTERNS.

(BEST QUALITY.)

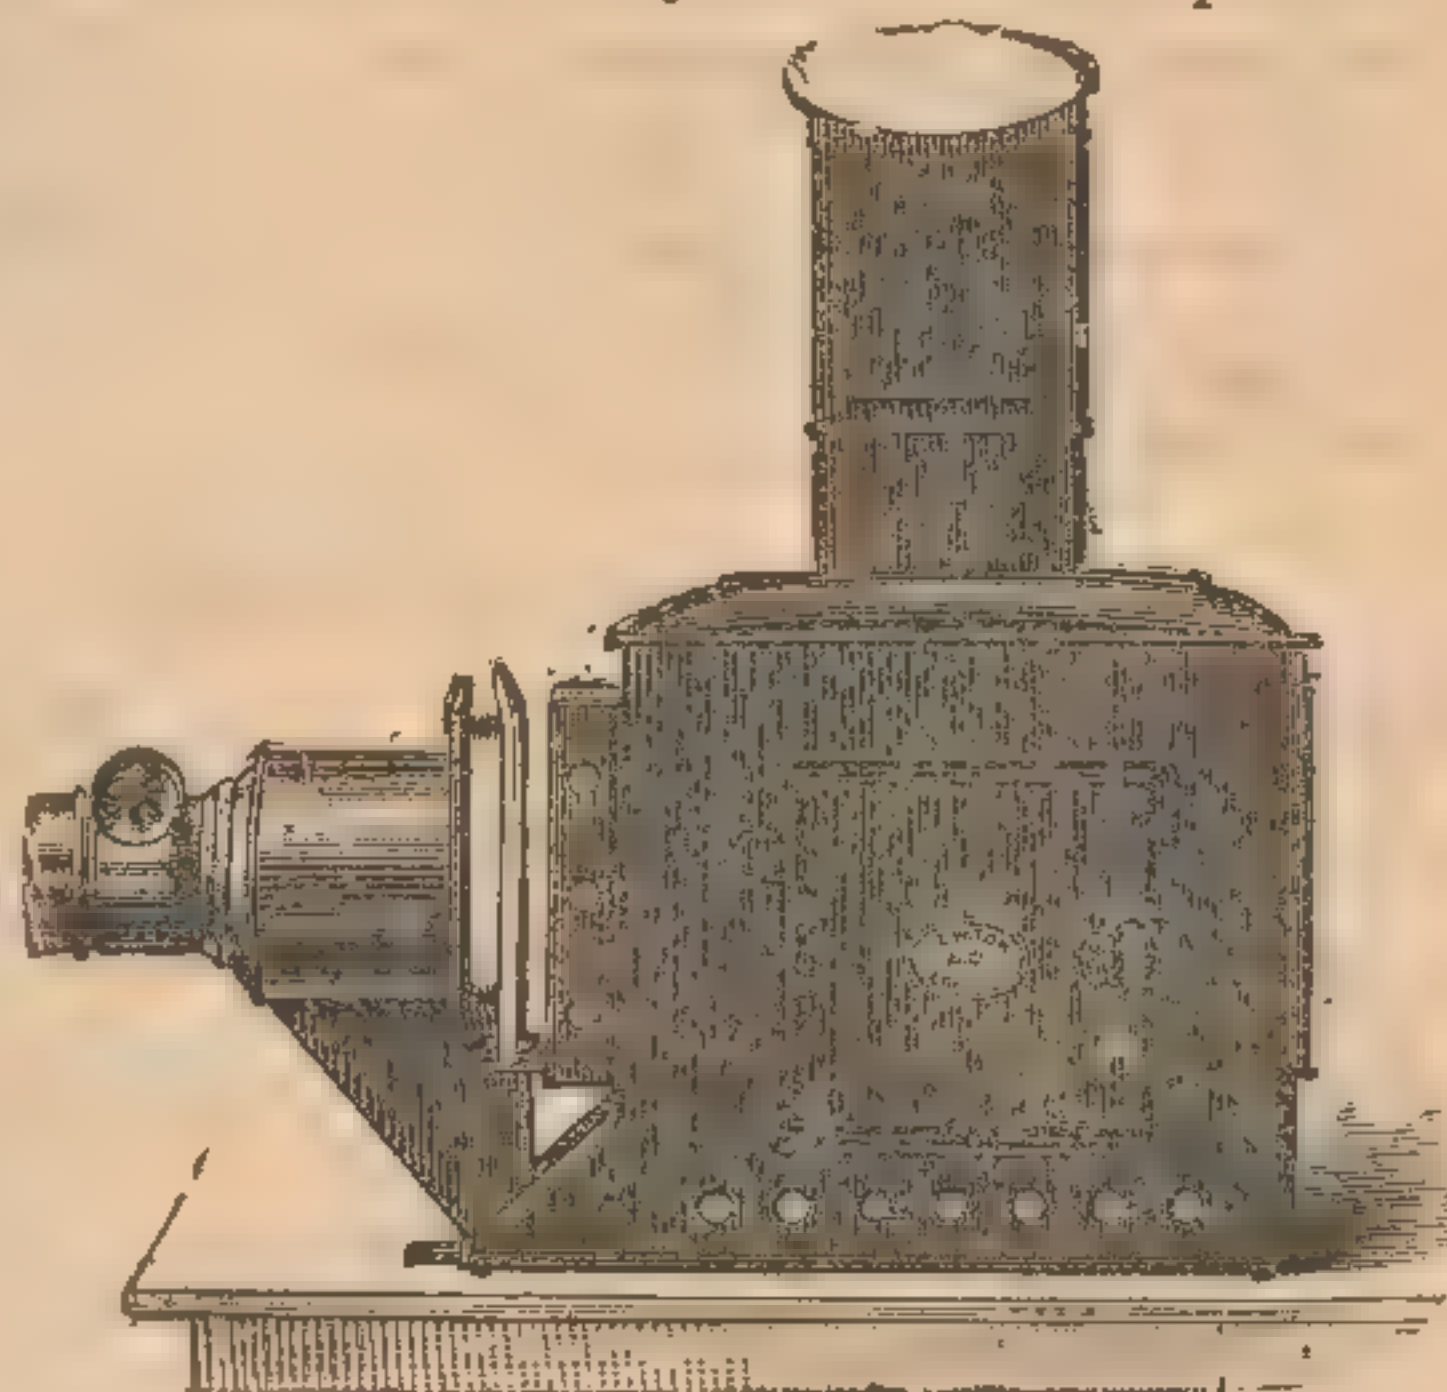

These Lanterns are unequalled for ease of manipulation, efficiency, and excellence of the Lenses.

The following Lanterns are made by Messrs. NEWTON and Co., Opticians to H.M. the Queen and H.R.H. the Prince of Wales. Manufacturers of Lanterns and Slides to the Admiralty, the War Department, the Science and Art Department, The Indian and Foreign Governments.

The prices quoted are the "Junior Army and Navy Stores" nett prices.

All the Lanterns in the following pages are optically the same, all having Lenses of the very best quality, of the forms most suitable for the kind of light used, the difference in price consisting in the manner of fitting up and method of illumination.

2183. Newton's Patent Improved Phantasmagoria Lantern, with best quality Plano-convex Condensing Lenses $3\frac{1}{2}$ in. diameter, double combination Achromatic Front Lenses, of *large diameter* and best construction, with rack adjustment, fitted with their *Patent Refulgent 3-wick lamp*, for burning *best* Crystal Oil, complete in stained wood polished case, $6\frac{1}{2}$ in. by $19\frac{1}{2}$ in. by $11\frac{1}{2}$ in., very portable, with lock and key (Fig. 2183). *As supplied to the London School Board* ... 66/c

Any of the above Lanterns can be supplied fitted with Lime-light instead of Oil light, at an extra cost of 56/6. The new system of using the oxygen, compressed in steel cylinders makes the lime-light more easy to use than oil light, and entirely does away with the risk and the trouble of making oxygen, &c. There is NO DANGER WHATEVER in using this form of Lime-light.

Any ordinary Oil Lantern can be fitted by this system with Lime-light, including jet, tubing, steel cylinder, and fittings, for 70/0.

NEWTON'S IMPROVED BI-UNIAL OXYGEN LIGHT
DISSOLVING VIEW APPARATUS.

Dissolving Lanterns of this upright form have the advantage over Lanterns placed side by side, in that it enables the manipulator to work both Lanterns from the same side; and Panoramic and other effects can be more easily managed.

N. & Co.'s improved apparatus has a stout iron partition between the two Lanterns, and a shaft or chimney from the lower Lantern up the side, so conveying the heat away without entering the upper Lantern and causing the lamp to flicker. The whole of the front is made of bright brass, securely bolted on to the body of the polished Mahogany Lantern. All these Lanterns are now fitted with Improved Long Focus Lenses, specially made for use with the Lime Light, giving a flat field and most brilliant definition.

†Hydrogen Gas, Condensed. Bottles filled at the rate of per foot	0/4
Rubber Tubing	per foot 0/7

Any of Newton's Patent Refulgent Oil Lamp Lanterns can now be fitted with the Lime Light at a very much lower cost than previously, owing to the new method of using the Oxygen Gas from a Cylinder instead of a Gas Bag. The whole apparatus comprising the Lime Light Jet, 6 feet of Oxygen Gas in Steel Cylinder and Fittings, 18 feet Gas Tube, 1 doz. Lime Cylinders, Tray, and Top for Lantern, adapted to own Lantern

This new system is exceedingly convenient and portable, as it entirely does away with the Gas Bag and Pressure Boards and the Oxygen Retort, Purifier, Weights, &c.

* To Order only.

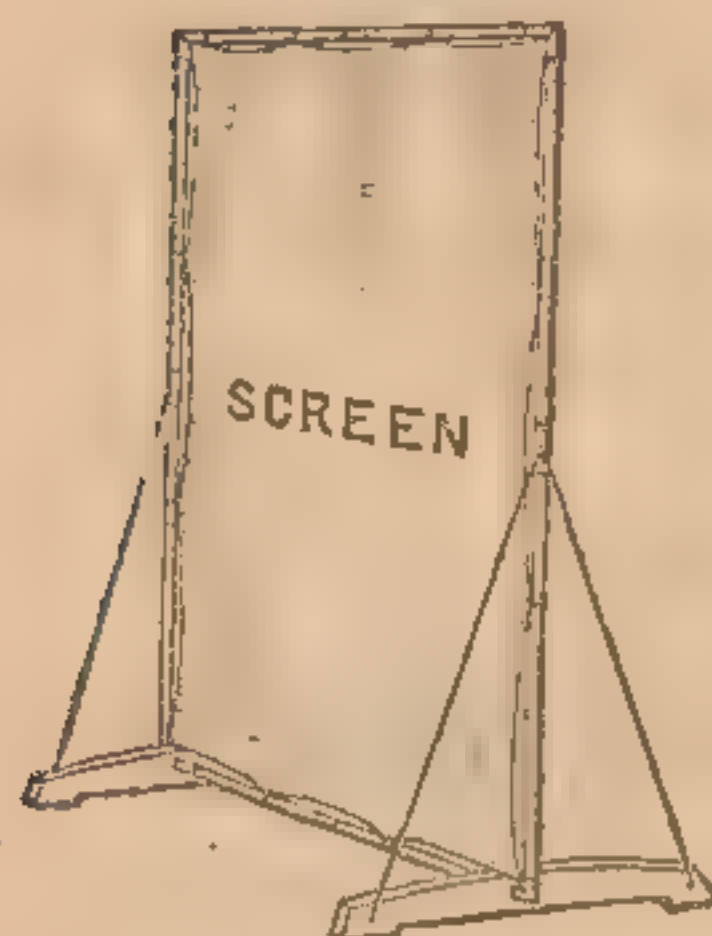

Cylinders for Refilling must be sent to Stores, Carriage Paid.

VALE-LANE'S ORCHESTRAL BAND.

The Society having made special arrangement with Mr. Vale-Lane, the above Band, with any number of Musicians, can now attend Balls, Parties, At Homes, &c., on the following Terms, viz., 20/0 per Musician (Evening Dress).

Mr. Vale-Lane will, when required, attend upon Members by appointment to take full instructions with regard to Programmes, &c.

The above terms for Mr. Vale-Lane's Band are for within the Cab radius, viz., 4 miles from Charing Cross. Beyond above distance, and Country, Travelling Expenses will be charged extra.

Performing Dogs, Monkeys, Cats, Birds, Mice, &c. Terms by arrangement.
Complete Variety Programme of Amusements and Entertainments for large Fêtes, Bazaars, and Galas, arranged to order. Estimates free.

MUSICAL "AT HOMES," GARDEN PARTIES, &c.

The Society have made special arrangements for the above, and have also engaged the exclusive services of several well known Speciality Artistes. Full particulars and terms can be had on application.

The radius is taken at ten miles from the Stores. Beyond ten and within fifty miles an additional 25 per cent. is charged, and for distances between fifty and one hundred miles another 25 per cent. ; over one hundred miles by arrangement.

For the country (beyond ten miles), second-class return fares are charged, and cabs to and from the station (the bare legal fare cannot be strictly adhered to ; with luggage and portage, this amounts to about half as much again). The artistes must be, in all cases, reimbursed their actual outlay for travelling, but no charge is made for bringing them to, and taking them home from the Stores to go to an engagement. Conveyances must in all cases meet the artistes at the station in the country, and convey them back, at the expense of the Member. Members will please note this rule, the non-observance of which is likely to cause disappointment and annoyance. With the exception of this item, inclusive estimates will be forwarded on application.

Fee for second and onward days, same as first—no reduction being made for consecutive days ; but if same performance is repeated same day, and at same place, the second fee will be half the first. Special arrangements can, however, be made for repetitions for Bazaars, &c. In order to prevent disappointment, Members will oblige by forwarding their dates and orders at the earliest possible opportunity, and should the artiste required be previously engaged for the date named, the Member will be duly advised of the fact without delay. Many of the specialities, &c., are ordered months in advance. When an entertainment is definitely ordered, and cancelled or postponed, half the terms agreed upon will be charged, provided three clear days' notice be given ; if a shorter notice is received, the full amount will be charged, less the travelling expenses. As punctuality is expected and strictly observed by the artistes, it is respectfully intimated that Members have claim upon the performers' time only so long as engagement specifies ; when, therefore, an artiste is requested to prolong his entertainment and he does so, an additional charge will be made ; but artistes can in no case receive moneys for extra services rendered, such charges having to be made through the Stores in the usual way. Should artistes not be returned per conveyance to station in time for train to London, reasonable second-class accommodation must be provided, or hotel expenses allowed, for second and onward days.

In all cases, without any exception, cab fares are charged extra for London and suburbs ; luggage, &c., amounting to at least a third more than the double journey for two persons.

FIREWORKS.

Manufactured by JAMES PAIN, Sole Pyrotechnist to the Royal Yacht Squadron.

Displays arranged specially for Royal Receptions, Coming of Age, Weddings, Births of Heirs, Regattas, Flower Shows, and Opening of Public Buildings, to any amount, and in any part of the World. Selections can be made from an Illustrated List, which may be had post free, or on application to the Games Department. Members are requested to forward their Orders some few days before required, to ensure punctual delivery.

Fireworks are not kept on the Stores' premises, and cannot therefore, be taken away at the time of purchase. Carriage is not paid upon Fireworks, nor can they be enclosed with other goods, neither can the Society guarantee the time of delivery, as all the railway companies do not carry fireworks every day.

THE NEW OUTDOOR GAME.

COZARI (GARDEN POOL). Morrell's Patent.

To Order only.

THIS fascinating Game provides, for old and young alike, healthful outdoor exercise without fatigue. It brings into play the skill and judgment required for Golf, Billiards, Pyramids, and Pool; and the keen competition it excites maintains an interest in the play, which commences with the first, and never ceases until the last stroke in the Game. It possesses the best features of Croquet, but, unlike that Game and Tennis requires

NO SPECIAL SHAPE OR SIZE OF LAWN,

whilst it is ornamental, and does not in the least disturb or injure the turf, as no holes have to be sunk in the ground.

It is adapted for two or more players, each for himself or in sides.

It is unequalled for Garden Parties, Recreation Grounds, Private Clubs, Public Greens, &c.

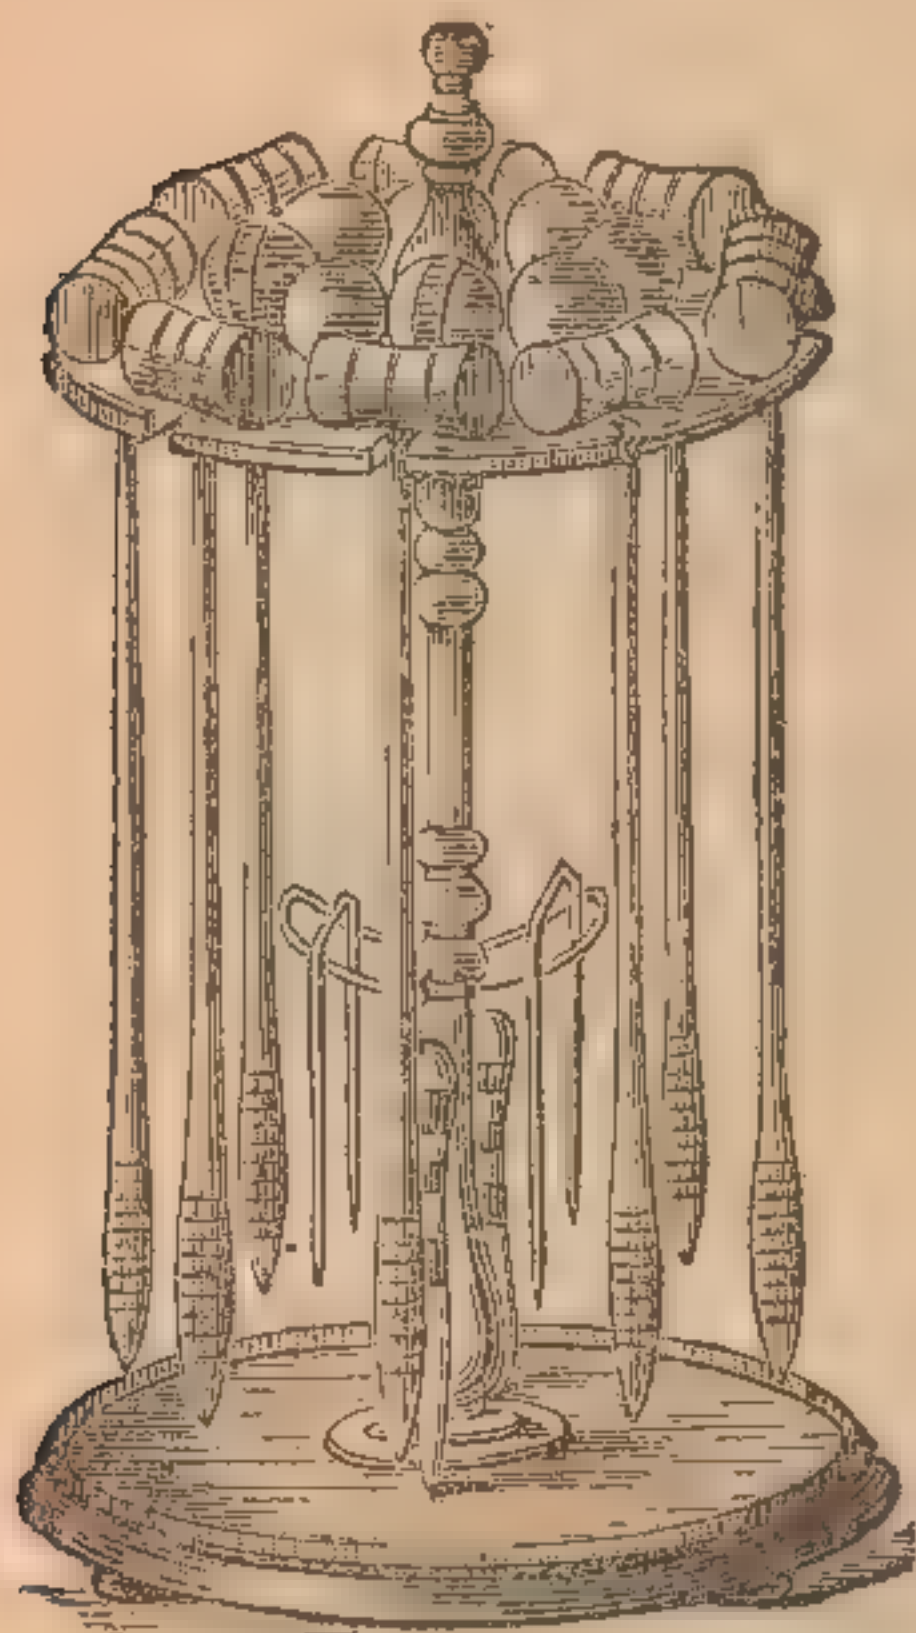

Pool Basket only (without Croquet Mallets and Balls)	...	...	...	...	23/0
" with Croquet Mallets and Balls complete	...	..	...	...	31/0
" " " " " " superior	...	...	...	...	41/6

Especial attention is directed to the extraordinary facility with which the Game can be conveyed to the ground and prepared for play, and the self-contained, compact form in which it can be kept when not in use.

The Rules of the Game are simple and readily acquired. Without any measurements or calculation, the Game is prepared for play by placing the Pool Basket at any suitable spot on the Lawn or Playing area, and arranging the Pools as directed by the Rules sent with each Game. A True Pool and False Pools are thus formed, and at a distance therefrom the Object Post is fixed. The balls in play are grouped in pyramid form at a point indicated by the Rules:—the initial stroke is then made by striking the group, and thus dispersing the balls over the playing area. The owner of the first playing ball then proceeds to play; followed by other players in their respective turns, the purpose being to hit the Object Post, and finally to enter the True Pool; whilst the purpose of opposing players is to prevent their adversaries' success by displacing, dispersing, and False-pooling their balls, in the manner and under the conditions contained in the Rules. The Game is won by the side or the player whose balls first gain the True Pool. The Game is played with Mallets and Balls corresponding with those used for Croquet. The Game adapts itself to Small Lawns, as, in Play, the penalty of the "False Pools" compensates for limited space.

The Pools form a Case for the other playing apparatus in such a compact portable form, that families may take the game to the country, or to the seaside for playing on the sands. It can be prepared for play in two minutes.

LAWN TENNIS POLES.

THE OCEANA.

These poles, as will be seen from above illustration, for simplicity of ground fixture have no equal. Being made of superior wrought iron, they are not so liable to breakage as cast iron poles are. The line of net passes over a brass pulley wheel, to which the iron weights are suspended; the tension after play may be lessened by removing a portion of the weight. They are also very portable; each part is fitted together with bolts and screws, and can be easily removed for mowing; they will also be found to damage the lawn less than any other pole made.

* “TEMA.”

By Letters Patent and Registered.

A NEW OUTDOOR GAME OF SKILL.

TEMA is a game inspiring elegant and graceful poses of the body ; requiring a deft and delicate manipulation of the Wand by means of quick wrist turns, the ball being retained in the crook by means of rapid revolutions of the Wand, and a practical application of the laws of centrifugal motion. No difficulties attend the putting up of the various appliances for this game, which can be fixed in a few minutes, and have an exceedingly ornamental and interesting appearance when set up on the lawn or meadow. Any piece of grass that has served as a lawn tennis court will do admirably for playing TEMA, nor is it necessary that it be very even, so long as the grass is fairly short.

This plate displays seven different styles of horse bridles and reins, each labeled with a number from 1 to 7. The designs vary in the complexity of the headstall, the type of bit, and the construction of the reins. Some include cheekpieces, while others are simple lead ropes. The illustrations are detailed, showing the texture of the leather and the metal components.

Q DEPARTMENT. BOOTS AND SHOES.

HEAD STORES (LADIES' AND CHILDREN'S FIRST FLOOR.
GENTLEMEN'S—SECOND FLOOR.
ALDERSHOT BRANCH—1st Floor. DUBLIN BRANCH—2nd Floor.

Boots and Shoes ready made or to order. All measurements carefully Registered, and Lasts reserved for the exclusive use of the owner. Boots or Shoes can be made to pattern.

The accompanying Prices refer to Goods of the Best makes.

An agreement has been made with the well-known firm of F. Pinet & Co., Paris, to supply the Stores with their leading lines of Ladies' Walking Boots and Shoes, and these will be sold at Pinet's minimum List Prices.

From the fact that these goods are made in so many sizes and fittings, a perfect and comfortable fit may be ensured.

Orders by Post.—Members purchasing Boots and Shoes can have their sizes registered (if desired), so that at all times when absent from town they may obtain their orders promptly by giving the necessary instructions as to mode of despatch, Parcel Post or otherwise. No charge is made for registering.

When sizes are not registered, and doubt exists as to the size required, an outline drawing of the foot may be sent, or an old boot. Self measurements are seldom accurate, and although every effort will be made to ensure a fit, the Stores cannot be held responsible unless the measures are taken by one of their own assistants.

Special attention is called to the fact that all Boots are kept in 2, 3, and 4 fittings, so that Members may rely upon securing a perfect fit.

LADIES' BOOTS AND SHOES.

The Stock and Prices in the Ladies' Boot Department have been thoroughly revised, and Members will find every variety at moderate prices.

ALL LADIES' BOOTS ARE 3/0 EXTRA TO ORDER.

CARRIAGE OF FURNITURE.

All Furniture will be delivered free in London and the vicinity within 12 miles, and beyond this in some cases where the locality is reasonably accessible by the Stores' Furniture Vans.

Country Orders.—Owing to the wide difference in the relative value of Furniture of the same bulk and weight, it is impossible to give a scale of values ensuring the free delivery of Country Orders, but Members are invited to enquire whether the Carriage will be paid, giving an outline of their intended purchase. In all cases the most liberal allowance the order will permit will be carried out, and special arrangements will be made in all Furniture Orders exceeding £50, for an equitable proportion, if the order is not of sufficient value and circumstances to admit the whole of the Carriage Charges to be borne by the Stores. These arrangements, as stated above, must necessarily vary according to the scope of the order and the class of articles selected.

Special arrangements for delivery in Ireland. Apply, stating approximately the description and price of goods required.

Packing and Packing Materials. Experienced packers are employed by the Society, and every possible care is taken to guard against damage. Such accidents rarely occur, but in the event of injury to Furniture while in the custody of carriers, whether by rail or any other conveyance, any claim for loss through such injury to Furniture in transit must be made to the carriers concerned, to whom the goods are delivered in good condition and signed for accordingly. The Society will, however, in all such cases be prepared to render assistance to Members in obtaining compensation.

Packing Materials (canvas, mats, battens, &c.) are charged at cost price, and the amount so charged will be allowed for in full if the materials are promptly returned carriage paid.

Any PACKING CASES available will be utilized as far as possible, and credited in full when returned in good condition, carriage paid; but cases *specially* made are in some instances, not returnable.

Packing Materials from the Furniture and Carpet Departments should not be returned with empties from other departments, but should be sent to the Stores' Furniture Warehouses, 14, Hart Street, Covent Garden, W.C.

Members will assist considerably by returning empties promptly, with the name of the sender plainly written thereon, otherwise credit cannot be given.

The Stores will, when desired, send competent men to any part of the country, to take plans and measurements, charging only out-of-pocket expenses.

REPAIRING, RE-UPHOLSTERING, AND RE-POLISHING FURNITURE.

Orders for work of the above description receive the same careful attention as is given to new Furniture, and the charges are prepared under careful supervision. Estimates are supplied beforehand if desired, and, as in the case of new Goods, only the best materials are employed.

LOOSE COVERS.

Loose Covers are made for new Furniture, or may be cut on Furniture at the houses of Members, as desired. The Charges are in all cases moderate, unnecessary expense being carefully avoided, and economy exercised with regard to cutting. On the material being selected, prices can be given for work of this description, if an estimate is required beforehand. Usually the prices are as follows, but they vary according to the shape of the Furniture:—

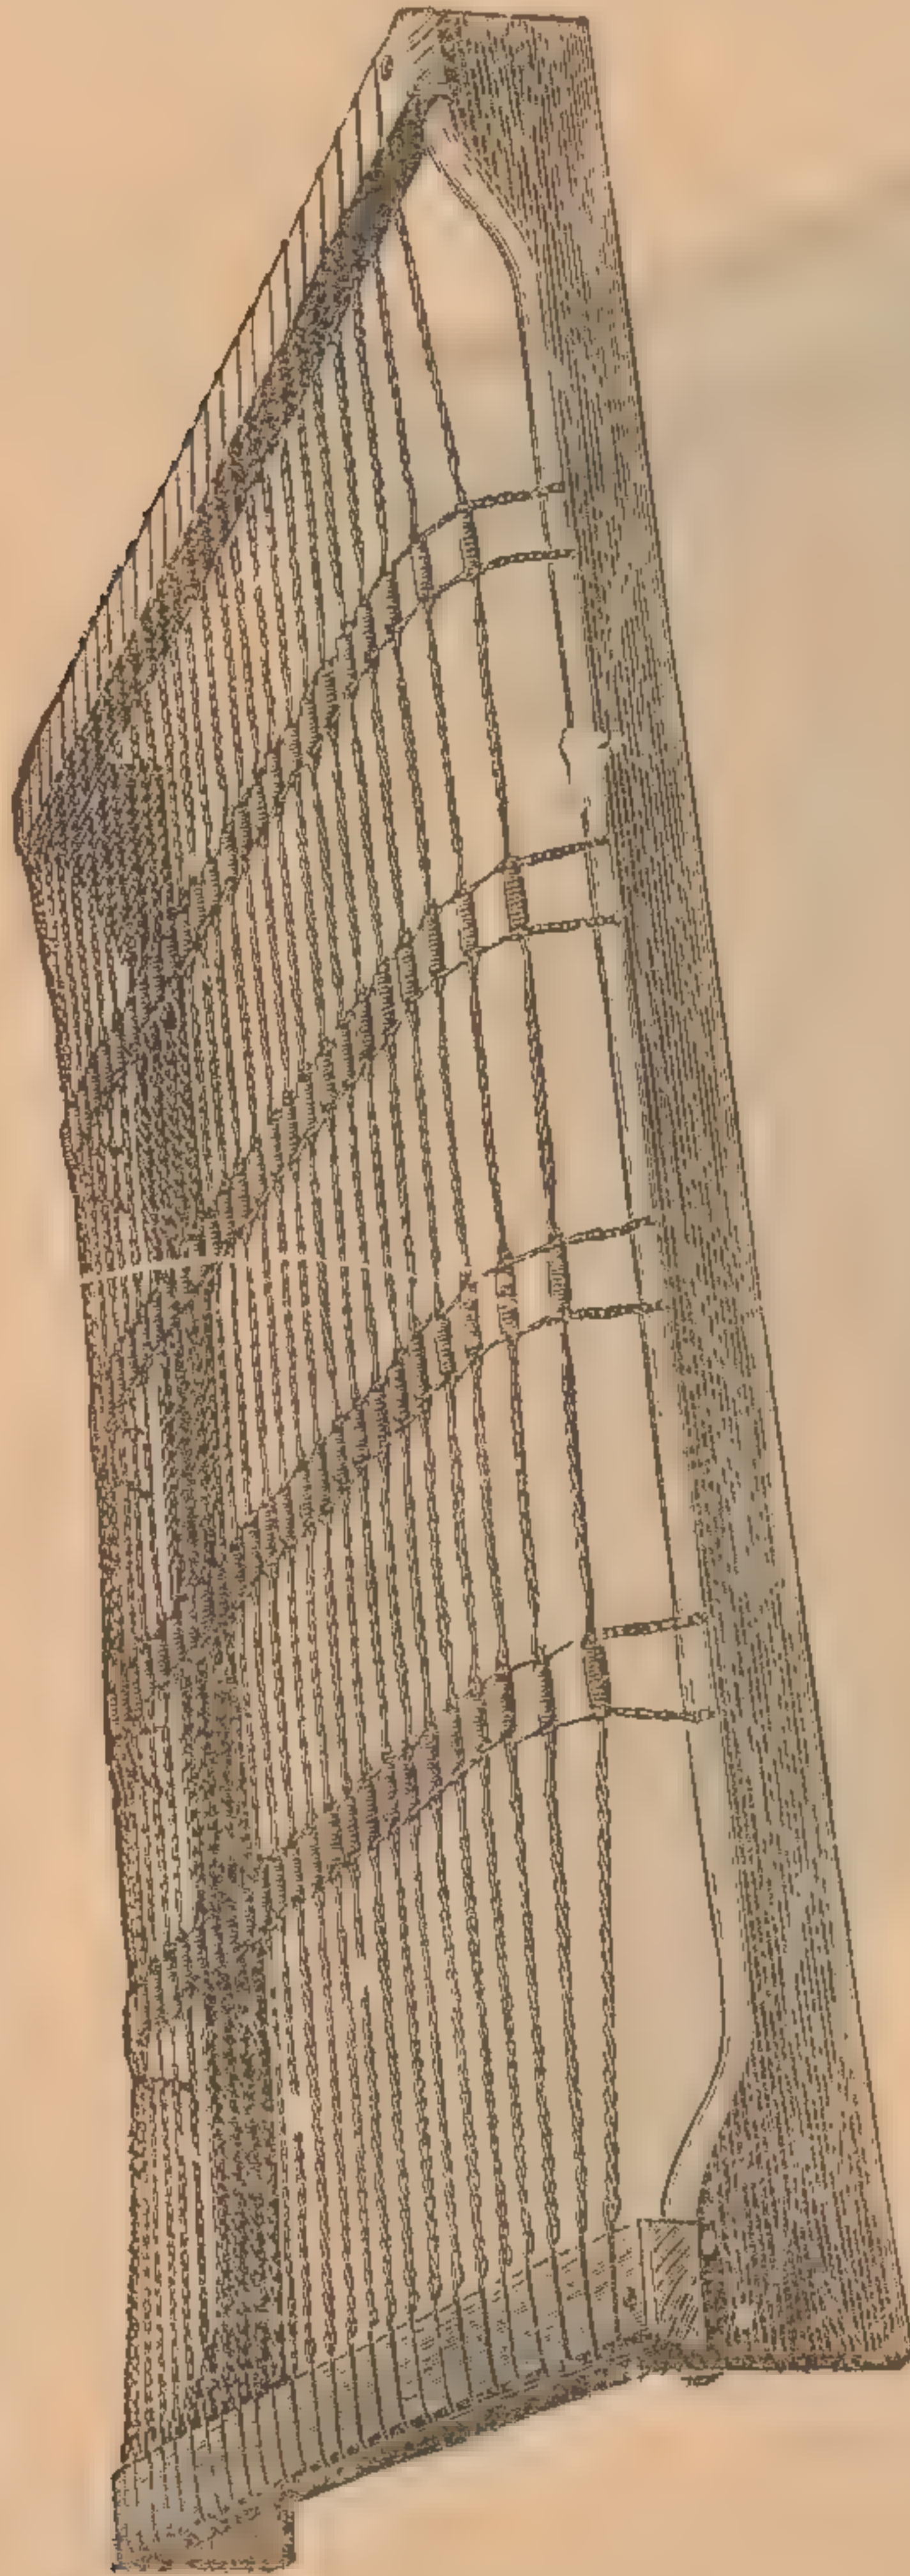

Small Easy Chairs	2/6 to 3/0	Ordinary Couches	5/6 to 8/6
Large	3/6 „ 5/0	„ Sofas or Settees	2/6 „ 10/6
Ordinary Chair Seats	1/0 „ 1/6	Centre Ottomans	8/6 „ 11/6

Pleated Beadings, Frills, or Flounces increase the Price.

The above quotations are taken from the Illustrated Furniture Catalogue, copy of which can be had on application.

THE "PATENT WOVEN WIRE MATTRESS."

Patented in Europe and America.

This is the only Mattress made with Double Woven Wire, which greatly increases the comfort and durability.

Description.—The woven wire Mattress is a strong and wonderful fabric of fine wire, so interlocked and woven by a Patented process of diagonal Double Weaving that an Elastic and Perfect sleeping arrangement is secured. The hard spring wire used is carefully tinned, effectually preventing corrosion, and presents a very attractive and silver-like appearance. This Mattress is, in fact, a complete appliance for all purposes of Rest and Sleep, combining all the advantages of a Perfect Spring Bed and the usual under Mattress in One Article, while it has none of the objections of either.

It can be used on any Bedstead, either Wood or Iron, and can be made soft or hard at pleasure; it can be taken to pieces in a few moments, and packed in a very small compass.

BEDDING LIST.

The Stores have always given special attention to the Bedding supplied to Members and the greatest care is taken to ensure its perfect cleanliness and purity. Bedding is only made to Order, to ensure freedom from dust or impurity of any kind. Bedding once used is not returnable, nor can it be exchanged on any account, and articles to be re-made or re-dressed are never taken to the Stores, but are sent direct to the Factory, and there cleaned by the most approved appliances and machinery. The Prices quoted in the following List have been carefully calculated, and are guaranteed to be in every instance the very lowest consistent with quality. The remark that "price alone is no test of cheapness," applies especially to Bedding.

CARPETS.

(For designs see pages 97, 98, 99 in Illustrated Furniture Catalogue.)

THIS DEPARTMENT is supplied with those carpets most in demand, and the closest attention is given to quality as well as style and design. Any description of floor covering not in stock can be procured. Experienced Carpet Planners can be sent to take measurements and fit as required. Members who desire suggestions or assistance of any kind will receive every consideration, and in cases where the selection is left to the Stores (which is occasionally a convenience to Members residing at a distance from London) the greatest care will be taken.

The Patterns shown are the best 5 frame Brussels, and specially designed for the Stores, and are of the latest style and colourings.

DIAGRAM SHOWING THE MANNER IN WHICH CARPET MEASUREMENTS SHOULD BE TAKEN. FOR THE USE OF COUNTRY MEMBERS OR WHERE THE STORES' PLANNER IS NOT SENT TO TAKE MEASUREMENTS.

First take the square block of the room, filling in all the details afterwards, which should be sufficiently clear to enable the cutter to act without hesitation. The cross measurements from corner to corner are important, as they prove whether the others have been correctly taken, and also whether the room is perfectly square. The short measurements should also be added together each way (length and width), if the totals agree with the long measurements the figures are correct, and the carpet can be easily made to fit the room without mistake or difficulty.

The "Waverley" Seamless Carpet, best quality.

The Waverley (Kidderminster) Bordered Carpets, woven in One Piece, and manufactured in Good Colourings and Patterns, form a durable floor covering at a moderate price; they are to be had in several qualities, but the Stores only keep the best. Being made in a variety of sizes, commencing from 2½ by 3 yards, up to 4 by 5 yards, they have to a great extent superseded the Kidderminster Carpets by the yard.

FELT CARPETS, &c.

PLAIN FELT CARPETS, four feet wide, 3/6 per yard, are very generally used either as "surrounds," or for covering the entire floor; as a surround, Felt may be cut to the required width, and its adoption for the purpose would be found economical as well as suitable; they can be had in various shades—Peacock, Olive, Terra-cotta, Blue, Marone, &c., to harmonize, or contrast with the Carpet or general furnishing of the room. When used to completely cover the floor, plain Felt forms an excellent back-ground as it were, for the display of Oriental and other Rugs.

KALMUC, another description of Carpet, thick and soft, is used in the same manner as plain Felt. It is a yard wide, but is not so suitable for cutting into narrow surrounds.

UNDER-FELT, or **PAPER**, laid under a Carpet is very general and useful, the former being conducive to the wear of the carpet itself as well as being soft to the tread, while the paper to a great extent preserves the carpet from dust. The paper is specially made for the purpose, and is about the same width as the under-felt, namely four feet, while the expense is inconsiderable.

STAIR CARPETS.

STAIR CARPETS may be had in all the various makes and widths, Brussels, Wilton, Velvet Pile, Venetian, Dutch, Tapestry, or Axminster, together with Stair Rods and all the necessary fittings. In ordering Stair Carpets by letter it is sufficient to give the number of steps, the width and depth of the "tread," and the height of the "riser," the proper quantity can then be forwarded; an extra yard is considered necessary to allow for altering the position of the carpet, and thus to equalize the wear as much as possible.

SEAMLESS CARPETS.

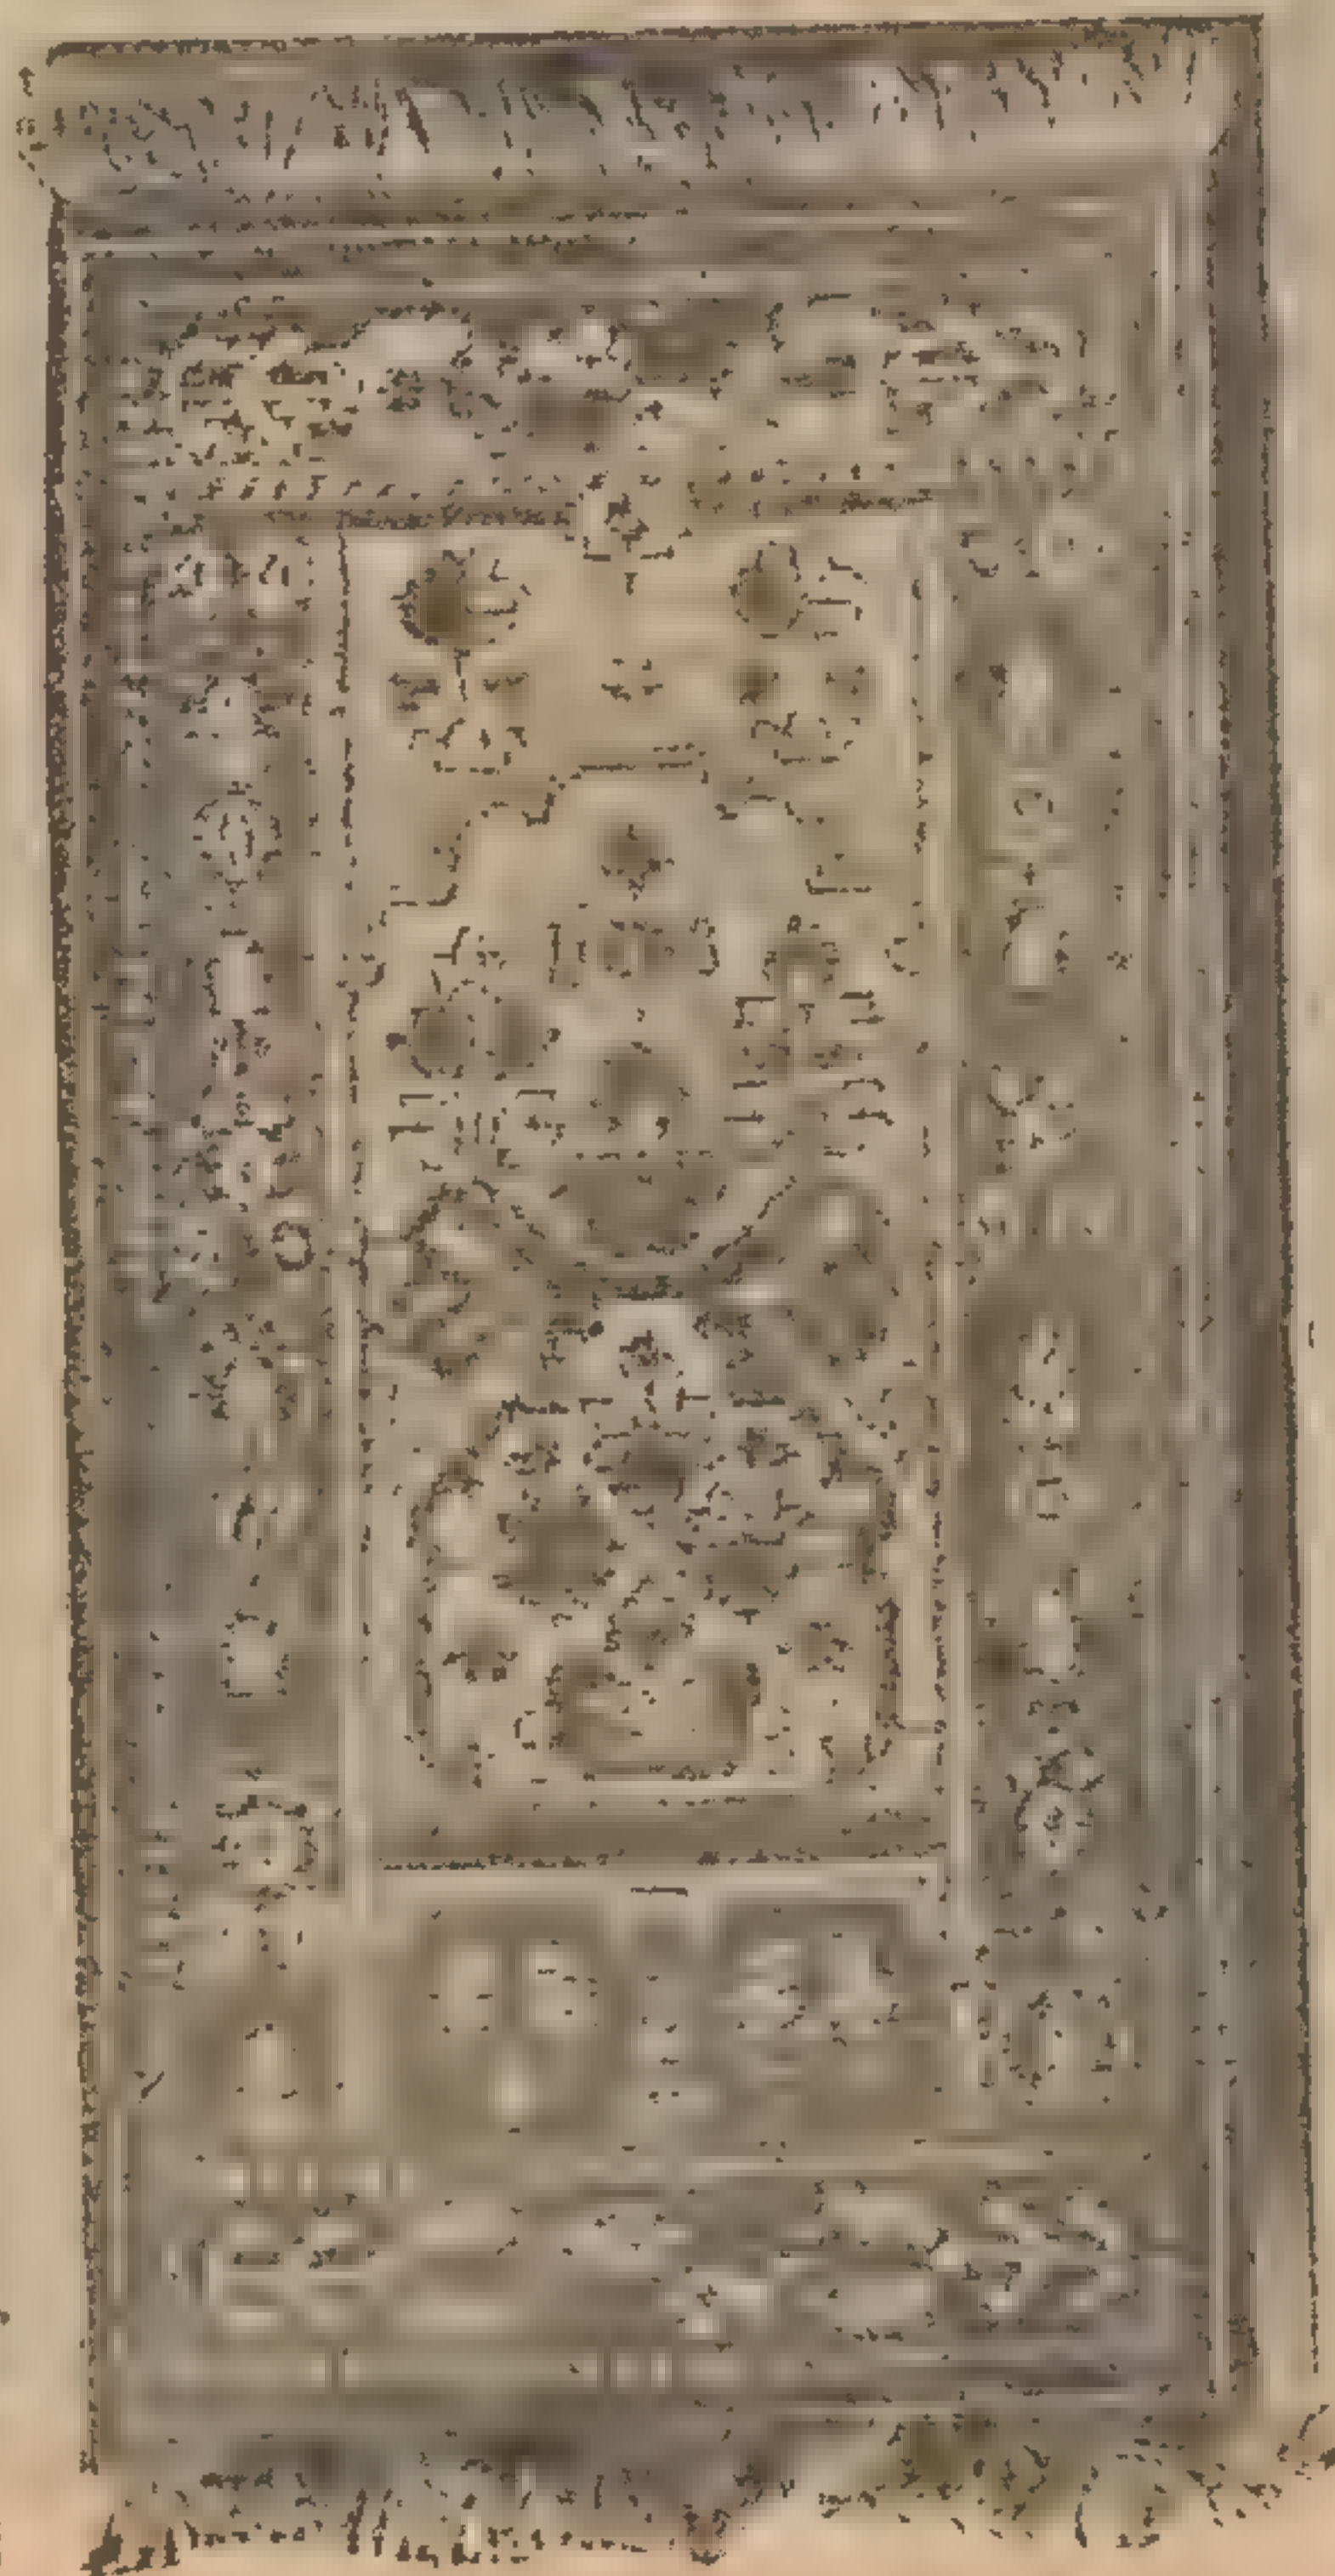

TAPESTRY CARPETS.

TAPESTRY CARPETS (or "Tapestry Brussels" to adopt a misleading term frequently used, can also be supplied. They are the same width as Brussels (27 inches wide), but as the patterns are printed (not woven) they are not recommended, and, if supplied, are sold on their merits for which the Stores do not hold themselves responsible. The better qualities occasionally give satisfaction, but as a rule they compare unfavourably with Brussels, or even a good quality Kidderminster.

Victoria Seamless Carpets, equal in appearance to Brussels, are kept in the following sizes:—

STAIR RODS, MATTINGS, &c.

STAIR RODS may be made angular or round, as required, and the price may be ascertained when the pattern is selected. All the different description of rods, with the eyes or mode of fitting, can be seen at the Stores. The ordinary round rod may be had 21, 25, 27, 30, or 33 inches, and the price per dozen commences at 2/0. The better descriptions are charged by the foot, and the “eyes,” &c., in detail, so that purchasers may see exactly the cost of the rods and fittings complete.

The following sizes are kept in stock—

21 inches long	2/0 and 2/6 per doz.	30 inches long	3/0 and 3/6 per doz
25 „ „	2/3 „ 2/9 „	33 „ „	3/9 „ „
27 „ „	2/9 „ 3/3 „	Stair eyes	0/9 and 1/0 „

Extra Thick or Fancy Rods from 0/3½ to 1/9 per foot.

MATTINGS of the various descriptions, China, Cocoa, Manilla, Napier, &c., in the different widths, are kept in stock. The Cocoa or Napier is very durable, and is much used for passages or floors over which there is constant traffic, or for kitchens having stone floors. It may be had with a border, which improves its appearance. The India or China makes a good “surround” for floor covering, and is occasionally used as a “dado” for wall decorations. In either case it would be found cleanly and suitable, and there is no difficulty in joining several widths together. For binding, leather cloth is generally used, either the colour of the matting, or scarlet in contrast.

The Charge for Binding Indian or Cocoa Matting is 0/4 per yard, including the Material for Binding.

MATS of all kinds, with or without borders, are kept in stock or made to special size; as required; for the street door it is sometimes necessary to have the mat made to order, and also to have the flooring sunk to receive it so as to admit of the door opening and closing freely. For interior doors Axminster or “beam” mats would be found suitable, although wool mats are much used for the purpose. These may be had in almost any size or colouring as required. Also Sheepskin Hearthrugs, from 21/0 to 50/0 each; Real Bearskins mounted on Black Goatskin, 45/0 to 155/0 each.

LINEN CRUMB CLOTHS, or “Druggets,” are kept in stock or are procurable in a variety of sizes in both shades, drab and slate. They are much used for carpet coverings, especially in summer, being cool and easily cleaned and re-laid. The following are a few of the small sizes, but they can be had up to 7 yards by 5 yards, or by the yard, 72 in. wide, 1/11:—

LINOLEUM.

LINOLEUMS as a rule are made six feet wide, but certain patterns are made twelve feet wide, which will be found for some purposes a great advantage, obviating the necessity of joining. Plain Linoleum, dark red, or crimson, with an ornamental border in different widths, forms an excellent covering for floors, over which there is constant traffic, is comparatively inexpensive and durable. Linoleum is much recommended in the better qualities; cheaper makes are advertised but are by no means reliable. Linoleum may be had for passages in different widths with borders in handsome designs.

STAIR LINOLEUM is of a special manufacture, intended to conform to the bend of the steps without cracking. In ordering, therefore, it is necessary to state whether Linoleum is to be used for Stairs, to distinguish it from ordinary Passage Cloth.

LINOLEUM BILLIARD MATS, of extra thick cloth, 36 inches wide, with Borders to fit Tables, 12 ft. x 6 ft. Plain Centres with Borders, per set £3 2s. 6d.

PLAIN LINOLEUM, of *extra thick* quality, may be had if required, but printed patterns in this extra quality must be made to order.

LINOLEUM REVIVER, price 1/3 per lb., is applied as follows: The Linoleum should first be well washed with soap and water (without soda) and dried with a clean cloth. Then apply the Reviver in moderate quantity. Rub it well into the cloth and wipe carefully off until there is no greasiness on the surface. The colours will be brought out bright and clear, and the Linoleum will be easier washed afterwards.

LAYING LINOLEUM. Linoleum may be laid and fitted like an ordinary Floor Cloth. Cement is required on damp or stone floors. Should the cement become stiff, it must be thinned with methylated spirits. Cement may be had 1/3 per lb.

WASHING LINOLEUM. Linoleum should first be well swept, then washed with soap and water, and afterwards wiped thoroughly dry. Soda should never be used.

FLOOR CLOTH is made as wide as eight yards, from which any size or shape may be cut as required at fixed prices per square yard. This also is made in several qualities, but only the better goods guaranteed to be well seasoned are recommended as being durable and likely to give satisfaction, from 1/8 to 3/6 per square yard.

CORNICES AND CORNICE POLES.

CORNICES may be had either gilt, ebonized, or they may be made to correspond with furniture as desired. In either case they are made to order only. POLES may also be had either GILT, EBONIZED, MAHOGANY, BIRCH, WALNUT, ASH, OAK, OR BRASS, and specimens of the different styles may be seen at the Stores. Poles or cornices for bay windows vary in price according to the number of bends. The Stores prefer the measurements of bay windows being taken by experienced men, and will send them where possible. For the information of members residing at a distance from London, where the services of experienced men are not available, diagrams are here given showing the points between which the measurements should be taken.

Colours to be seen in the Furnishing Drapery Department S. 7/10.

1, 2, 3, 12 and 13. (Estimates on application.)

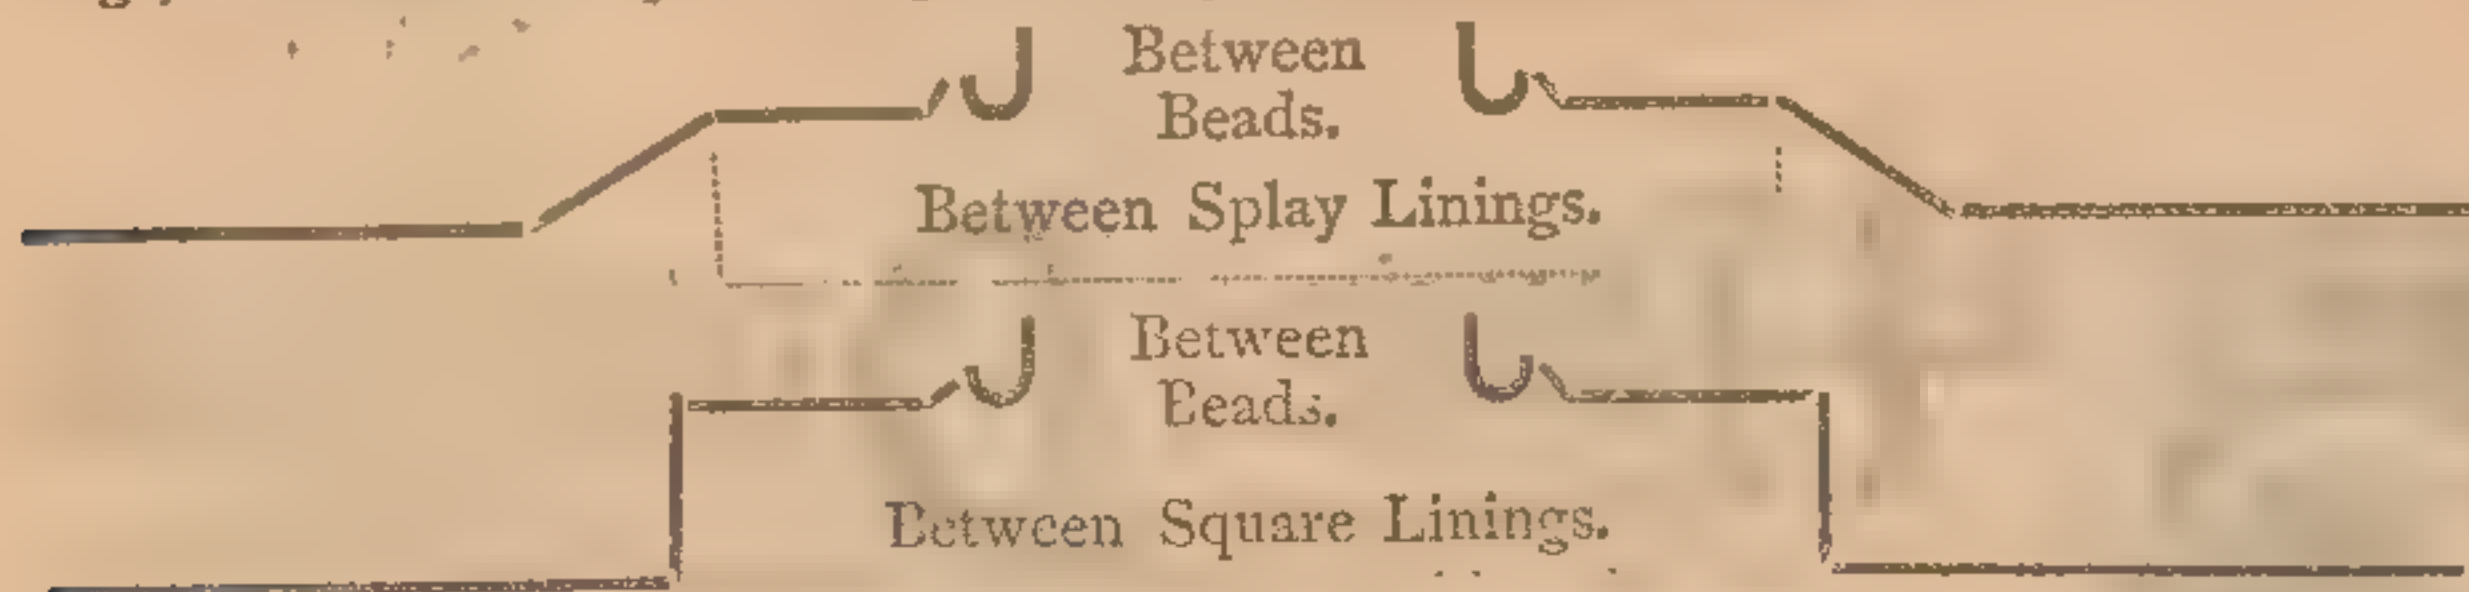

For the assistance of Country Members ordering Blinds, the following instructions as to measurements may be found useful, but when possible it is advisable to obtain the services of a practical workman.

DIRECTIONS FOR MEASURING OUTSIDE BLINDS.

Give the width of window opening between reveals, and the height of ditto, and depth of reveals.

DIRECTIONS FOR MEASURING INSIDE BLINDS.

Give the width between linings or beads and height of same; if measured between linings, state whether square or splay.

In all cases it is better to fix Blinds in linings, the Blind then having a straight drop; but in some cases where the shutters close right up, no provision being left for the Blind, they must be fixed in the beads.

Junior Army
and
Navy Stores,
LIMITED,

YORK HOUSE, REGENT STREET,
LONDON, S.W.

HOUSE DECORATION.

THE SOCIETY has secured the services of a firm of eminent specialists in Artistic Decoration, and are prepared to submit estimates for exterior and interior work, in any style, in London or the Provinces, with suggestions for the effective treatment of single rooms or entire dwellings.

Specimens of some of the work can be seen in the Furniture Department, York House.

The following is an extract from a letter lately received from a Member for whom the Society has executed some important decorative work:—

"The decorations of the house were finally and completely finished yesterday, and I wish to put on record my complete satisfaction with everything that has been done. The result really surpasses my expectations, and I beg to express my appreciation of the artist's ideas of the proper sort of decorations for this house, and of the manner in which those ideas have been carried out."

Applications for Estimates to be made in the Furniture Department, York House, or by letter to the Secretary.

DECORATING, PAINTING, & PAPER HANGING.

An important branch of the Society's business connected with the Furniture Department is the House Painting and Decorating. The Stores undertake all such work, as well as Plumbing, in all its branches, Carpentry, the laying of Mosaic or Encaustic Tiles, Parquet Flooring, Marble Curbs for Hearths, as well as any other work that may be required. Members employing the Stores in connection with work of this description may rely on having their orders executed carefully, expeditiously, and as economically as possible according to the circumstances attending the execution of the work. The Stores hold themselves responsible that the workmen employed are reliable and competent, while the charges (which for work of this description are in the case of private firms sometimes absurdly high) will be kept as low as good work can be done for. Estimates and designs can be supplied beforehand, and specimens of decorations in various styles can be inspected at the Stores. Every information and assistance in making selections (if desired) will be afforded, and care taken to ensure perfect satisfaction.

PAPER HANGINGS.

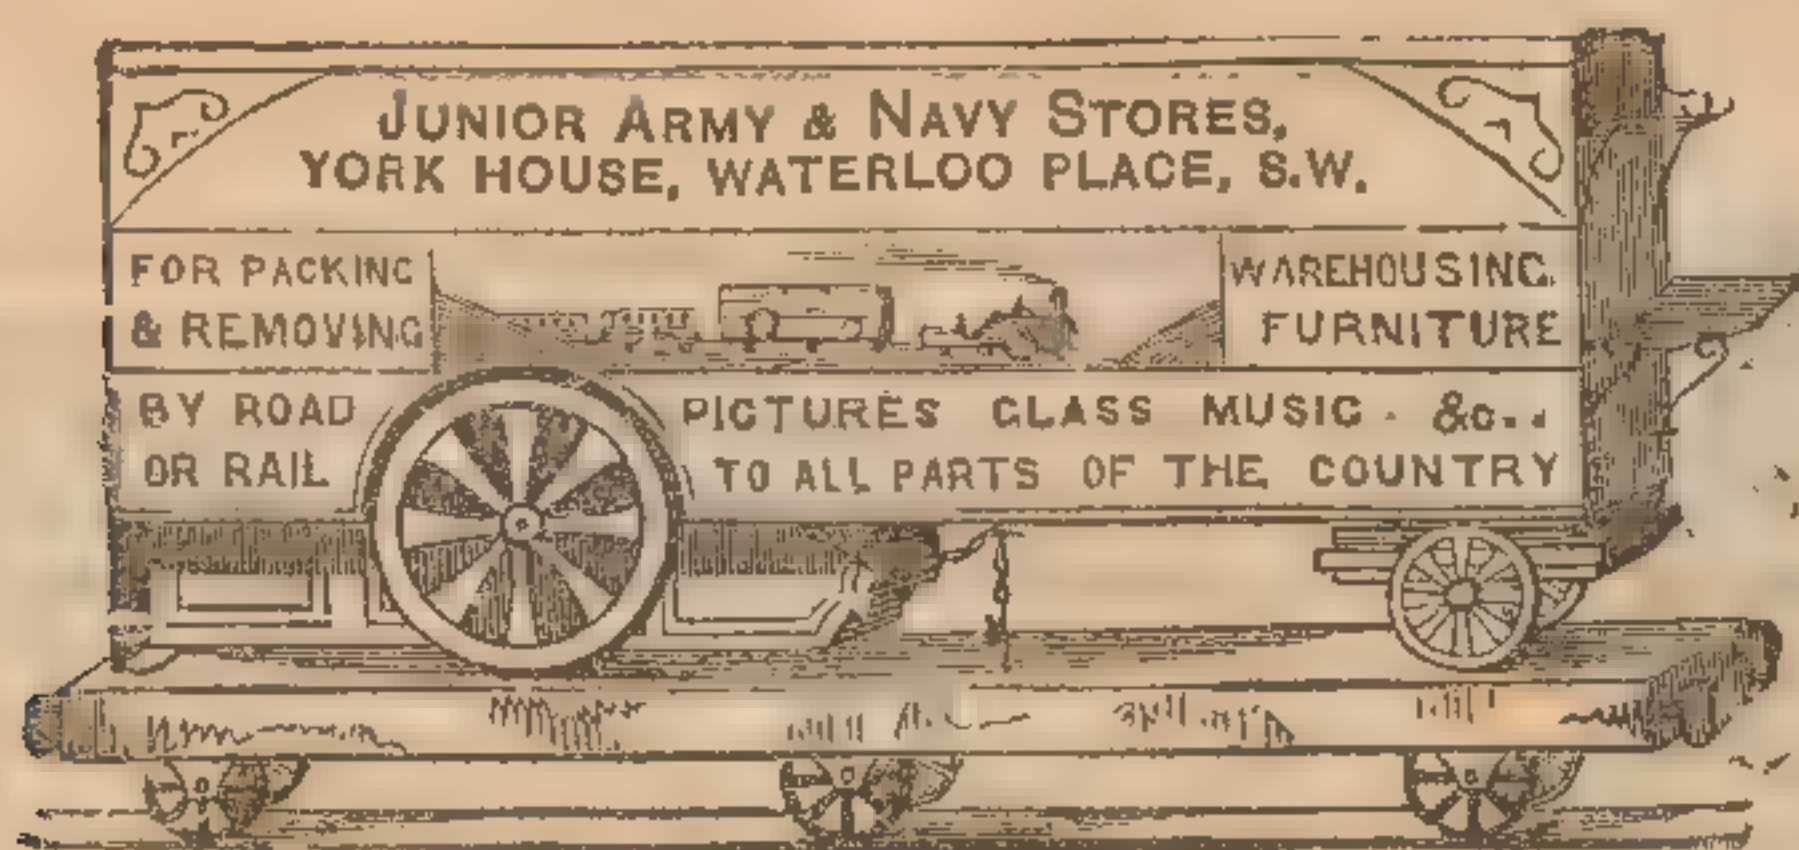

The productions of the leading manufacturers may be seen at the Stores, and the prices are marked in plain figures, from which Members obtain a discount. The old patterns are now replaced by others for the present year, among which are some excellent designs suitable for the different rooms.

The following Table may be found useful in calculating quantities of English papers required for a room. English pieces are 12 yards long and 21 inches wide; French papers are 9 yards long and 18 inches wide, therefore for French papers allowance must be made accordingly.

Removal and Warehousing of Furniture.

Arrangements for REMOVING BY ROAD OR RAIL, or
WAREHOUSING FURNITURE, Pictures, Looking
Glasses, Books, Plate, Wines, Luggage, Carriages, &c.
(the Society taking all risk), AT REDUCED RATES.

REMOVALS.

1. Estimates are furnished, free of expense in London (and in the country for the Assistant's return railway fare), for Removing or Warehousing Furniture and other valuable property by Road or Rail to any part of the United Kingdom, including all expense from house to house, also the taking down and re-fixing of Looking Glasses, Wardrobes, Bedsteads, &c., the use of wrappers, mats, cases and crates for the packing of China, Glass, Wines, and all valuable nick-nacks.

2. Estimates, if not accepted within 21 days, are liable to alteration, and may require revision; they are also based upon the assumption that the work will be carried out under the sole directions of the workmen without interruption, or other circumstances which may necessarily increase expense. No Removal will be proceeded with until the amount of the accepted estimate has been paid.

3. The Society will also give Estimates when required for packing furniture and effects for shipment to any part of the world, including the delivery at any of the London Docks, and arrange for clearing the same.

4. It is advisable in all cases when practicable, to remove as far apart from Quarter days as possible, the pressure at such times being generally great both on vans and men; the workmen employed by the Society are thoroughly experienced and may be trusted to do everything required. It is particularly requested that any incivility or neglect of duty on the part of the workmen be at once reported to the Secretary. The workmen are strictly prohibited from soliciting gratuities.

5. Workmen employed by the Society have no authority to enter into any contract on the Society's behalf, nor to execute orders, nor sign receipts for goods or documents that have not been previously submitted to the Society and signed by the Secretary, or some person deputed by him, and no contracts, receipts, or documents made through any other source will be recognized by the Society.

6. In case of accident or damage to any property in the course of removal, notice of the same should be given in writing to the Secretary within three days of the occurrence, after which time the Society will not be responsible.

WAREHOUSING.

7. The warehousing of furniture is undertaken by the Society at reduced rates, the only extra charges made being those necessarily incurred by the storing and unstoring. The warehouse rent will be found to contrast favourably with the rates of private firms, all incidental expenses being minimized as far as possible.

8. A good idea may be formed of the cost of warehousing by the following calculation—a space 16 ft. × 6 ft. × 7 ft., which is equal to about 600 cubic feet, will be found sufficient to contain about an ordinary van load, the charge for such space being 12/0 per month for one van load, or 10/6 per month per load for two or more van loads. The charges for storage are made up from month to month, dating from the day the property is received.

9. Separate spaces or rooms can be engaged at rentals varying from 12/6 to 55/0 per month, according to size. Plate Chests, ordinary size, in Strong Rooms, from 2/6 per month.

10. One Package or Box, of ordinary size and averaging 1 cwt., per month, 0/10; three ditto, 2/0; six ditto, 4/0; twelve ditto, 6/6. Larger quantities by special arrangement.

11. Packages to which access may be required should be marked "WANTED"; they will then be put in a convenient position.

12. Carriages, 4-wheeled, 7/6 to 10/0; 2-wheeled, 5/6. Pianos—Cottages, 3/6; Grands, 6/0. Harps or Harmoniums, 2/6 per month.

13. The Society will not be responsible for damage by fire under any circumstance whatever, but insurance against loss by fire on all kinds of property can be effected through the Stores at reduced rates upon receipt of Member's written instructions. The Society will not be responsible for any loss arising from lightning or civil commotion, nor for damage by moth, although every reasonable precaution will be taken to prevent such damage.

14. Members wishing to deposit property as collateral security for others may make satisfactory arrangements for so doing.

15. No goods will be delivered without a written order from the owner, the return of the inventory furnished by the Society, and all amounts due from the depositor paid.

16. Forty-eight hours' notice at least must be given before the goods are required to be delivered, except as regards boxes marked "WANTED," which can generally be delivered on demand.

17. A charge will be made for unstacking goods for the purpose of giving access to any portion not marked "Wanted."

18. The Society reserves the right to amend or add to the above arrangements and conditions.

T 1526 JUNIOR Army and Navy Stores, Limited.

COPIES taken of any kind of Photograph or Painting at same prices as for direct sittings.

When more than one figure is introduced into either Carte or Cabinet, an additional 2/6 will be charged for each.
No extra charge is made for Children, but when under 5 years of age, the minimum order must be half-a-guinea, and more than one perfect picture cannot be guaranteed.
In cases where a Second Sitting is wished for, the charge is 2/6 for Cartes, and 3/6 for Cabinets.

Proofs.—In all cases rough proofs of sittings are supplied before the order is completed.

Negatives.—Every negative taken is carefully preserved, and additional copies can be had (at a reduced price) at any time by sending name, and month when taken.

Children.—Instantaneous Portraits are (except in very dull weather) taken daily; and, as the process is applied to the production of Adults' Portraits, as well as those of Children, &c., the time of sitting in even dull weather is never protracted.

Amateurs.—The development of dry plates and printing from Amateurs' negatives carefully attended to. Apparatus and all requisites supplied. (See following pages.)

Instruction in either wet or dry process, and printing.

Non-Members.—Photographs will be taken of persons who are not Members of the Stores, on the introduction of Ticket-holders.

Waiting Room and Dressing Rooms for Ladies and Gentlemen are attached to the Studio.

LANDSCAPES AND GROUPS.

The charge for taking Landscapes or Groups away from the Studio is £2 2s., in addition to travelling expenses. This charge includes two mounted copies of pictures taken; after copies are charged as follows:

SIZE OF PHOTOGRAPH.	£	s.	d.
12 in. x 10 in.	0	5	0
10 in. x 8 in.	0	4	0
8½ in. x 6½ in.	0	3	0

Special attention is given to Naval and Military Groups, Wedding Parties, &c.

"AT HOME" PORTRAITS.

Owing to the great advances made in the art of Photography, Portraits may now be taken in an ordinary Sitting-room, with home surroundings, almost equal to those produced in a Studio, at a charge slightly in advance of ordinary prices.

MINIATURES AND COLOURING.

Locket Miniatures, exquisitely finished, from 10 6 and upwards. Cartes-de-Visite from 2/6. Cabinets from 5/0. Plain Photograph for Locket, 3/6.

BROMIDE ENLARGEMENTS.

Portraits produced by this process are considered to be quite permanent. The tone is very pleasing and the cost about half that of the Carbon process.

LIFE-SIZE HEAD AND BUST, A SPECIALITÉ.

Highly finished in Black and White, and suitably Framed, price £4.

PLATINOTYPE.

Enlarged Portraits produced in Platinotype. These pictures have the appearance of an engraving and are absolutely permanent.

PORTRAITS IN OIL COLOURS.

Large Pictures finished in Oil Colours from £5 to £50. A Life-size Head and Bust, finished in Oils with really artistic merit (without frame) £7.

The above quotations are for the best class of work, and specimens of each can be seen in the show-room. A cheaper class of pictures can be had if desired at about half the above prices. Specimens also on view.

These prices refer to portraits from life or original negatives. If from old and defective pictures, a slight increase is sometimes necessary.

PHOTOGRAPHY (AMATEURS' DEPARTMENT).

The Society, having a Studio and competent photographic staff on the premises, are enabled to execute all orders in the following, in the most efficient manner, also give instruction in Photography:—

The supplying of all apparatus and requisites.

The Development of Negatives, and Printing same in Silver, Platinum, or Bromide. The supplying of Developing and other Solutions, ready for use and with instructions.

To meet the extended requirements of Amateurs, the Stock has lately been largely increased.

The York House Hydrokinone Developer will be found a great boon, it is very simple in use, clean, gives splendid results, and keeps well, in one concentrated solution, making 20 ozs., price, 1/6.

Pyro Developer, in 2 bottles, 1/4; Ferrus Oxalate, in 2 bottles, 1/4; Toning Bath, in 2 bottles, 1/6.

Any Special Formulæ mixed to order.

The retouching of Amateurs' Portrait Negatives, an absolute necessity to make a picture a pleasing likeness.

The Department will at all times be glad to give advice to beginners in the selection of Apparatus and all other matters, and by this means Members will avoid making unnecessarily expensive, and often for them useless, purchases.

APPARATUS.

The following are carefully selected by the Manager of the Department (a Photographer of many years' experience), and are chosen with a view of supplying the most practically useful instruments at the various prices, and are tested before being sent out.

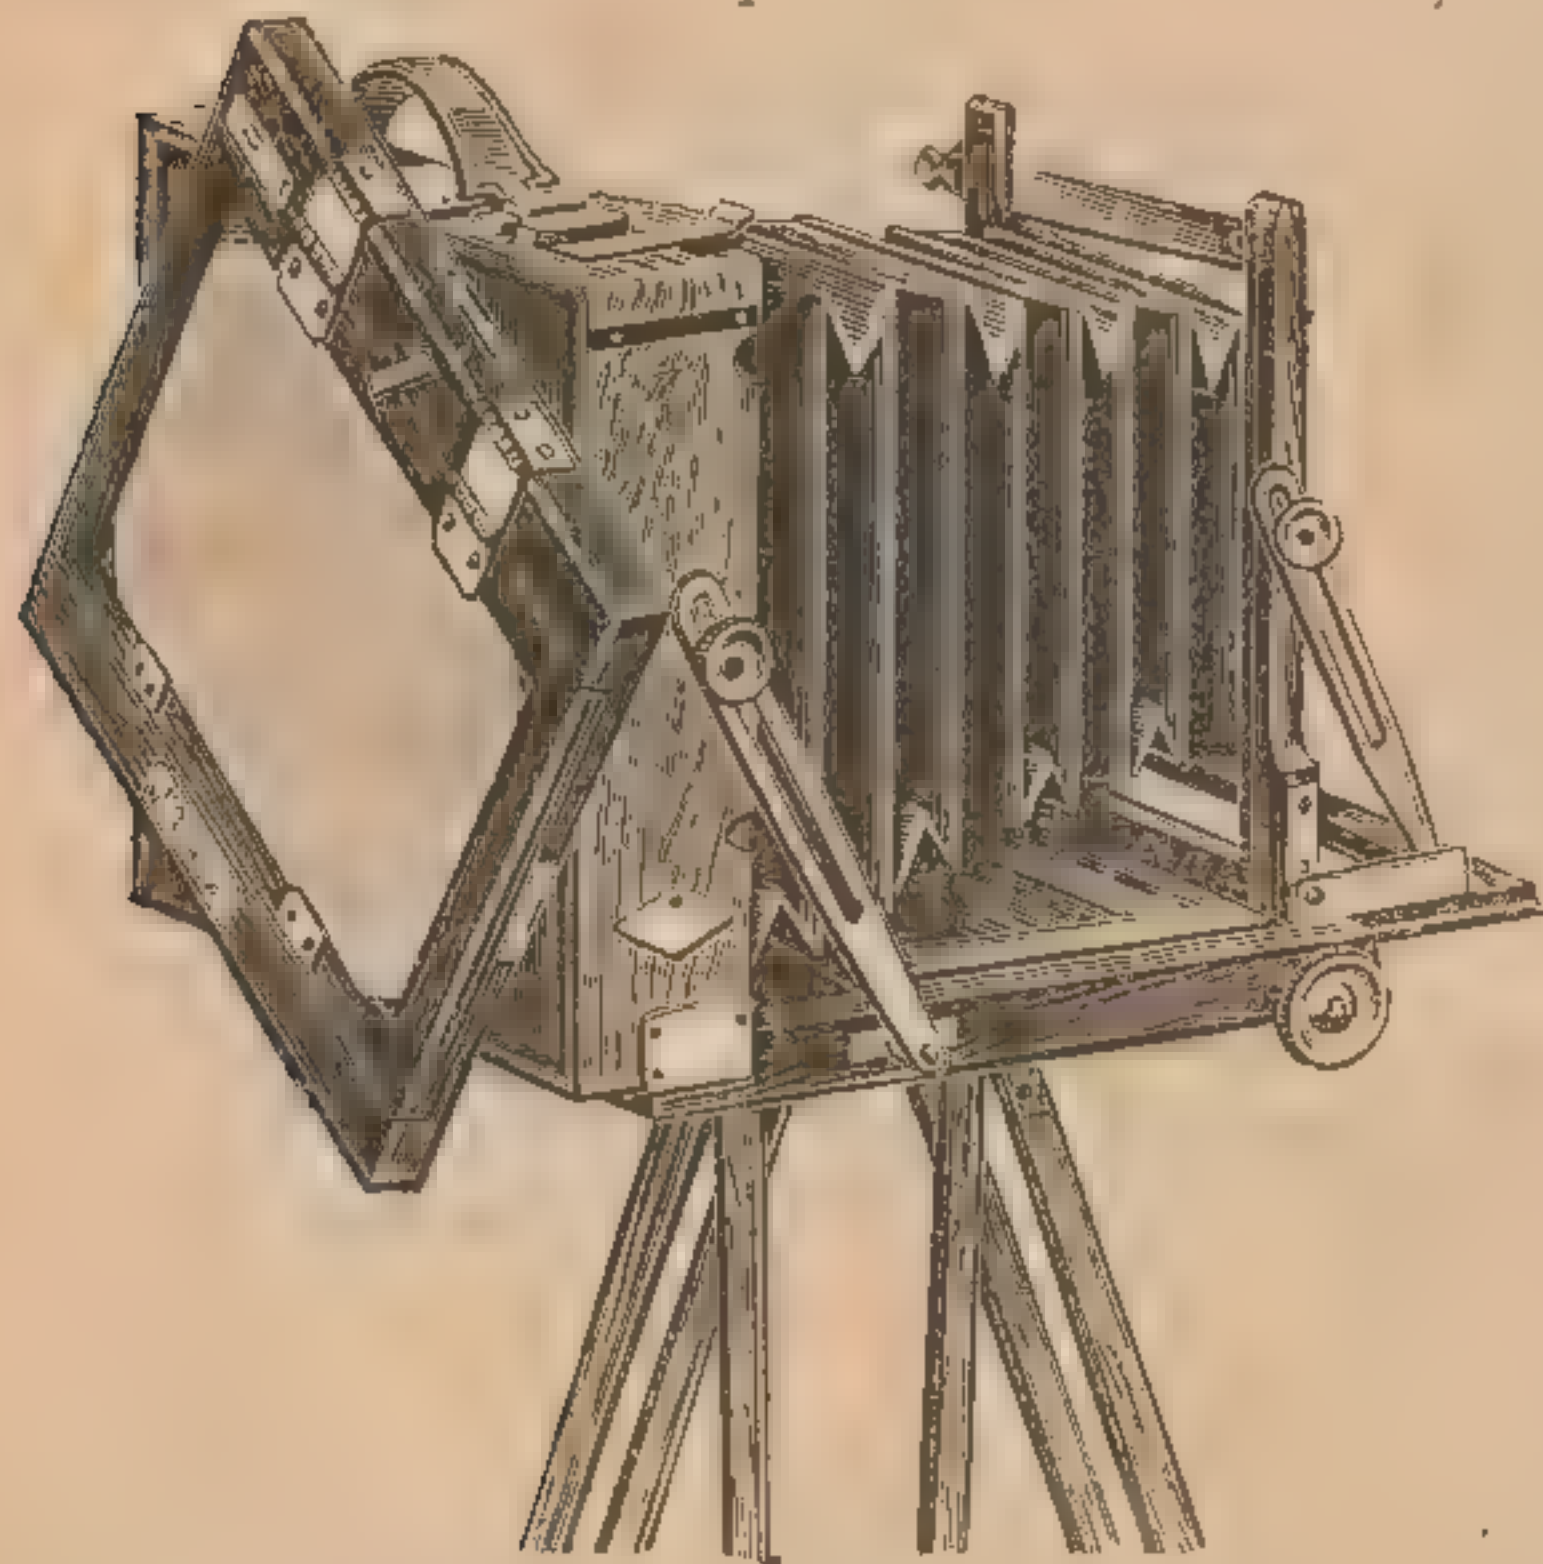

THE YORK HOUSE CAMERA.

Open.

Patent Revolving Back.

This is a very superior Camera, being the lightest and most convenient extant. It is of well-seasoned Mahogany and best workmanship, is made square, and fitted with Patent Revolving Back, by simply turning which pictures may be taken either the long or short way of the plate. It is fitted with Rack and Pinion Adjustment, and the back and front may be tilted to any desired degree, permitting the use of Lenses of the widest angle, perfect rigidity being maintained. It has also recessed revolving Tripod Head, dispensing with the ordinary loose Tripod Head. The Focus ranging from three inches upwards, lenses of any foci may be used. The price with one double slide and new portable tripod stand, folding in four to 18 inches, is as under.

THE YORK HOUSE No. 2 CAMERA.

A new Camera is now introduced termed the York House No. 2. This in workmanship and quality is equal to the former, which has given so much satisfaction, but has a Reversing Back of the usual pattern instead of revolving and a simplified front. These two Cameras will be found (quality considered), to be the cheapest that can be obtained.

"OPTIMUS" WIDE ANGLE CAMERA.

EXTRA LONG FOCUS.

Baseboard does not cut off the view when using wide angle lenses.

This Instrument possesses every possible advantage, being very Light, very Rigid, and very Portable. The focussing screen and body may be brought towards the front of Baseboard so as to prevent obstruction when using lenses of wide angular aperture and short focus. It is provided with double-swing arrangement and long-focussing (rack) adjustment. When closed the lens may remain attached to its proper position (the front), and project through the TURN-TABLE Baseboard.

DETECTIVE OR HAND CAMERAS.

These Cameras are now very extensively used, great improvements have been made in them, and being very portable, they are easily carried with one when on tour, and afford an opportunity of securing interesting reminiscences of places visited. One of the newest and most easily worked is

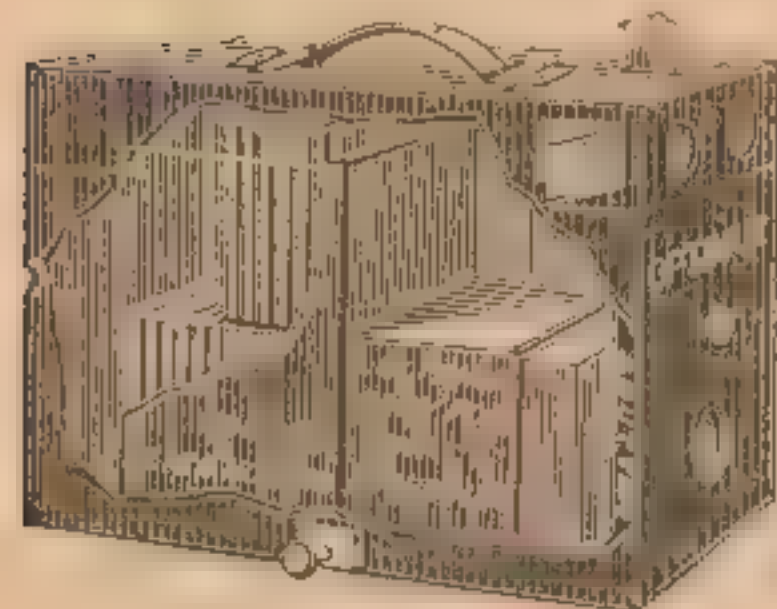

HOUGHTON'S "AUTOMATIC."

The "AUTOMATIC" HAND CAMERA introduces a special novelty in the arrangement for changing Plates, by means of which the inconveniences connected with a changing bag are avoided, and as no second chamber is required for storing or receiving the Plates, the dimensions of the Camera are as small as possible; the extreme outside size to take twelve quarter Plates, being 9½ inches long by 5½ inches by 4½ inches, and the weight only 4½ lbs. when charged.

THE ARIEL.

This is a very portable Camera for pictures $4\frac{1}{4}$ by $3\frac{1}{4}$; as it closes to about $2\frac{1}{2}$ inches it can be carried in the pocket. It is fitted with Thornton-Pickard Time and Instantaneous Shutter.

Price, with one Double Slide, 75/0; extra Slides, 5/0 each.

STIRN'S DETECTIVE CAMERA.

This is a very small and neat Camera of Polished Walnut, it carries 12 Plates, size $3\frac{1}{8}$ by $2\frac{3}{8}$. The outside dimensions being only $5\frac{3}{4}$ by 4 by $3\frac{3}{4}$. It is fitted with an excellent Shutter and Finder.

STIRN'S CIRCULAR DETECTIVE CAMERA.

This is a very neat Camera of circular form, measuring 6 inches in diameter and $\frac{1}{4}$ of an inch in thickness. It is carried slung from the neck by a cord, and buttoned under the coat, being quite unobservable; the lens, a very small one, is all that is seen, and that appears simply as a button of the coat.

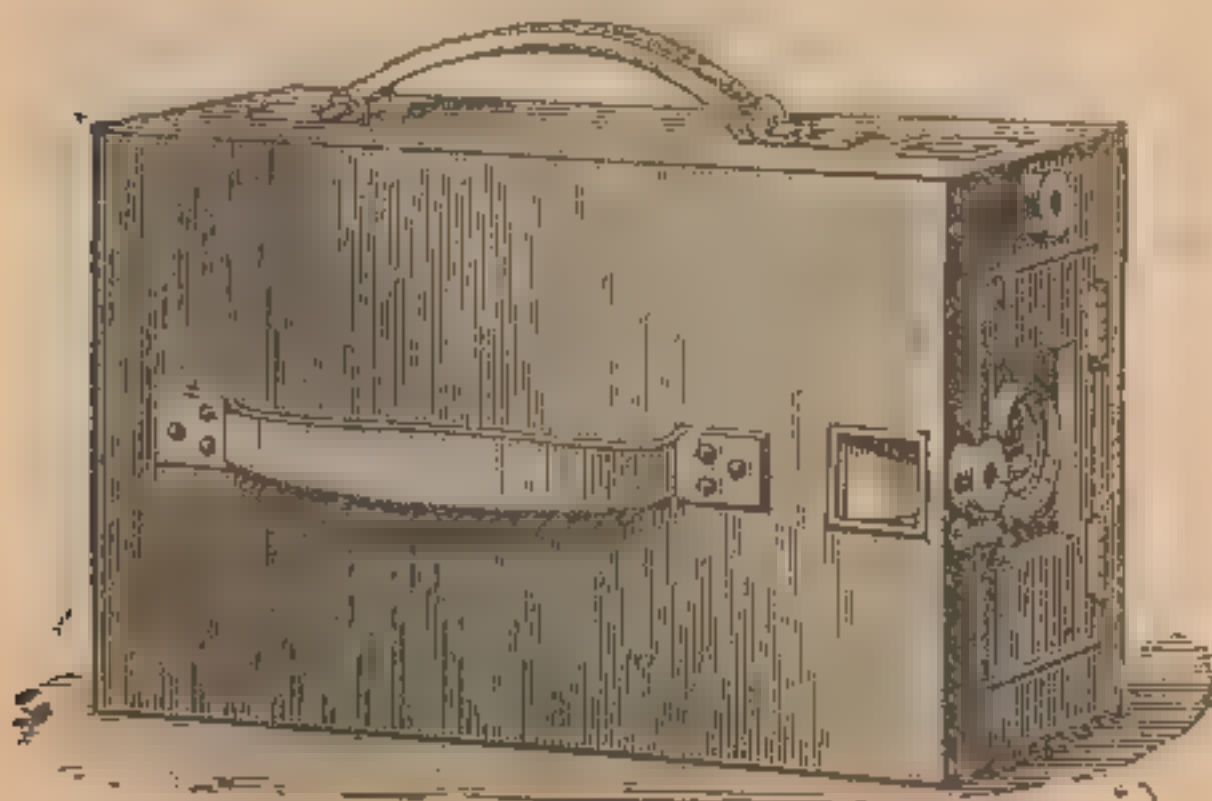

The apparatus gives 6 good clear views $1\frac{3}{8}$ inches in diameter on one plate.

THE "REPEATER."

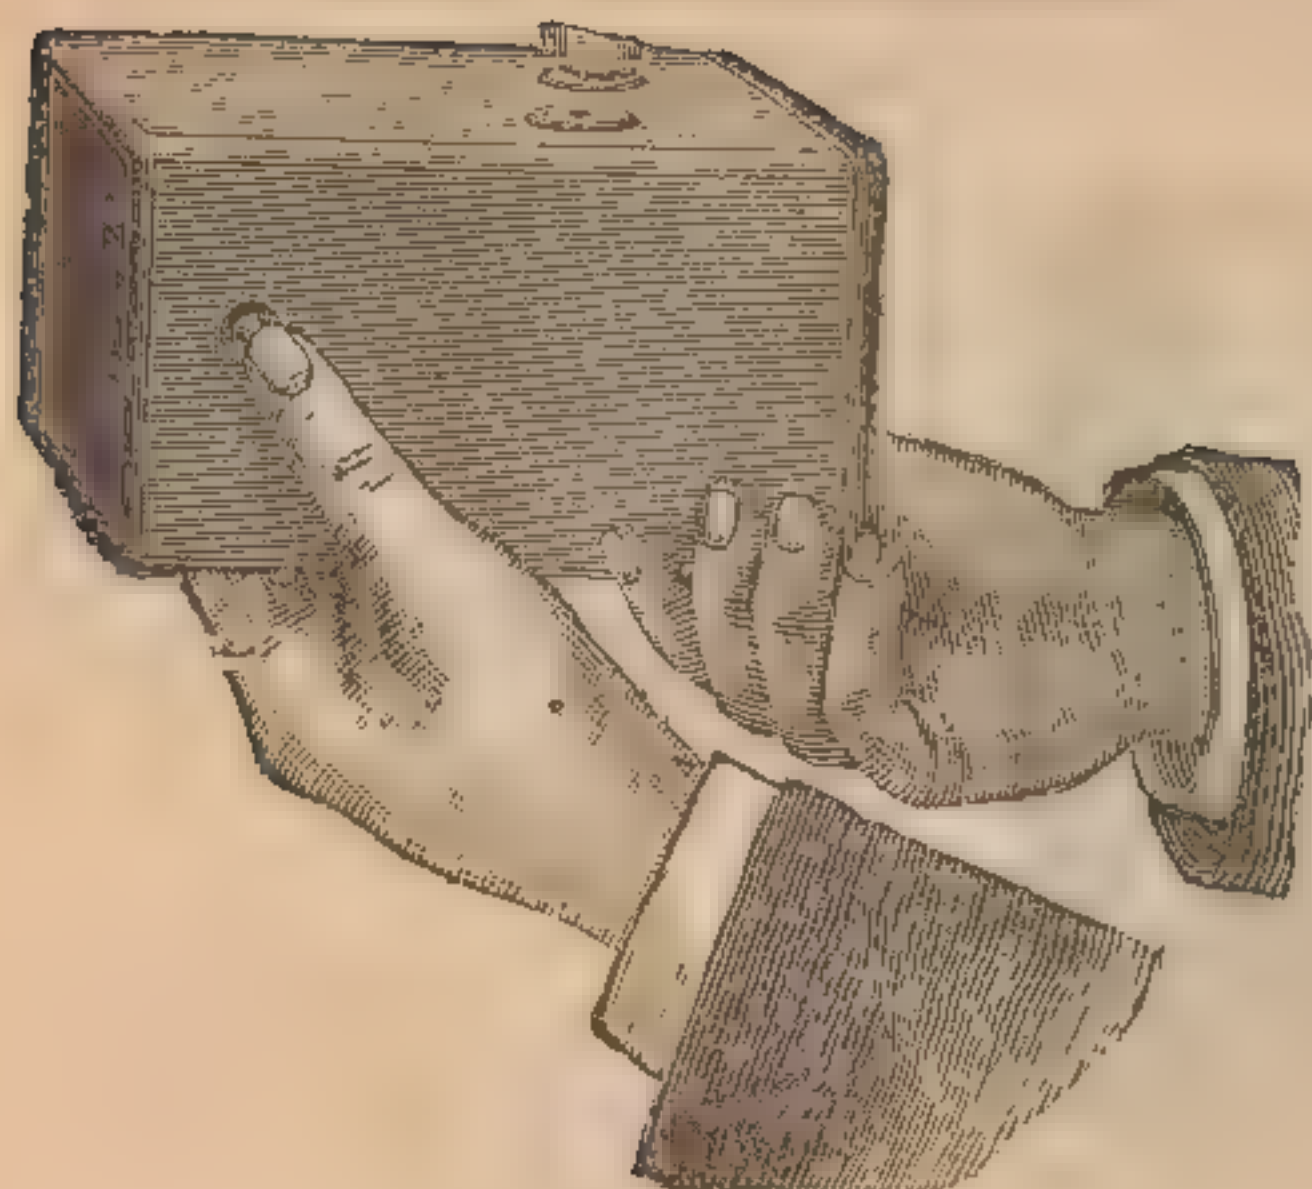

This carries 12 Plates, $4\frac{1}{4}$ by $3\frac{1}{4}$. By moving a lever the plate is changed and the Shutter set for another exposure. Price £3.

THE NEW DETECTIVE CAMERA.

With Dark Slides.

For those preferring Dark Slides this is one of the best, it carries twelve $\frac{1}{4}$ plates. Great Improvements have been made in it, and the price reduced from £5 10s. to £4

The Kodak in Position.

EASTMAN'S KODAK.

The Kodak is a wooden box, $3\frac{1}{4}$ by $3\frac{3}{4}$ by $6\frac{1}{2}$ inches, covered with fine black morocco, having in one end a lens aperture, on the top a folding key, a cord and a revolving disc, and on the side a button. When not in use it is enclosed in a neat hand-sewn sole-leather or carrying case with shoulder-strap.

With this Camera 100 pictures may be taken without change or refitting being necessary, fitted with a spool of Eastman's Films, sufficient for the 100 Exposures.

TRANSPARENT FILMS.

While the division of labour rendered possible by the Kodak, whereby the user is relieved of all the trouble of finishing his negatives, is a most important and original feature of the Kodak system, it must not be forgotten that with the new **Eastman Transparent Film** now supplied with the Kodaks, it is just as easy for the amateur to finish his negatives himself as when using glass plates.

LANTERN-SLIDE-MAKING CAMERA.

The above Camera is *always ready* for producing lantern slides from larger plates without the necessity of focussing; all that is required to expose a plate being to insert a negative in the grooves at one end (film towards the lens), and in the dark room put a lantern plate in the carrier provided for it at the other end, the caps effectually excluding all light except that passing through the lens. No dark slide or lens cap is required.

It is most usual to produce a square picture upon the lantern plate, which the above Camera does, of course by leaving out a bit of the length of the negative; but there is now a growing desire to take in the *whole* of the negative upon the lantern plate, thus preserving the complete composition, and so these Cameras are also made in the "OBLONG" form.

EASTMAN'S ROLL HOLDER, MODEL OF 1888.

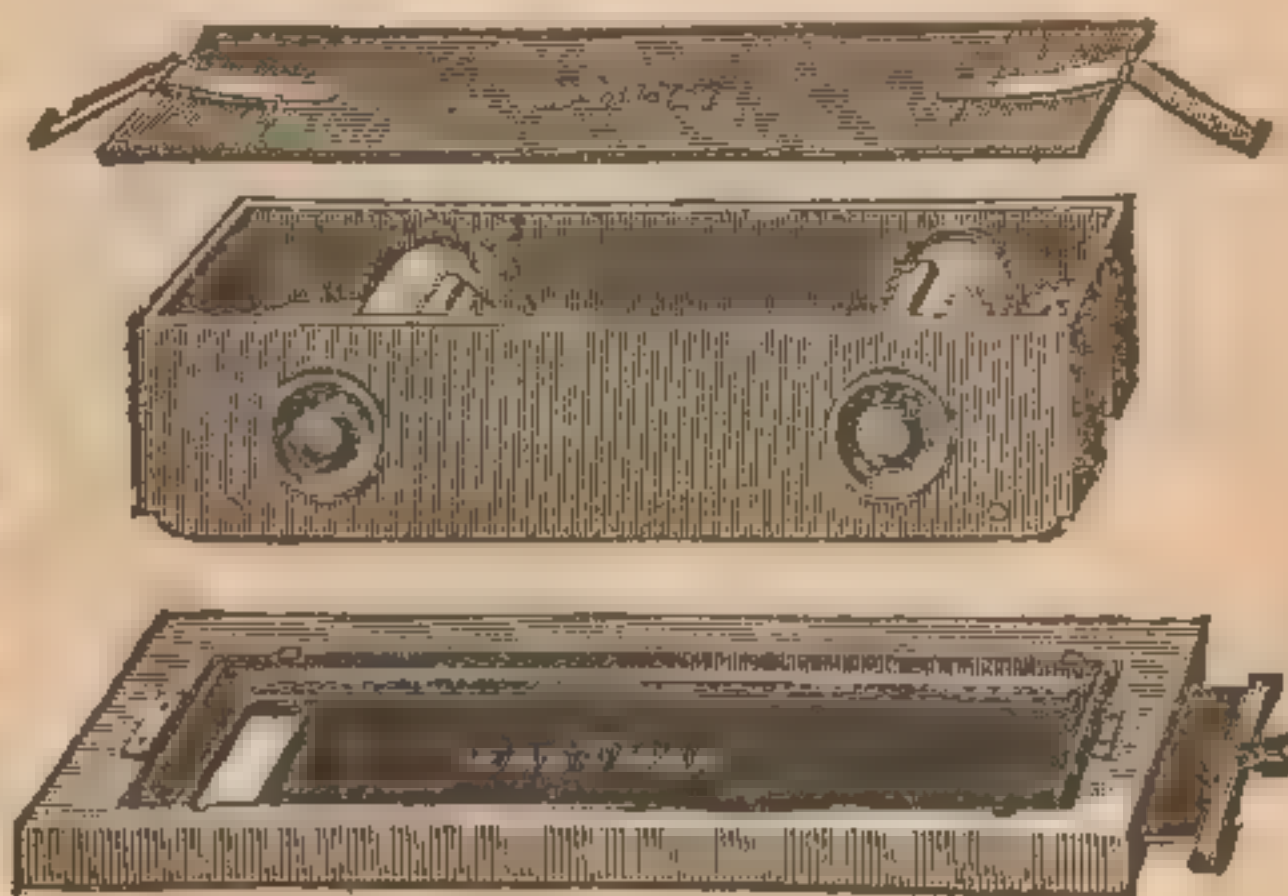

Probably no invention connected with photography has met with such favour as this Roll Holder, and to its perfect design and construction may be attributed in a large manner the immediate success of the Stripping Film, for when it be considered that a Roll Holder containing a film for forty-eight exposures occupies no more space than three ordinary dark slides, and weighs greatly less than the slides loaded with glass. Any thoughtful photographer will at least investigate the subject before purchasing his outfit.

One of the most important features of this Roll Holder is the maintaining of the film under definite tension during any atmospheric changes; this is the only instrument having such a device.

All instruments are made of best polished mahogany, and can be easily fitted to any existing camera.

No. 1.

No. 2.

No. 1 represents the complete instrument, showing the winding key at the upper left hand and the indicator and audible alarm at the upper right hand side.

No. 2 represents the instrument divided into three parts, the upper portion being the back removed from the central portion or case in which is seen the rolls or spools of film in position. The lower part is the front, which is left larger in all directions to permit of fitting to the camera back. This work can be easily done by any intelligent camera maker, but when it is possible we prefer to do it ourselves, for which we charge cost price only, in which case we always require the reversing frame or camera itself.

ENGLAND'S CELLULOID NEGATIVE FILMS.

These Films form a perfect substitute for glass plates, having all the advantages of portability and lightness of paper films without their disadvantages, while all fear of breakage is avoided.

The treatment required in making negatives by means of these films is exactly the same as that for dry plates. No extra time or trouble is necessary.

These films are coated by means of special appliances whereby a perfectly even coating is produced.

DARK ROOM DEVELOPING SINK.

AS SUPPLIED TO THE CAMERA CLUB, LONDON.

The above is designed to meet the wants of Professional or Amateur Photographers, and will be found to include every requisite for development. It is constructed in separate parts for convenience of transport.

The Sink is of Vitrified Enamelled Stoneware, and is fitted with an overflow waste stopper, so that it may be used either full or empty.

The water is supplied through a Swing Arm Tap, extending to the centre of the Sink and having a rose at the end of the arm which will be found very advantageous for thorough washing, etc. A second tap of the ordinary kind for filling bottles, etc., is also supplied.

The bench surrounding the Sink is grooved,

so as to drain into it, and is coated with shellac varnish. The 'sink' is also provided with a loose grid rack to carry dishes, etc., under the rose tap.

Prepared by a new and special scientific process, securing extreme solubility, and developing the finest flavour of the Cocoa.

SOLUBLE—EASILY DIGESTED—ECONOMICAL.

FROM SIR CHARLES A. CAMERON, M.D.,

President of the Royal College of Surgeons, Ireland; Vice-President, Institute of Chemistry of Great Britain, &c., &c.

"I have never tasted Cocoa that I like so well. IT IS ESPECIALLY ADAPTED TO THOSE WHOSE DIGESTIVE ORGANS ARE WEAK, and I strongly recommend it as a substitute for tea for young persons."

*Extract from Important Unsolicited Testimonial from G. HOTHER, Esq., M.R.C.S., L.S.A.L.***OVER TWO THOUSAND** have been received from Medical Men.

To Messrs. Coleman & Co., Limited.

7, St. John's Terrace, Lewes, October 7th, 1890.

I have been attending a child two and a-half years old suffering from Blood Poisoning, the child was very ill and refused all kinds of nourishment. I then tried your Liebig's Extract of Meat and Malt Wine Alcoholic, ordered him one table spoonful every two hours, which he took readily; he had nothing else except medicine for fourteen days—the child is now recovering and takes ordinary food.

Yours truly, GEO. HOTHER, Surgeon.

WINCARNIS

Is Sold by all Druggists, Wine Merchants and Patent Medicine Vendors in the United Kingdom, in Bottles 2s. 9d. and 4s. 6d. each. Ask for COLEMAN'S "WINCARNIS," or LIEBIG'S EXTRACT OF MEAT AND MALT WINE, and see that the word WINCARNIS is on the shoulder of the bottle.

If there is any difficulty in getting the Wine, write direct to the Manufacturers, who will forward Sample Pint Bottle, free by Post, on receipt of 33 stamps; Sample Dozen Bottles, free by Rail, on receipt of 30s.

The Proprietor publishes the following Extracts from amongst the many Letters he has received in testimony of its high value:—

LIVERPOOL.

I have much pleasure in offering my testimony to the value of your Areca Nut Tooth Paste, and have no hesitation in saying that it is the most efficacious and agreeable Dentifrice ever produced; I have recommended its use to my patients for many years.

W. J. NEWMAN, Surgeon-Dentist to the Liverpool Infirmary for Children.

From Her Majesty's Chemist, Portsmouth.

Your Tooth Paste is generally liked, of which I sell a fair quantity. A short time since received an order from Osborne for 6 pots, for the use of Her Majesty and Family.

THE business of the LONDON NECROPOLIS COMPANY extends to all that pertains to the Burial of the Dead (including Statuary Work when required), and owing to the completeness of their arrangements, and the extent of their resources, they are enabled to undertake the conduct of Funerals, not only to their own Cemetery at Woking, which is the largest in England, but also to any of the Metropolitan Cemeteries, and to all parts of the United Kingdom, according to a fixed and moderate scale of charges.

A Discount of $7\frac{1}{2}$ per cent. on their Tariff Prices (except Railway Fares for Mourners) allowed to Members of the JUNIOR ARMY AND NAVY STORES. The Tariff Pamphlet may be obtained by application at the Stores, or at the Office of the Company, 2, Lancaster Place, Strand.

→* Funerals for One Payment *

The whole expense of a Funeral, including Cemetery charges, may be ascertained and covered by a Single payment at the Company's Office, thereby avoiding the interminable items and the uncertainty which attend a Funeral conducted in the ordinary manner.

The Funerals are performed with the usual furniture, carriages, and attendants; but they may be considerably reduced by dispensing with the procession through the streets of London; and the NECROPOLIS COMPANY think it right to state that the arrangement of meeting at the Private Station in the Westminster Bridge Road has been introduced by them to release the Public from unnecessary and costly display, and that it is now daily adopted, and gives complete satisfaction.

The London Necropolis is accessible in fifty minutes by special train from the Westminster Bridge Road Station, or by the South-Western Railway to Brookwood Station. The natural beauty of the site, especial nature of the soil, and the arrangements generally, have frequently been the subject of the approbation of persons visiting the grounds; and Dr. Sutherland, in his report to Government on the subject of Burial Grounds, states, "The only Cemetery Company which combines in its practice a proper regard to public health and public decency, is the London Necropolis Company. The manner of conducting interments in this Cemetery at Woking is as commendable as the practice of the other Companies is the contrary."

Offices { 2, LANCASTER PLACE, STRAND.
188, WESTMINSTER BRIDGE ROAD.

The Company, as the originators of Funeral Reform, have issued a small Pamphlet explanatory of their system, which is simple, unostentatious, and inexpensive.

It can be had gratis, or will be sent by post upon application.

THEY ARE THE BEST.

WHY DO THE TEETH DECAY?

It has now been definitely established that decay of the teeth originates from two main causes—**ACIDITY** and **PARASITIC ACTION**. Teeth of Weak structure succumbing earlier than those of stronger make, but all alike being more or less subject to these influences.

THE DAILY REMOVAL OF THESE CAUSES REDUCES DECAY TO A MINIMUM.

IT CANNOT BE TOO WIDELY KNOWN THAT

"SALVINE"

THE SCIENTIFIC DENTIFRICE,

Is the discovery of an eminent London Dental Surgeon after several years' patient experiments, and is expressly designed to prevent decay of the Teeth, being an **ANT-ACID** and **ANTI-PARASITIC**. Being slightly astringent it is a corrective in cases of receding, bleeding, or spongy gums. It is soluble in water, creates no irritation, and, being perfectly harmless, can be used by young and old alike.

Its daily use by children cannot be too highly recommended.

The *Lancet* says:—"ANALYTICAL RECORDS.—'SALVINE' Dentifrice is a delicately scented paste which exhibits an alkaline reaction to test paper. It is perfectly free from injurious elements. From its composition it is evidently **Ant-Acid**, **Astringent**, and **Anti-Parasitic**. 'SALVINE' is contained in collapsible tubes, the use of which offers obvious advantages."

## IMPORTANT SPECIALITY IN WINES.

We have pleasure in drawing attention to "The first shipments of Wines from South Africa, made on the principles adopted in the wine districts of Europe." These wines, which we believe have a very great future before them, are a *distinct* and great improvement upon what has been known as Cape Wine. The vines have been reared and the grapes pressed by experts from Europe, and for vinosity, purity, and bouquet, these wines will surpass those made in the vineyard of any other wine-producing country that can be offered at similar prices.

# SPANISH BRANDY

---

The Phylloxera having caused great destruction amongst the Vineyards of the COGNAC district, the price of pure French Brandy has consequently risen very considerably.

To those who are in want of a good Brandy, at a moderate price, the Spanish Brandy sold at the Junior Army and Navy Stores, can be highly recommended. It contains all the dietetic and strengthening properties of the French spirit, and is guaranteed and certified to be pure.

# CADBURY'S COCOA

**ABSOLUTELY PURE.**

**PARIS DEPÔT, 90, FAUBOURG ST HONORÉ.**

Good Reasons why CADBURY'S COCOA Enjoys such  
World-wide Popularity.

It is guaranteed to be  
Absolutely Pure.

Can be made at once with  
boiling Milk or water.

It is not reduced in value by  
the addition of Starch,  
Sugar, &c.

It is especially rich in flesh-  
forming and strength-  
sustaining principles.

It contains all the delicious  
aroma of the natural  
article, without the ex-  
cessive proportions of fat.

It is a delicious, digestible,  
comforting, and refined  
beverage, suitable for all  
seasons of the year.

It is a gentle stimulant, and  
sustains against hunger  
and bodily fatigue.

In the whole process of man-  
ufacturing Cadbury's Pure  
Cocoa, the automatic  
machinery employed  
obviates the necessity for  
its being once touched by  
the human hand.

## CADBURY'S COCOA

**ABSOLUTELY PURE therefore BEST.**

**Precaution.**—Be careful to avoid foreign preparations,  
sold as pure, which are adulterated with alkali, this may  
be detected by the dark colour, and the scent when a  
tin is first opened.
